She and I discussed what I found out regarding the allege violation. I explained that 'waste water' is somewhat on the bottom of the water right appropriation chain of importance. Also, the Burton's have 2 canal shares after LaRue's (both from Headgate G2. The Wards, Shanks, and Heitz' get their canal shares out of Headgate G1. Please see TFCC map. Although Burton appears to be diverting the water with several different diversions (see #1-#4 on schematic), it appears to be appropriate to get the shares on their land. I suggested (repetitively) that Ward clean out the small concrete pipe (see Photo Page 3/3 photo number 2.) and see if they even get waste water. With the above information, she appears reluctant to follow through with adj. claim. In her words, "What is the point to file and waste \$50 when we may not even get the water?" I told her it was her call either way...

RE: Filing Late Claim

Dear Edith,

I wanted to let you know we are able to process the adjudication claim for 47-07644. I have enclosed a copy of the approved request. As it stands, there will be no late fee nor a fee for each acre irrigated. The only payment due is the standard filing fee which is \$50.00. I think you and I discussed the option of all three of you ladies chipping in a third each, which would be approximately \$17.00 a piece.

The other item I have information on is the situation that is occurring in the ditch that carries the waste water. I have researched, analyzed, and have compiled the data. I would like to go over all the information with you.

What I would like is for you to call for an appointment when it is convenient for you to come in and resolve the above issues. Kathy Shank and/or Beverly Heitz are more than welcomed to come in also, but one claimant is just as beneficial as all three.

I will be out of the office until 06 April 1998. If you would like to set something an appointment before I return, I suggest calling Jeanie Robertson. She and I are collaborating on the adjudication claim issue.

I am looking forward to seeing you in the near future.

Cordially,

Georgia Satterlee
Water Resource Agent, Sr.

was aware of our water being taken
2 yrs. ago, when hoses continued to
be built N. E. of me.

I saw a man walk up & down
the fields several times during the
2 yrs. like he was checking ditches
& etc.

2 yrs. ago Roy Haver farmed my
acreage, he found the water was
being used there by someone on
the East of me -

He saw the man & told him the
water belonged to us on the West side
The man said he needed water.

He did not contact any of us
to see if there was a problem
with the water.

Last year I had someone else farm
my place.

This year Roy will take care of my

By my fence we found the 1st headgate. About 50 yds ft from it, was another small ditch cut & boards in it.

