Buhl,

I went down to Melon Valley and met John at his home to review this file and I gave him a change of address form which he filled out for me for these four files. We went thru each file and He Marked the POD on each photo and where the two irrigation systems are and approx. lands for each he also marked on the photo in file 7159 where the Assn. Water is delivered and approx. where it is used. John did advise me that he was going to go into IDWR office and visit with Kelly again next week, he told me that all of this land is pasture and flood irrigated. We then went out to his fish ponds and his Irrig. POD's . At ponds # 3 they are approx 25 yards long 10 yards wide X 4 feet deep, at pond # 4 they are approx . 30 yards long X 12 and 15 yards wide 5 feet deep . John told me that these fish ponds have not been in operation for approx. 12 years but his plans are to put them back into operation when he retires.
