Mr. Harry Hansen
6810 Birds Landing Road
Birds Landing, California 94512

Dear Mr. Hansen:

This is in regard to your discharge of dredged and fill material in the North Fork Salmon River and adjacent wetlands associated with the construction of an irrigation diversion in Sec. 34, T.26N., R.21E., B.M., Lemhi County, Idaho. In accordance with Section 404 of the Clean Water Act (33 U.S.C. 1344), a Department of the Army permit is required for the discharge of dredged or fill material into waters of the United States, including wetlands. This includes excavation activities which result in the discharge of dredged material and destroy or degrade waters of the United States.

On July 22, 1993, we wrote to advise you that we were investigating whether the work you performed was a violation of the Clean Water Act (33 U.S.C. 1344) and to solicit information about the activity. We have completed our review of your July 26, 1993 letter and we have consulted with the Idaho Department of Water Resources. Based on our review of the available information, we have determined that the work you performed in the North Fork Salmon River and its adjacent wetlands is exempt from the requirements of Section 404 of the Clean Water Act under 33 CFR 323.4(a)(3) (copy enclosed). This exemption is in effect only if the requirements of 33 CFR 323.4(b) and (c) are met. If these requirements cannot be met, a Department of the Army Permit will be required, and an application form should be submitted to us.

This determination is applicable only to Department of the Army permits administered by the Corps of Engineers. It does not relieve you of the responsibility to obtain other Federal, state, and local permits which may be required. You are advised that authorization may be required from the Idaho Department of Water Resources for your project. You should contact them to obtain any necessary permits.

Your project may also be subject to a local floodplain management ordinance adopted pursuant to the National Flood Insurance Program. I recommend that you contact your city or county

MICROFILMED

zoning office regarding any approvals required under their jurisdiction.

Your cooperation and patience in this matter is appreciated. If you should have any questions or need further information, please write or call Mr. Robert Brochu of my Idaho Falls Regulatory Office at 208-522-1645.

Sincerely,

William Ed McDowell

A. Bradley Daly

Dear Mr. Tronstad:

As a follow-up to our telephone conversation of February 2, 1994, enclosed are copies of the follow documents that you requested:

1. Affidavit of J.W. Clements, August 18, 1993.
2. Hansen Ditch Profile by Dave Walrath, IDWR, August 19, 20, 1993.
3. Letter from G. Dean Hilliard, Chief, Regulatory Branch, Corps of Engineers to Ronald D. Carlson, IDWR, August 24, 1993.
4. Letter from Joanne Hansen to Dave Walrath, IDWR, August 31, 1993.

You also requested a description of the status of the Snake River Basin Adjudication (SRBA) and suggestions as to how you might be able to participate. The SRBA is a court case commenced on November 17, 1987, in the Fifth Judicial District Court in Twin Falls County, Idaho, Case No. 39576. The purpose of the judicial action is to determine the nature, extent and priority of the rights of all users of surface and ground water from the Snake River basin in the state of Idaho. Enclosed for your information is a copy of the February, 1994, status report for the SRBA prepared by the Idaho Department of Water Resources (IDWR).

The record owners of all real property within the basin were given Round I notice of the adjudication and provided a time period within which to file claims to water rights in the action. IDWR completed first round notice in February 1990 and the last day for filing water right claims in Lemhi County was May 10, 1990.

Round II notice to potential claimants who did not file claims during Round I is on-going basin by basin. Round II notice for Basin 75 in Lemhi County is not yet scheduled. A copy of Sequence of Director's Reports is enclosed. Note that Basin 75, the Middle Salmon River, appears 23rd out of the 24 reporting areas to be

MICROFILMED

APR 19 1994

Mr. Tim Tronstad
Page 2
March 15, 1994

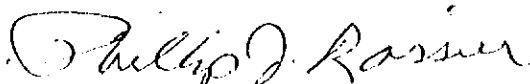

adjudicated. It likely will be some years before Round II service is scheduled for Basin 75.

In response to your request, I have requested that your name be included in a list of persons to receive Round II notice for Basin 75. I have also requested that the February 4, 1994, letter from your attorney Kirby S. Christian of Missoula, Montana, be placed in the SRBA claim file for Claim No. A75-04417 in the name of Harry Hansen.

It is my understanding, based upon the provisions of section 42-1412, Idaho Code, that you will only be assured of the right to file an objection to the Hansen claim in the SRBA if you are a party to the adjudication. A party presently is defined by the adjudication statutes to include "any person who is a claimant, or any person who is served or joined." The director of IDWR is required by current section 42-1408A, Idaho Code, to serve notice of the order commencing the adjudication upon each person listed as owning real property on the real property assessment roll within the boundaries of the water system to be adjudicated. It seems reasonable to conclude from these statutory provisions that should you exercise an option to purchase land adjacent to the Hansen property you will succeed to the party status of your predecessor in interest in the SRBA.

Please let me know if I may be of further assistance.

Sincerely,

PHILLIP J. RASSIER
Deputy Attorney General
Department of Water Resources

RECEIVED

SEP 02 1993
Department of Water Resources
Eastern District Office

Dear Mr Walrath.

As you are aware in May of 1993 we hired a contractor to clean our agricultural irrigation ditch so we could irrigate our fertilized pastures. At that time a Mr. Ironstad made a complaint to Dept. of Water Resources and to other agencies, since that time we have attempted to settle this matter in every way possible.

On August 11, 1993 there was an on site meeting attended by yourself representing D.W.R. Rob Brochu, Dean Hillard and legal counsel all representing The Army Corps of Engineers, Bob and Don Delaney, Richard Howell, my husband and myself.

At that time Mr Hillard of the Army Corps of Engineers told us not to do any work in the North Fork River and they recommended that we not finish work on the irrigation ditch until this matter was settled. Mr Hillard said they would not make any decisions until the Dept of Water Resources

MICROFILMED
NOV 18 1996

made a determination as to whether or not this was an agricultural ditch. As of the above date we have not received notice from your Dept. On August 25, 1993 I spoke with Eric Verner and he said he would have something in the mail by the end of the week.

I have asked numerous times if our time is put on hold, I believe it is called tolling, for the 5yr. requirement, I have not been given an answer other than you thought so.

The ditch was run in 1989 and we only have until 1994 to do so again which was what we were attempting to do in May of 1993. I have asked twice to have something from your Dept. in writing as to that effect.

Since the Corps of Engineers told us verbally with the aforementioned witnesses not to work in the river until a decision was made by the Dept. of Water Resources and since we have been here for over a month with no decision being made, I am under the assumption that our time is not now running and that we will have additional time in 1994 to run water through our ditch.

