NOTE TO FILE

From: Vikie Hancock

5/18/99

Regarding: Claim number A47- 04286

While filing this claim, Mr. Moore estimated that he currently had 150 dairy heifers (non milking) but was planning to expand up to 1000 head. I explained that his stockwater claim recommendation would not include future plans, but what the current practice was on the property. He chose not to list any exact numbers of stock on his claim. He purchased the property in January 1998, and has no idea what number of stock was on the place circa 1987. I discussed the 13,000gpd limit on de minimus claims.

He also said that he wished to change the point of diversion of this claim to the south border of his property and pipe to tanks. His intention was to keep the cows off the stream bank. I told him that he would want to file a transfer with allocations, and he indicated that he would do that at a later date.

Regarding: Claim number A47- 04286, A47-04288, and A47-04287

A representative of Sea Pac was in this afternoon inquiring about possible over allocation of a seep in the area of the above claims. He requested copies of other claims in the area and I also make copies of these new claims which were not yet in the AJQ data base.
