Dec. 21, 1992

TO WHOM IT MAY CONCERN:

I have personally seen the irrigation well and pump in operation supplying supplemental irrigation water to the crops of Robert S. Blastock. Location of said well is T-9: R 16E: S-31, SE of SW. The amount of water the pump delivered was 1 FT. (50) inches.

These observations were made in 1954, 1955, 1956 and 1957. I remember these dates well because I had just drilled a well on my farm and had conferred with Mr. Blastock about the production and use of his irrigation well.

To Whom It May Concern

December 21, 1992

RE: Snake River Basin Adjudication Claim A47-04322, Robert Blastock

Dear Sir;

Our records show that Mr. Blastock has filed the above-referenced claim with this Department. He claims 1.0 cfs of water from a well for the irrigation of 63 acres with a 1954 priority date. The amount claimed is within the legal limit for irrigation water in Idaho.

This claim is based on beneficial use of water developed prior to March 25, 1963. This claim is only a claim at this time; its validity has never been determined by this Department. The claim will eventually be investigated as part of the Snake River Basin Adjudication, and recommendations will be made to the Adjudication Court. The claim may be recognized as a valid water right, or it may not. Only the Court can make this determination.

Mr. Blastock has stated that he stopped using this supplemental well because he was able to change his drainage lines to make better use of his canal water. With the continuing drought, however, he is concerned that delivery cuts by the Twin Falls Canal Co. will necessitate reactivation of this well. Permits for supplemental wells to replace short surface supplies were granted in 1992, and are expected to be re-authorized in 1993. Although Mr. Blastock has not applied for such a permit, he could probably obtain one.

Sincerely

James E. Stanton

COMMUNICATION DOCUMENTATION

Claim No. A47-04322

This form is to be used to document public record information requests regarding any SRBA claim or claims. The form may also be used to document IDWR communications requesting information regarding any SRBA claim or claims when the request is not made in writing or the claim verification report is not readily available to document the request. This form is to be filed in all relevant claim files or a central office file.

IDWR Employee/Agent Jeanie Robertson Date 1/12/95Contact Person(s) Robert BlastockNature of Contact office visit

Substance of Communication he had received his 'Evidence of Priority' request and came in with a driller's record from the T. F. Canal Company 12/15/45. I told him we really needed something showing pump use. He remembered submitting something (an affidavit or something) a couple of years ago. I checked the micro-film but nothing. Checked the claim and there was an affidavit submitted on 12/21/92 by James Brenner which seemed to satisfy the request for now. The claim is for 63 acres (supplemental well to canal shares) but he indicated he now co-mingles the water and is able to irrigate all but 70 acres of the 270 acres he owns with the water.

RE: Evidence of Priority

* RESPONSE DEADLINE *
* MARCH 15, 1995 *

Dear Claimant:

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, at a later date, conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the department. If you have received this correspondence from the previous owner of the property it is recommended that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Please find enclosed a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

SPECIAL NOTE: The Department will not recommend the Notice be decreed by the court as claimed if no evidence of a priority date is submitted. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement must be in the form of a

January 10, 1995
page 2

notarized affidavit.

Please submit the required evidence supporting the priority date by March 15, 1995, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.
Water Rights Supervisor