Sincerely
Joanne Hansen

Dear Committee Members:

I am writing this letter to inform you that the Soil Conservation Service is unable at this time to service the ACP referral # 94-0009 on Harry V. Hansen for the following reason:

There is a question as to whether or not the Hansens have a legal right to divert irrigation water from the North Fork of the Salmon River and across private property to their farm. We will need to have some kind of confirmation from Idaho Department of Water Resources or some other Governmental entity that the Hansens have these rights. Mr. Hansen was notified of this by Bob Minton by telephone this morning.

Sincerely,

Janet Lee-Minton

Dear Tim,

I have been putting off writing you the letter you requested about the ditch across your property north of Gibbonsville, Idaho waiting for my Area Engineer to get back to me. He has been in touch with our higher ups and has advised me not to write you at this time. In fact, I have been given very blunt orders NOT to write the letter you asked for at all. If you really want to pursue getting something in writing, let me know and I will call my Area Engineer and find out how long it will take for him to schedule a day to meet with you, or I can show him the site myself if you can't be there to meet him. I apologize for this taking so long, and unfortunately, it is going to take a little while longer. I can be reached at the above number usually between 7:00 AM and 4:00 PM Monday through Friday.

Sincerely,

Bob Minton
Soil Conservation Technician

Re: Delaney-Nichols Group Purchase of Property
from Richard Howell Trust

Dear Sir:

This firm represents the Delaney-Nichols Group and Tim and Marianne Tronstad.

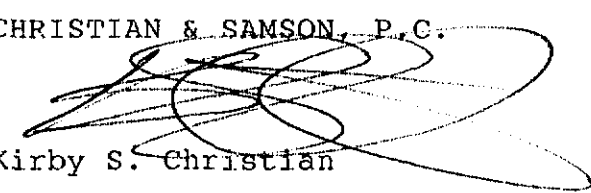

I have reviewed an agreement entered into between Richard L. Howell, Trustee, and Delaneys-Nichols Group and/or Tim and Marianne Tronstad dated July 22, 1993.

Paragraph 5 of that agreement provides that the Delaneys-Nichols Group and/or Tim and Marianne Tronstad have the right to purchase certain real property described in Exhibit "A" of the agreement for a period of eighteen months at a purchase price of \$100,000.00 cash. This agreement has been recorded and is of public record. As such, your agency is placed on notice of my clients' interest in the property. As a party interested in the property, my clients are entitled to receive from your agency all documents or other correspondence relating to the property.

If you have any questions or concerns, please contact me at your convenience.

Sincerely,

CHRISTIAN & SAMSON, P.C.

MEMO

DATE: AUGUST 23, 1993

TO: A75-04417

FROM: ERIC VERNER

SUBJECT: SUMMARY OF DOCUMENTS SUBMITTED SUPPORTING PRIORITY DATE

=====

The above mentioned claim is a beneficial use right claiming diversion of water from the North Fork Salmon River for irrigation of 61 acres. This memo summarized the information submitted regarding the history of the use of this water.

Several documents were submitted establishing the time when the land was homesteaded/patented. Includes:

- 1) "Report on Agricultural Homestead Applications" Completed on Nov. 13, 1908 & 1908 by USFS Land Examiner. Mentions use of water from North Fork for irrigating hay pasture. Attached map shows survey of entire parcel, is same as is used today.
- 2) "Report on Homestead Claim" completed Sept. 7, 1915, by Forest Ranger. Recommends that homestead claim be approved. Report mentions that "about 50 acres" have been ditched, cleared and irrigated, producing timothy hay crops.
- 3) Original survey drawing of H.E.S. #94, completed Sept., 24 1913 shows the ditch from the North Fork in the same location that it is in today.
- 4) Abstract copy of Instrument No. 17912 giving title of H.E.S. #94 to John B. Achord on July 28, 1917.
- 5) Excerpts from "Centennial History of Lemhi County, Idaho" mentioning family history of John B. Achord. Gives dates that this family occupied this land.
- 6) Copy of Abstract of Title for H.E.S. #94. Includes date of patent, settlement of John B. Achord Estate in 1922 to his wife. Deed of Right-of-Way for Lost Trail Highway, dated May 17, 1923. This included provisions for getting water from State Creek under the road to the property.
- 7) Notarized statement of Robert H. Hagel, longtime resident of Gibonsville. States his recollection of irrigation on the property begins in 1925 or 1926 on. States he saw water in the ditches from State Creek and the North Fork.

MICROFILMED

NOV 18 1996

- (SEATTLE)
- 8) Notarized letter to Tim Tronsted from John W. Jackson, stating the last time he knew of water diverted into the ditch was in the late 1950's. States that use by Edwards in 1989 was "done without his knowledge".
- 9) Affidavit of Howard Harry Hemphill. States he used the North Fork ditch in 1977 and 1978. Mentions that they had to rebuild the diversion for the North Fork in 1978. State Creek water was used from 1979 to 1985*
- 10) Notarized letter to Mr. & Mrs. Hansen from Joseph S. Edwards, previous owner stating that he last used the North Fork ditch in 1989. Used this water to irrigate the lower pastures twice that year. Also mentions that he hired Jerry Perry to do maintenance on the ditch. Mr. Perry's statement is included supporting that he did do work on the ditch in 1989.

REPORT ON HOMESTEAD CLAIM.
Hailey Land District
SALMON NATIONAL FOREST IDAHO.

1.
Salmon Claims.
Achord, John B.
H.E. Serial No. 06588.
List No. 4-84.

Report submitted in response to a notice of intention to make Final Five Year proof on October 15, 1915, dated at U.S. Land Office Hailey, Idaho, August 23, 1915, enclosed with letter CGD from Receiver of Hailey Land Office, dated August 23, 1915.

1-CLAIMANT:- John B. Achord, Gibbonsville, Lemhi County Idaho.

Family consists of wife and two children, having actual residence on the claim. They have a residence in Gibbonsville, Idaho, which is used during winter months for sending children to school.

2-DESCRIPTION OF CLAIM:- This claim is located on the North Fork of Salmon River about seven miles from Gibbonsville, Ida. in a North Westerly direction. It is on a bar about fifty feet above the creek level. It is in Unsurveyed Sections 3 and 10 Township 26 North Range 21 East Boise Meridian, designated as Homestead Entry Survey No. 94 List No. 4-84.

