FROM: Georgia Satterlee
DATE: 25 March 1998
RE: 47-07889

On 20 March 1998 at 1100 hours, I met with Tom Fairchild to perform a field examination for the above permit. The permit is for domestic, irrigation, and stockwater from a spring that is tributary to Deep Creek.

Mr. Fairchild told me that in order to get the financing for his home, the lender required that a well be drilled for the domestic. In 1995 a well was drilled. Due to questionable quality of water, a second well was drilled. The second well seems to be adequate for their culinary needs. I did not ask about proper abandonment procedures regarding the first well. Larry M. Nielson of Eaton Drilling can probably enlighten us on this aspect and/or Gary Funderberg has records on the abandonment??

A portable 5 horse power pump from the spring which feeds several hand lines. The maximum amount of sprinklers operating at one time is 6 Rainbirds. The size and type of sprinklers are 30/30H with 1/8" nozzles. The pressure measured was low (12 psi), consequently the output is estimated at 1.5 gpm. There were 3 sprinklers operating. Normally there will 3 sprinklers running simultaneously with a drip irrigation system. The recommended rate is for maximum sprinklers used.

Although the cows were not present at the time of examination, Mr. Fairchild says usually there are 15 to 20 head of cattle. The water is pumped through the same 1.5" pipe that feeds the irrigation and on in to stock tanks. The two stock tanks hold approximately 75 gallons.

The recommendation for domestic will not be allowed as the well covers this use. However, the spring can be used as a back up if the well does not operate. The irrigation will cover 1.8 acres and stock water will be for 20 cows.

A47-04271 & A47-04272 While out doing the field examination for 47-07889, I neglected to verify these rights. From March 13, 1996 communication documentation, "...Tom's deceased dad is the original applicant." He may be the right holder now?? Although 47-07889 may not be directly related to the above statutory claims, I still wanted to let the future aj reviewer be aware of what I did 20 March 1998.

RE: Evidence of Priority

* RESPONSE DEADLINE *
* MARCH 15, 1995 *

Dear Claimant:

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, at a later date, conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided by the claimant supporting the priority date claimed.**

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the department. If you have received this correspondence from the previous owner of the property it is recommended that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Please find enclosed a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

SPECIAL NOTE: The Department will not recommend the Notice be decreed by the court as claimed if no evidence of a priority date is submitted. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement must be in the form of a

January 10, 1995

notarized affidavit.

Please submit the required evidence supporting the priority date by March 15, 1995, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.

DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Acel and/or Lillian Fairchild
