Nature of Contact phone call

Substance of Communication after talking with Mike Courtney,
she called wondering if they should change ownership
on A47-04308 and A47-12879, since they are carrying
the contract on the sale. She also expressed concern
that he might try to transfer the water off the property.
Told her unless they had a clause in the contract, he
probably was entitled to have property in his name.
As far as transferring, he could file a transfer to move
the water and they could file a protest if they saw
it advertised in the paper. She decided to confer
with her attorney before deciding what to do. She
will also send address updates on A47-04308

RE: Evidence of Priority

Dear Claimant:

* RESPONSE DEADLINE *
* MARCH 15, 1995 *

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, at a later date, conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the department. If you have received this correspondence from the previous owner of the property it is recommended that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Please find enclosed a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

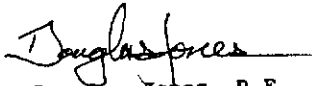

SPECIAL NOTE: The Department will not recommend the Notice be decreed by the court as claimed if no evidence of a priority date is submitted. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement must be in the form of a

January 10, 1995

notarized affidavit.

Please submit the required evidence supporting the priority date by March 15, 1995, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.
Water Rights Supervisor

DATE: November 24, 1995

FROM: Jim Stanton

SUBJECT: Claim A47-4308

On 7-25-95, I conducted a licensing exam for 47-7803B. This system, consisting of 3 existing irrigation wells and one more to be drilled under Permit 47-08269, waters 226 acres via a common mainline. Basically, 3 80-acre tracts are sprinkled with a combination of groundwater and Salmon Falls Reservoir shares. The wells are supplemental, but are used every year due to constantly-short supplies of surface water. There is 1 cfs of canal water available part of the time.

This claim is for irrigation from a small well and 10 hp submersible pump located behind Mike Courtnay's house in Sec. 36. Per instructions from Shelley Keen, I have listed this well as a P/D in my licensing exam. See the exam for more details on this system. As this system is still under development (proof on 8269 is due next March), no water measurements were made.