3-TOPOGRAPHY AND SURFACE:- The south forty of this claim is under cultivation, producing timothy and clover hay. About twenty acres in the central part is under cultivation. The balance is covered with a light growth of willows and Lgp. Pine trees, all easily cleared and tillable when cleared. A small strip along the western edge is covered with Lgp. Pine, but when cleared is valuable for agricultural purposes. The entire area is valuable for agricultural purposes when cleared. It has a gentle eastern exposure, surface free from rocks and is not cut up by gulches or creeks. The soil is a deep sandy loam and easy to cultivate.

4-SETTLEMENT AND RESIDENCE:- The claimant alleges settlement on the tract in August 1906, which is very likely correct as it is a well known fact that the claimant established residence as a squatter on the land prior to November 5, 1906, or the creation of the Salmon National Forest.

Duplicate for District Forester.

MICROFILMED
NOV 18 1996

Date of Entry, October 25, 1909.

The exact date actual residence was established is not known, but was unquestionably several months prior to November 5, 1906, or the creation of the Salmon National Forest.

The claimant has resided continuously on this claim since November 5, 1906 and made it his home to the exclusion of a home else where. His family resided with him on the claim except from September to April and during this period they moved to Gibbonsville to send the children to school.

There is now and has been continuously since and for some time before November 5, 1906, a habitable house upon this claim, which has been used by claimant continuously to the exclusion of a home elsewhere from Nov. 5, 1906, the date of the creation of the Salmon National Forest, to Aug. 31, 1915, the date of examination, or a period of nine years.

He names the following witnesses of reliable standing in this community; Robert Demont, George Bauer, Fred P. B. Dunton, Willard Dunton, all of Gibbonsville, Idaho. To my own personal knowledge and from observations as Forest Ranger in this district, he has continuously resided on the claim and harvested a profitable crop each year from April 3, 1909, to August 31, 1915, or the date of this report.

5-IMPROVEMENTS:- The improvements consist of one log dwelling, 30' X 36' with shingle roof, valued at \$1,000, Two log barns, 20' X 30' worth about \$400. About 480 rods of leaning fence, cost about \$1 per rod. Total value of improvements, \$1,880. All the above named improvements were built by claimant since he settled on the claim.

Water for domestic purposes is taken from a spring on the claim.

CULTIVATION:- Since claimant settled on this land he has cleared, ditched and cultivated about fifty acres. He has raised about forty tons of hay each year on this land and fed it to his stock.

No orchard as it is too high for fruits.

It cost about \$25 per acre to clear the land of brush Lgp. Pine and rocks and when cleared is worth about \$60 per acre.

Last year he raised about fifty tons of hay and a small garden of potatoes and other hardy vegetables. Owing to the elevation he is unable to produce other than the hardiest varieties of vegetables.

7-GRAZING:- Claimant owns thirty head of cattle and six head of horses, and are grazed on the Salmon Forest during the summer under permit and are fed in winter on the claim.

8-TIMBER- About twenty acres of this claim has a growth of Lgp. Pine on it. It grows along the western and northern parts. The timber is all valuable for building logs, posts and poles, but owing to the location it is of very little value. Claimant cut about 200 logs for building and 500 posts and about 2,000 poles from the claim, used for fenceing and building purposes.

9-ADDITIONAL INFORMATION:- This claim is not used in any way for trade or business, or in any way except for agricultural purposes.

This is the only entry claimant ever made.

The claim has not been sold or mortgaged.

This entry is not believed to be in any way fraudulent, or made at the instance or in the interest of any others, but is believed to have been made with good intentions and for the purpose of making a home for himself and family.

The land is chiefly valuable for agricultural purposes.

This claim was examined August 31, 1915, by Ora Cockrell, Forest Ranger.

10-GOOD FAITH:- This claim has every appearance of a permanent home, the claimant has resided here continuously, and his family resided on the claim except in winter when his wife and children moved to Gibbonsville to send the children to school. He resided here continuously and made

this his home to the exclusion of a home elsewhere. He also harvested a crop of hay each year to date of this report August 31, 1915.

11-RECOMMENDATIONS:- Irespectfully recommend that a hearing should not be ordered to determine the validity of this claim; because, from my observations as Forest Ranger in this district the following facts are determined, viz; the claimant has constantly improved the claim by clearing the land, fenceing, and has erected the necessary buildings for dwelling and barns for stock. He has resided here continuously, harvested a profitable crop each year, and made this his home to the exclusion of a home elsewhere, and used the claim in strictly an agricultural manner, since date of settlement to date of this report. His family resided here continuously during the summer months and thir absence from the claim was caused for the purpose of allowing their children to receive the advantages of school and were unsble to reside on the claim during the winter owing to a distance of seven miles to the neares t school in Gibbonsville, Idaho.

Respectfully submitted, August 31, 1915.

Ora Cockell
Forest Ranger.

THE UNITED STATES OF AMERICA,

TO ALL TO WHOM THESE PRESENTS SHALL COME, GREETING:

WHEREAS, a Certificate of the Register of the Land Office at Hailey, Idaho, has been deposited in the General Land Office, whereby it appears that, pursuant to the Act of Congress of May 20, 1862, "To Secure Homesteads to Actual Settlers on the Public Domain," and the acts supplemental thereto, the claim of John B. Achord has been established and duly consummated, in conformity to law, for the H. E. Survey No. 94, embracing a portion of the unsurveyed public domain, Idaho, more particularly bounded and described as follows: Beginning at corner No. 1, from which U. S. Location Monument No. 9, Dahlenega Mining District, bears south forty degrees, fifty-eight minutes west ten and one-hundredth chains distant; thence north seventy-three degrees, thirty minutes west five and thirty-four-hundredths chains to corner No. 2; thence north two degrees, fifty-five minutes east twenty and twenty-six-hundredths chains to corner No. 3; thence north eight degrees, fifty-five minutes west ten chains to corner No. 4; thence north twenty-three degrees west fourteen chains to corner No. 5; thence north nine degrees west seven and twenty-six-hundredths chains to corner No. 6; thence north thirty-four minutes west twenty-six and sixty-eight-hundredths chains to corner No. 7; thence south eighty-six degrees, twenty-three minutes east fifteen and ninety-four-hundredths chains to corner No. 8; thence south seven degrees, fifteen minutes east fifteen and twenty-six-hundredths chains to corner No. 9; thence south five minutes west twenty-four and five-hundredths chains to corner No. 10; thence south seven degrees, forty-eight minutes west thirty-eight and forty-three-hundredths chains to corner No. 1, the place of beginning, containing ninety-five and fifty-hundredths acres, according to the Official Plat of the Survey of the said land, returned to the General Land Office by the Surveyor-General:

NOW KNOW YE, That there is, therefore, granted by the UNITED STATES unto the said claimant, the tract of land above described; TO HAVE AND TO HOLD the said tract of land, with the appurtenances thereof, unto the said claimant, and to the heirs and assigns of the said claimant forever; subject to any vested and accrued water rights for mining, agricultural, manufacturing, or other purposes, and rights to ditches and reservoirs used in connection with such water rights, as may be recognized and acknowledged by the local customs, laws and decisions of courts. And there is reserved from the lands hereby granted, a right of way thereon for ditches or canals constructed by the authority of the United States.

