**CONVERSATION MEMO RE: CHANGE OF OWNERSHIP
FOR A47-07412 AND A47-02159W**

Mr Dekleinhans submitted a change of ownership and a warranty deed in 1994 for parcel 1-A. The reviewing agent changed the entire rights for both claims into Mr Dekleinhans' name.

Upon a desk review and subsequent field visit, I found that the warranty deed only described a 3.3 acre parcel and that only 3 acres of that parcel are irrigated. Therefore, I split the original claim into parts A47-07412A and A47-02159AG for (FOWLER) and A47-07412B and A47-02159H for (DEKLEINHANS).

Ownership documentation is in files A47-07412 and A47-02159W.

RE: SPLIT OF ADJUDICATION CLAIM A47-07412 AND COMMENTS CONCERNING
A47-02159AH.

Dear Mr Dekleinhans

Enclosed is your copy of A47-07412 as split. The split was based upon conversations with you and Jim Fowler Jr and the warranty deed describing lot 1-A. The splitting of this claim does not reflect the information concerning the current use of this right as you relayed to me. Field verification of this right, the irrigation system and historical use will be conducted at a later date.

I had a meeting with Robert Ring on 1-16-1996 and a portion of our discussion concerned the portion of Section 19 govt lot 7 identified as parcels 1-A, 1-B, 2, 3 and the ground owned by Mr Dobel. Mr Ring stated that he told you that the irrigation system originally licensed under 47-02159 and subsequently split into several individual parts was never appurtenant to that ground. Based upon this information and current guidelines, I am unable to recommend any claims split from the original claim A47-02159V as that claim was based upon 47-02159. If you have additional information concerning the irrigation system's history that would affect the recommendation please contact me at this office.

Sincerely

Kelly K Christensen
Sr Water Resource Agent

*domestic use @ .04 CFS

*for ir the original
right was licensed
at .14 CFS For 7 Acres
or 0.02 CFS/Acre.*

*irrigation season.
According to Mr. DeKleinham the same
system as licensed
exists. I recommend the
system capacity as previously
licensed by the department.*

NOTES: The system is still the submersible pump tied into a 1000 gal pressure tank to a buried sprinkler system. Mr. DeKleinhans understood that the system could currently be operated as it historically was. The system may be split in the future through the transfer process to add individual wells per parcel but this does not exist at this time.