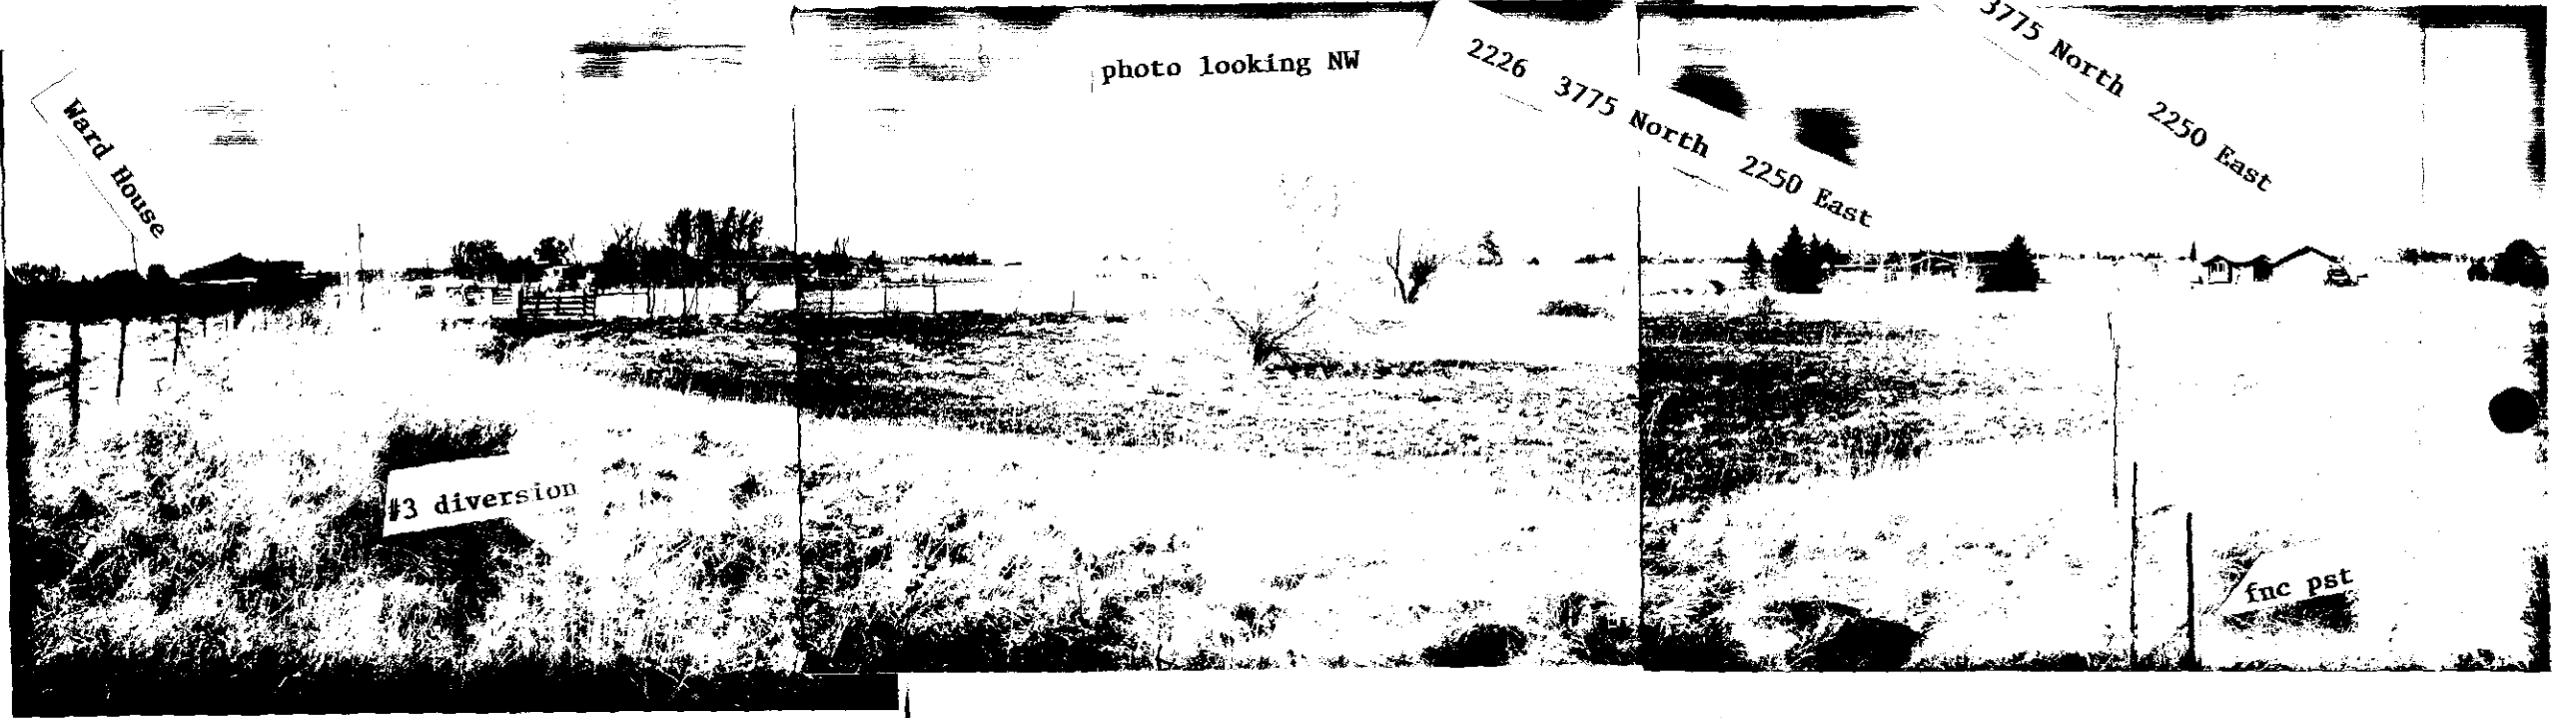

Further about 50-75 ft. rocks & boards were in another small ditch.

~~Another~~ 30 ft was another. About 100 yds past was a pipe in the ground diverting the water N.