IN TESTIMONY WHEREOF, I, Woodrow Wilson President of the United States of America, have caused these letters to be made Patent, and the Seal of the General Land Office to be hereunto affixed.

GIVEN under my hand, at the City of Washington, the TWENTY-EIGHTH day of JULY in the year of our Lord one thousand nine hundred and SIXTEEN and of the Independence of the United States the one hundred and FORTY-FIRST.

SEAL.

By the President: Woodrow Wilson.

By M. P. LeRoy, Secretary,

L. Q. C. Lamar,

Recorder of the General Land Office.

RECORDED: Patent Number 540311

Recorded at the request of John B. Achord Jan. 4th, 1917, at 10 minutes past 10 o'clock A. M., in Book Y of Deeds page 162, Records of Lemhi County, Idaho.

UNITED STATES DEPARTMENT OF AGRICULTURE
FOREST SERVICE

REPORT ON AGRICULTURAL HOMESTEAD APPLICATIONS

Application No. - 59 -, Salmon National Forest.Land District Hailey. November 13-14-15, 1908.
(Date of examination.)1. Name and address of applicant John B. Achorn,
(The county should always be given.)
Gibbonsville, Lemhi Co., Idaho.2. Settlement Yes. Claimant alleges settlement in August 1906.
(Is applicant living on land? Give date of settlement.)3. Location The land is located on the westside of the North Fork
(Legal subdivision, or by metes and bounds. Relation to highways, rivers, railroads, etc. Proximity and importance of towns, settle-
ments, etc.)
of Salmon River, just opposite the junction of that stream and
Pierce Creek about seven miles above Gibbonsville. It is locally
known as the North Fork Meadows. The claim is surveyed by metes
and bounds and is tied to U.S. Location Monument No. 9, of the
Dahlonaga Mining District, Lemhi Co., Idaho.4. Area Applied for 160. Recommended approx. 95 acres, more or less.
(Applied for, and recommended.)

MICROFILMED

NOV 18 1996

5 Topography The claim lies to the west of North Fork on a bench
(Topography of tract applied for, and relation to surrounding territory. Topography should be considered particularly in
about fifteen feet above the creek. It is a practically level
(its bearing on agricultural possibilities, altitude, slope, aspect, etc.)
strip of land about one mile in length and one quarter mile wide.
The tract has a southeastern aspect and is approximately 5,000
feet in elevation.

6 Formation The general character of the soil is an admixture of
(Nature and extent of soil, rock, etc., paying particular attention to their influence on agricultural possibilities. Presence of
black sandy loam and finely divided shale. In places this soil
water for irrigation and domestic use. Possibilities for developing water.)
is found to be ten and twelve feet deep. Cwing to the high
elevation of the land, wild and timothy hay is the only crop to be
relied upon. There is an abundance of water in North Fork for
irrigation purposes, but it has required considerable money and
labor for the claimant to get the water on the land.

7. Climate The winters are long and cold, but the summers are
(Precipitation, temperature, occurrence of killing frosts.)
moderate. The growing season is short and precipitation is too
light to insure crops. Killing frosts occur late in the spring
and early in September.

8. Cover Aside from the open or natural meadow land there are
(Nature and extent of cover, with estimate of amount and value. Accessibility and distance to market. Is cover needed for pro-
occasional strips of a few acres covered with lodge pole pine
protective or seeding purposes?)
contained within the bounds of the claim. The surrounding country
is covered with a heavy stand of lodge pole, for which there is at
present no market. Approx. 5 acres of the claim are timbered, this
cover will run about 1 M. per acre, worth 1¢ each, total \$50.00
poles

MICROFILMED

NOV 18 1996

9. Claims There are no adverse claims. Improvements consist of a
(Conflicting claims to land or existing improvements—by whom and on what grounds. Examiner is not to pass upon claims—merely
log house 12'x 12', log stable in course of construction and
to furnish all available information. Use in the past, and by what means. Existence of mining claims. Give any information available affecting
about one mile of fencing.
qualifications of applicant to make a homestead entry. Show what improvements have been made, and their present state of repair.)

10. Economic possibilities Applicant desires to make a home of the claim.
(Reason for application, and opinion as to success of applicants' plans. State fully agricultural possibilities,
He states that, with the exception of Sept. and Oct. of 1906 and
value, if any, to Forest Service for Rangers' Quarters or other administrative purposes. If withdrawal of tract for administrative use is desired,
occasional trips of less than a month duration, he has lived on
submit separate report on Form 271. Distance and market price per acre of near-by farms. Transportation facilities.)
the claim continuously since settlement. The chief product of
the ranch is hay, of which claimant put up about 25 tons. The
nearest Post Office and source of supplies is at Gibbonsville,
about seven miles down the creek— south.

11. Recommendations I respectfully recommend for listing that portion
(Specific recommendation for or against listing of land, with summary of reasons for recommendation.)
of the claim applied for by the claimant, as is shown on the
accompanying map.

12. Photographs
(Give numbers of negatives which go with this report. Photographs should be made in each case where unfavorable action is recommended.)

13. Personal
(Has applicant agreed to the findings of the examiner?)

Salmon, Id 83467

To: Idaho Dept. of Water Resources
and
Harry and JoAnn Hansen:

NOTE - IT SAYS IT FLOW
H2O STATE CREEK & N. FORK
DITCH COMBINED - I DON'T SEE
HOW THIS COULD BE DITCH
IN QUESTION.

I have lived on the North Fork of the Salmon River since
1918 and can testify to the fact that the Achord family
irrigated the land now owned by Harry and JoAnn Hansen (H.E.S.94).

My recollection goes back to 1925-26 when we use to visit the
Achords as friends. They raised cattle and horses and harvested
hay from the ranch.

The ditch from State Creek flowed into the ditch from the North
Fork of the Salmon river which waters were used to irrigate the
haya fields. The irrigation water and ditches were originally
developed by John B. Achord whom first settled on the property.

Attention: Tim Tronsted

Dear Tim:

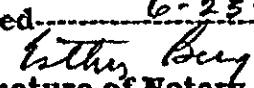

To answer your inquiry about the use of the water ditch from your place to the old Achord place, as far as I know That Achord was the last person to use it, which would have been in the 1950's. I think he used a one horse slip and a shovel to build and maintain it.

