He brought in a change of ownership form signed by the estate representative of the claimant. I requested documentation showing that she has legal authority to sign for the estate. He called the attorney's office that is handling the estate and they stated that they will send the papers. We also discussed evidence of priority for two statutory claims. He had a short affidavit that was not notarized for the uses. We discussed areas that should be expanded within the affidavit. He kept the affidavit and I kept the change of ownership form and had it date stamped in. I said that I will hold it until the documents come in from the lawyer.

RE: Evidence of Priority

Dear Claimant:

* RESPONSE DEADLINE *
* MARCH 15, 1995 *

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, at a later date, conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, proof must be provided by the claimant supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the department. If you have received this correspondence from the previous owner of the property it is recommended that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Please find enclosed a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

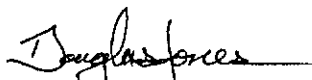

SPECIAL NOTE: The Department will not recommend the Notice be decreed by the court as claimed if no evidence of a priority date is submitted. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement must be in the form of a

January 10, 1995

notarized affidavit.

Please submit the required evidence supporting the priority date by March 15, 1995, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.

This affidavit is to help establish the date and right to the water right number A47-04150. The priority date is March 15, 1935. I was able to retrieve and review the water log written by the water master for 1935-1936. The water log clearly shows the water was delivered in 1936 the amount on the right is .80 CFS. The landowner at the time was Clyde Edminster, whose farm I now own.

To establish Mr. Edminster's identity I'll review the ownership. Charles Roraback originally owned the farm and filed the claim A47-00147A in 1892, he then sold the farm to Clyde Edminster, who in turn filed for A47-04150¹⁹³⁵ beginning the total CFS from Rock Creek up to 3.2 ($00147A = 2.4 + 04150 = .80$) Mr. Edminster then sold the farm to his son-in-law Earl Sallee of Kimberly, Mr. Sallee then filed on waste water from an unwatered source A47-04284 in 1958 and drilled a well in 1958 for right number A47-02555. Mr. Edminster had drilled 2 wells 1-1935 W.R. number A47-02492 and 1-1947 W.R. number A47-02514. In 1957 Earl Sallee's son-in-law moved on the farm and lived there

until 1966 while farming the farm. In his affidavit he attested to the fact that he ordered in all the Rock Creek water he had coming and irrigated with said water. After moving in 1966, the farm sold and then again in 1974 to Mr. A Keith Rhodes from whose estate I purchased the farm along with my wife Sue Ann Claiborn.

I would like to keep the 1935 priority date for the .80 CFS from Rock Creek and be able to use the water beneficially on a farm which lies in a critical groundwater source area. The wells are a continued worry as to expense and water table levels which are declining due to over use and drought conditions. I believe if the wells can be left off that benefits everyone in the area. I hope this affidavit helps establish the use, priority date and ownership of the farm throughout the farm history.