If Shannon Edwards used the ditch in question in 1989, it was without our knowledge or authorization.

Sincerely,

John W. Jackson

Mr & Mrs. Harry Hansen
6810 Birds Landing Rd.
Birds Landing, CA 94512

Dear Mr. & Mrs. Hansen,

I'm sorry to hear you and your new neighbor, Mr. Tronstad, are having difficulties. Below, I have put together a scenario of what took place in my first year on Royal Elk Ranch. At your request, I am having this document notarized so you can use it to help establish the last time the irrigation ditch in question was used. Also I am enclosing documents that I received from the previous owner of the Royal Elk Ranch.

In the spring of 1989, I had a gentleman named Jerry Perry rework the old irrigation ditch behind the cabin on the Royal Elk ranch. This would be the southern most ditch which comes out onto the field approximately 100 feet below the "Blue cabin" and flows all the way down to the lower pastures. During late spring of 1989 I had water flowing down the ditch and over the property to irrigate the lower pastures. It worked just fine. Since it rained alot that year I only irrigated twice. During that year one of my neighbors, Earl Keating, hayed the lower pastures and used the hay for his livestock. I had made an arrangement with him to take care of feeding my horse in exchange for the hay he removed.

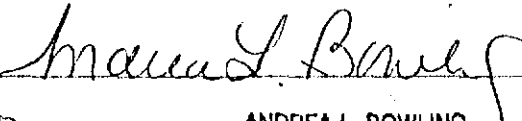

In 1990, the Water Adjudication people had everyone in Lemhi County renew their water rights and pay for them based upon expected usage. I also did this to preserve my water rights. Personally I don't see how anyone that doesn't use water on their property for irrigation has any right to deny another landowner the right to use water if it is needed.

I hope this will help clear up any misunderstandings and I wish both of you the best.

Sincerely,

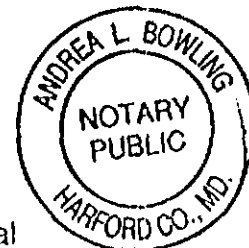

Joseph S. Edwards

Regarding Item # 8 if John W. Hansen is the owner of the Truist property from the 1950's until 1989 then it is conceivable the North Fork water was diverted only twice during this period, in 1977 & 1978. That may account for having to rebuild the diversion in 1989 after 20 or so years of none use.

How long did Hargrett, H. Hapthill use the property?
Did he use the water prior to 1974?

Hansen have provided sufficient documentation for establishment of the property later. But as you know there are ^{apparently} some lengthy lapses in the use. Let's write a letter to Hansen and see if he can fill in some of the gaps. Shall we recommend the notice he will likely send the info anyway, to counter objection by the State. Refer to Jefferson letter the claims were made.

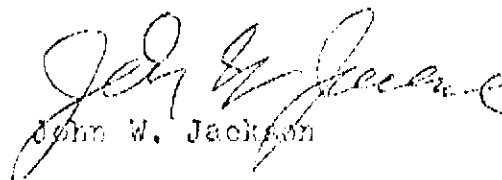

WILSON HANSEN

Dear Richard:

I spoke to Shannon Edwards April 28th, 1993, at 4:04 p.m. He stated he had water in the ditch from the North Fork of the Salmon to the Royal Elk after March 24th, 1989. He said he did not irrigate due to sufficient moisture present in the ground. He also stated he did not irrigate because he believed the simple act of having water in the ditch up to the field would validate his water claim. Therefore, he did not run water in the field, as he felt it not necessary.

Sincerely,

Tim Tronstad

Tim Tronstad
Pinnacle Resources, Inc.
P.O. Box 2008
Missoula, MT. 59806

Dear Mr. Tronstad:

I am writing in response to your telephone inquiry of June 7, 1993 regarding our knowledge of the use of the irrigation ditch which crosses part of the Gold Nugget Placer and serves the parcel of land now known as the Royal Elk Subdivision.

Robert "Nick" Taylor and I examined this ditch earlier this spring. Based on the degree of stabilization and the development of the vegetation on the ditch banks and in the ditch it does not appear that any significant work had been done toward the maintenance and use of the ditch in quite some time. At one point the ditch bank appeared to have been breached in the past and the breach had been bridged by a length of steel pipe. This pipe was laying at the bottom of the slope below the breached section of ditch. It had the appearance of having been there for many years, possibly 15 to 20 years. However, not knowing the condition of the pipe when it was first placed in the ditch, it is impossible to say with any certainty how long it had been since the ditch has been used. Certainly the ditch has not been used since the pipe was placed at the bottom of the slope.

To our knowledge the fields or meadow area served by the ditch under discussion have not been irrigated since at least 1985 and possibly much longer. Neither of us has seen any one tending irrigation water in this area nor have we noticed irrigation dams in the ditch in this field. The field has not had a noticeable appearance of being irrigated during the time that either of us has been assigned to the North Fork Ranger District. However, we have not been in the area to observe possible irrigation activities on a regular basis and it is entirely possible that irrigation of these fields could easily have taken place without our knowledge.

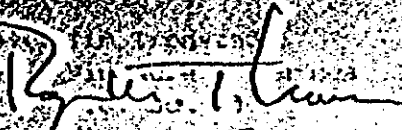

MICROFILMED
NOV 18 1996

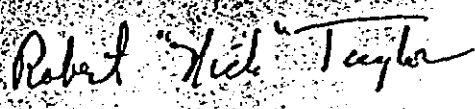

Earl Keating of Gibbonsville, Idaho, is the last individual we know of who conducted any agricultural activities on this piece of land. He cut hay in the area several years ago. It is likely that he would know whether the field was irrigated the year he harvested hay there.

Sincerely,

Rogers M. Thomas
District Ranger

In reference to H.E.S. 94 we are herein complying with "Evidence of Priority" on Notices of Claim A75-04418 and A75-04417. (Legal description Attached)

Attached is evidence from Abstract of Title that John B. Achord Patented H.E.S. # 94 July 28, 1916. It is our belief that John B. Achord patented the land after he had proved up on it as a farm and diverted water from the North Fork of the Salmon River and from State Creek as early as the summer of 1908; but that the works were not completed until Nov. 13, 1908.

The first written evidence we found that John B. Achord irrigated and ran the property as a ranch is in the attached Probate Letter dated Dec. 1922 after Mr. Achord deceased. The property was referred to as a ranch with cattle, horses, and other barnyard animals. (See sheets # 7 and 14) Sheet # 10 of the legal description refers to Water Rights and Ditch Rights.

Sheets # 15 & 16 describe a Deed of Right-of-Way given the State of Idaho to improve the highway wherein it was provided that the highway dept. shall place culverts across said right of way to take care of the irrigation water. That irrigation water of course would have come from State Creek which is located across and to the East side of the highway from H.E.S. 94.

To further evidence the date of priority and where irrigation water was extracted from we respectfully submit the attached letter and affidavit of a long-time resident, Mr. Harold Hansen, whom worked on the Achord Ranch for that same family as a youth and whom currently still lives on the North Fork of the Salmon River just 9 miles south of H.E.S. # 94.

IN THE PROBATE COURT
OF THE COUNTY OF LEMHI, STATE OF IDAHO

IN THE MATTER OF THE ESTATE OF
JOHN B. ACHORD

PETITION FOR LETTERS OF
ADMINISTRATION

To the Honorable Francis Hall, Judge of the Probate Court of the County of Lemhi, State of Idaho:

THE PETITION Of Jennie Achord of said Lemhi County, respectfully shows:
That John B. Achord died on or about the 1 A.M. 26th day of November, 1922, in the County of Lemhi, State of Idaho.

That said deceased at the time of his death, was a resident of the County of Lemhi, State of Idaho.

That said deceased left estate in the said County of Lemhi, State of Idaho consisting of Ranch "Community" property.

That the value and character of said property so far as known to your applicant, are as follows, to wit:

Ranch on North Fork, Value	\$1,000.00
Cattle and horses	1000.00

That the estate and effects for or in respect of which Letters of Administration are hereby applied for do not exceed the value of Five Thousand DOLLARS.

That the next of kin of said deceased, and whom your petitioner is advised and believe and therefore allege to be heir at law of said deceased Jennie Achord, wife

That due search and inquiry have been made to ascertain if said deceased left any will and testament, but none has been found; and according to the best knowledge, information and belief of your petitioner, said deceased died intestate.

That your petitioner Jennie Achord, wife, of said deceased, and therefore as your petitioner is advised and believes herself entitled to letters of administration of said estate of John B. Achord.

WHEREFORE, Your petitioner prays that a day of Court may be appointed for hearing this application; that due notice thereof be given by the Clerk of said Court, by posting notices according to law; and that upon said hearing, and the proofs to be adduced, letters of administration of said estate may be issued to your petitioner.

And your petitioner will ever pray, etc.

Jennie Achord

Dated Dec. 13th, 1922.

TO THE HONORABLE THE PROBATE COURT OF THE COUNTY OF LEMHI,
STATE OF IDAHO.

THE PETITION Of Jennie Achord, the administratrix of the estate of John B. Achord, deceased, respectfully shows:

That your petitioner was appointed such administratrix by order of this court, on the 26th day of December, 1922, and on the 26th day of December, 1922, she duly qualified as such administratrix and thereupon entered upon the administration of the estate of said deceased, and has ever since continued to administer said estate.

THAT on the 17th day of May, 1923, your petitioner duly made and returned to this court a true inventory and appraisal of all the estate of said deceased which had come to her possession or knowledge.

MICROFILMED

APR 19 1994

Continuation of Abstract of Title

THE LEMHI TITLE AND ABSTRACT CO., SALMON, IDAHO

THAT on the eighteenth day of May, 1923, your petitioner duly published notice to creditors to present their claims against the said deceased, in the manner and for the period prescribed by law and this court, and on due proceedings had said court on the 1st day of August, 1923, made a decree showing that due notice to creditors had been given, which said decree under the direction of said court was entered and recorded in the minutes thereof.

THAT more than eight months have elapsed since the appointment of your petitioner as such administratrix and more than four months have expired since the first publication of notice to creditors.

THAT your petitioner herewith files and presents for settlement the first and final account of her administration of said estate.

THAT all the debts of said deceased, and of said estate, and all the expenses of administration thereof thus far incurred, and all taxes that have attached to or accrued against the said estate, have been paid and discharged and said estate is now in a condition to be closed.

THAT THE residue of the said estate now remaining in the hands of your petitioner is fully set forth and described in the schedule marked "A", hereunto annexed and made a part of this petition.

THAT the whole of said estate is community property.

THAT the said John D. Achord died intestate, in the County of Lemhi on the 26th day of November, 1922, leaving him surviving, Jennie Achord, his widow.

THAT The said Jennie Achord, widow, is entitled to all the residue of the said estate.

SCHEDULE A

REAL ESTATE.

All of the following lot, piece or parcel of land, situate, lying and being in Lemhi County, Idaho, particularly bounded and described as follows, to wit: H.E. Survey No. 94, embracing a portion of the unsurveyed public domain, Idaho, more particularly bounded and described as follows:

Beginning at corner No. 1, from which U.S. Location monument No. 9, Dahlenega Mining District bears South 40° 58' West 10 and 1/100 chains distant; thence North 73° 30' West 5 and 34/100 chains to corner No. 2; thence North 2° 55' East 20 and 26/100 chains to corner No. 3; thence North 8° 55' West 10 chains to corner No. 4; thence North 23° West 14 chains to corner No. 5; thence North 9° West 7 and 26/100 chains to corner No. 6; thence North 34° West 26 and 68/100 chains to corner No. 7; thence South 6° 23' East 15 and 94 chains to corner No. 8; thence South 7° 15' East 15 and 26/100 chains to corner No. 9; thence South 5° West twenty four and 5/100 chains to corner No. 10; thence South 7° 48' West 38 and 43/100 chains to corner No. 1, the place of beginning, containing ninety-five and fifty hundredths acres according to the official plat of the survey of the said land, returned to the General Land Office by the Surveyor General. Together with all water and water rights, ditches and ditch rights, and all hereditaments and appurtenances to the same belonging or in anywise thereto appertaining.

Together with certain personal property listed here.

WHEREFORE your petitioner prays that her first and final account be settled, allowed and approved, and that the administration of said estate may be brought to a close, and that she may be discharged from her

trust as such administratrix.

THAT after due notice given and proceedings had, the estate remaining in the hands of your petitioner and all other estate of said decedent may be distributed to the said party entitled thereto as aforesaid, or that such other or further order may be made as is meet in the premises.

AND your petitioner will ever pray, etc.

DATED September 19th, 1923.

Jennie Achord
Petitioner

INSTRUMENT NO. 13

DECREE SETTLEMENT FINAL ACCOUNT. Dated October 1, 1923, Filed October 1, 1923, Records of Lemhi County, Idaho.

Jennie Achord, the administratrix of the estate of John B. Achord, deceased, having on the 19th day of September, rendered and presented for settlement and filed in this Court the final account of her administration of said estate, and afterwards, to wit: on the 1st day of October, 1923, the said matter coming on regularly to be heard, and proof having been made to the satisfaction of this court that due notice of hearing had been given as required by law and the order of this court, and no exceptions or objections in writing to said account having been filed or made; now, on this the day last aforesaid, it duly appearing to this Court, after having fully examined the said account and vouchers in support thereof, that said account contains a just and full account of all moneys received and disbursed by said administratrix during the administration of said estate and that all necessary vouchers were produced and filed herein.

That the total amount received was nothing and the total amount disbursed was nothing, by said administratrix during said administration, that the balance in her hands is therefore nothing and that said account is entitled to be allowed, approved and settled, and the court having considered all the matters aforesaid:

IT IS ORDERED, ADJUDGED AND DECREED, That the said final account be, and the same hereby is, in all respects, as the same was rendered and presented for settlement, approved, allowed and settled.

IN THE PROBATE COURT OF THE COUNTY OF LEMHI, STATE OF IDAHO.

IN THE MATTER OF THE ESTATE OF)
JOHN B. ACHORD, DECEASED.)

DECREE OF DISTRIBUTION.

JENNIE ACHORD, the administratrix of the estate of JOHN B. ACHORD, deceased, having on the 19th day of September, 1923, filed in this Court her petition, setting forth among other matters, that her accounts have been finally settled and said estate is in a condition to be closed, and that a portion of said estate remains to be divided among the heirs-at-law of said deceased, said matter coming on regularly to be heard this 1st day of October A.D., 1923, upon proof that due and legal notice of such hearing has been given as directed by the order of this court heretofore made; the said administratrix appearing by her counsel, Francis R. Hall, Jr. Esq., this Court proceeded to the hearing of said petition; and it appearing to the satisfaction of this Court, that the residue of said estate, consisting of the property hereinafter described particularly, is now ready for distribution, and that said estate is now in a condition to be closed:

THAT the whole of said estate is community property,

THAT said John B. Achord died in the County of Lemhi, State of Idaho on the 26th day of November, 1922, and his only heir at law entitled to take the entire residue of said estate under the laws of the State of Idaho, is Jennie Achord of Gibbonsville, Idaho, his widow.

THAT all claims against said estate are fully paid; that all taxes due from said estate have been paid; that since the rendition of said final account, the sum of nothing has come into the hands of said administratrix and the sum of nothing has been by her expended; that the estimated expense of closing said estate is the sum of nothing.

THAT the said JENNIE ACHORD, widow, of Gibbonsville, Idaho, is entitled to the whole of the residue of said estate.

NOW, on this, the said 1st day of October, 1923, on motion of Francis R. Hall, Jr., Esq., counsel for said administratrix

IT IS HEREBY ORDERED, ADJUDGED AND DECREED, That the residue of said estate of John B. Achord, deceased, hereinafter particularly described, and now remaining in the hands of said administratrix and any other property not now known or discovered, which may belong to said estate, or in which the said estate may have an interest, be and the same is hereby distributed as follows, to wit:-

To Jennie Achord, widow, all of the following described property:-

All of the following lot, piece or parcel of land, situate, lying and being in Lemhi County, Idaho, particularly bounded and described as follows, to wit: H. E. Survey No. 94, embracing a portion of the unsurveyed public domain, Idaho, more particularly bounded and described as follows:

Beginning at corner No. 1, from which U. S. Location Monument No. 9, Dahlenega Mining District bears South 40° 58' West 10 and 1/100 chains distant; thence North 73° 30' West 5 and 34/100 chains to corner No. 2; thence North 2° 55' East 20 and 26/100 chains to corner No. 3; thence North 8° 55' West 10 chains to corner No. 4; thence North 23° West 14 chains to corner No. 5; thence North 9° West 7 and 26/100 chains to corner No. 6; thence

DEED OF RIGHT-OF-WAY.

THIS INDENTURE, Made the 17th day of May, in the year of our Lord One Thousand nine Hundred and Twenty-three, between JENNIE ACHORD, in her own right, and as Administratrix of the Estate of John B. Achord, deceased, of Gibbonsville, County of Lemhi, State of Idaho, the party of the first part, and the STATE OF IDAHO, the party of the second part;

WITNESSETH, that for and in consideration of the location and establishment of the Salmon Montana Forest Project High Way as now surveyed and to be constructed and the benefits to accrue to me by such location, and for the further consideration of ONE DOLLAR lawful money of the United States to me in hand paid, the receipt whereof is hereby acknowledged, I the owner of the land required for road purposes on the line of the foregoing designated route, to wit:

Beginning at a point on the center line of the Salmon Montana Line Road Survey, At Sta. 906+26.4 in unsurveyed Sec. 3, Twp. 26 N. R. 21 E. Boise Base and Meridian, whence U. S. Mineral Monument No. 9, Dahlonaga Mining District bears S. 11° 40' W. 603.4 feet, being a point on the south property line of the grantors land; thence N. 73° 30' W. along said south property line a distance of 28.0 feet more or less to a point marked Cor. No. 2, H. E. S. No. 94; thence N. 2° 55' E. along the west property line of said grantor's land (crossing said center line at Sta. 917+59.5 at a distance of 1122.2 feet from said Cor. No. 2) a distance of 1337.16 feet to a point marked Cor. No. 3 H.E.S. No. 94; thence N. 8° 55' W. along said west property line (crossing said center line at station 922+03.2 at a distance of 231.3 feet more or less from said Cor. No. 3) for a distance of 533.3 feet more or less to a point 30 feet distant from, measured at right angles to said center line at Station 925+03.8; thence N. 3° 13' W. parallel to said center line, a distance of 103.4 feet more or less; thence curving to the left with a radius of 686.78 feet, parallel to said center line, a distance of 407.5 feet more or less; thence N. 37° 13' W. parallel to said center line, a distance of 27.6 feet more or less; thence curving to the right with a radius of 746.78 feet, parallel to said center line, a distance of 485.7 feet more or less; thence N. 0° 03' E. parallel to said center line, a distance of 2245.5 feet more or less to a point on the north property line of said grantor's land; thence S. 86° 23' E. along said north property line, a distance of 60.1 feet more or less to a point 30 feet distant from and measured at right angles to said center line at Sta. 957+ 67.3; thence S. 0° 03' W. parallel to said center line a distance of 2241.7 feet more or less; thence curving to the left with a radius of 686.78 feet, parallel to said center line, a distance of 446.7 feet more or less; thence S. 37° 13' E. parallel to said center line, a distance of 27.6 feet more or less; thence curving to the right with a radius of 746.78 feet, parallel to said center line a distance of 443.1 feet more or less; thence S. 3° 13' E. parallel to said center line, a distance of 824.1 feet more or less; thence curving to the right with a radius of 5759.65 feet, parallel to said center line, a distance of 728.8 feet more or less; thence S. 4° 02' W. parallel to said center line, a distance of 358.3 feet more or less to a point on said south property line; thence N. 73° 30' W. along said south property line, a distance of 30.7 feet, more or less to point of beginning, containing 6.45 acres

Birds Landing, CA 94512

Dear Mr. and Mrs. Hansen:

Enclosed are the cover pages and pages 2/3 from Volume # 2 of the Centennial History of Lemhi County, Idaho.

The cover pages document where and from whom the information comes.

Pages 2 and 3 give the technical information you are looking for concerning John B. Achord.

In the year 1898 John B. Achord settled on the property you now own. Although he was a miner he ranched the property and raised his family there. By 1908 he was diverting water onto the fields and raised cattle. By 1916 he Patented the land which was known as H.E.S. # 94.

The picture on page 3 was taken on the ranch.

When the Achords had range rights on Granite and Anderson Mountains they kept as many as 300 beef cattle on the ranch, only during the summer months. Of course not all those cattle were wintered there.

Feel free to use this letter in any manner that might help in documenting your ownership of water.

Sincerely Yours,

A handwritten signature in cursive script that reads "Cary Cook".

children were born: Muriel, April 26, 1919; Gilbert, January 5, 1921; Vernon, September 22, 1927; Berkley, June 3, 1930.

Carl started shearing sheep when he was twenty-seven, and over the years became one of the fastest and best at this most strenuous job of all skilled labor. His shearing career lasted from March through June for the next forty years. Carl and Lola bought a farm north of Jerome in 1928. When harvest time came, there was a nice crop of wheat. The year before wheat had sold for one dollar twenty a bushel, but this year had dropped to ten cents and was not enough to pay for the seed. In spite of this financial setback they had all of their children take music lessons.

Each year when Carl returned from shearing in Montana, he drove from Wisdom to Gibbonsville and on through Salmon. He liked the Salmon River country and decided he wanted to live there. So, in 1944, they sold their home in Jerome and bought a ranch on Fourth of July Creek. Their youngest son, Berk went to high school for four years and Vernon finished his senior year in Salmon.

Carl and Lola joined the Carmen Grange and enjoyed their many friends. Lola wrote poetry, and for one Grange program wrote a long poem about the masters of the Carmen Grange titled, *The Worthy Masterpiece*. When they sold their ranch, they lived for a few years in Leadore, then returned to Salmon where Carl built a brick house north of Salmon. Carl passed away August 3, 1983, and Lola on November 17, 1985.

Muriel, a retired teacher lives in Junction City, Oregon. Gilbert worked as a welder for the Hanford Nuclear Plant in Washington and lives in Kennewick. Vernon lives in Carson City Nevada, and for years was a musician in Harrah's Club at Lake Tahoe. He now has a water purification business. Berk lives in Monument, Colorado and has been with Allstate Insurance for years. After retirement, he started his own insurance business.

FRONT ROW: Carl and Lola BACK ROW: Vernon, Gilbert, Muriel, and Berkley Achenbach

## John and Jennie Stinson Achord

John B. Achord was born in Illinois in March of 1864. Jennie Stinson was born November 13, 1870, to Sam and Eliza Stinson, who lived in Clay County, Iowa. In 1898, John and Jennie Stinson Achord came to Gibbonsville, on the North Fork of the Salmon River. They had five children: Otto, Oscar, Maude, Cecile, and Thaddeus.

John was a mining man, at one time owning and operating the Eureka, Aetna, and Cecil lodes, and the Anderson mill site on Lick Creek. He sold out for four thousand dollars in August of 1910.

When the road was being built up Dahlenoga Creek and over into the Big Hole to Wisdom, Montana, John thought that the route up Moose Creek and over Lost Trail Pass would be a better way. However, that road came much later and John did not live to see it happen.

Otto worked on the construction of the Dahlenoga Creek-Big Hole road. He is later listed in the 1910 census as a twenty-two year old gold miner at Leesburg, born in Kansas in August of 1888. He also helped build the Fourth-of-July tunnel out of Coeur d'Alene to Kellogg, which has since been filled in. He later went to Seaside, Oregon, and it was there that he died in 1942. Otto was married and had at least one child.

Oscar left Gibbonsville to work as a hoist-operator for the Hecla and Star mines at Burke, Idaho for several years. He was the father of two sons and two daughters. Maude married William (Bill) Gallagher and moved to Salmon. They had two sons and two daughters. Cecile married Jasper (Jack) Lyne and they lived in Salmon, with son Howard and two daughters, Clio, who married Everett Smith, and Deloris (Tommy) married Mr. Nolan. Cecile's second husband was Ray Wood, who was a carpenter by profession.

Thaddeus was born to John and Jennie at Gibbonsville on August 21, 1905. When his father died in December of 1922, after a long illness, Thad stayed on the ranch and helped his mother. Jennie Stinson Achord died at a Salmon Hospital in January of 1954. She was eighty-four years old and had finished out her life at the Gibbonsville ranch on the North Fork of the Salmon River.

—History Committee

## Thaddeus and Vivian Pine Achord

Thaddeus Achord was born to John and Jennie Stinson Achord at Gibbonsville, August 21, 1905, the youngest of five children. When he was only seventeen years of age, his father died of a long illness and Thad stayed with his mother and helped her take care of the ranch.

MICROFILMED

APR 19 1994

Vivian Pine was born June 19, 1906, in Cripple Creek, Colorado, the daughter of Charles and Catherine Pine. She came to Gibbonsville to teach school. Here she met Thad Achord and they were married in Salmon, May 31, 1930. She also taught school in Salmon for two years, and served as a substitute teacher when needed.

Numerous cattle thefts in the twenties and thirties made it desirable to form the North Fork Cattle Association, and Thad was voted in as secretary in March, 1939. He also served as assistant registrar at Gibbonsville in 1940.

FRONT ROW: John, Clint, and Audrey Achord MIDDLE ROW: Thad and Vivian Pine Achord, Mrs. Stone and child BACK ROW: Oscar Achord, Ray and Cecile A. Wood, Jennie Achord, Maude A Gallagher

Three children were born to Thad and Vivian: Audrey, John, and Clinton. Audrey was born January 27, 1940, at Salmon. She married Dillard Fickle and they had three children: Gary, Annette, and Pamela. She died November 30, 1988, in Spokane, Washington.

John was born December 5, 1941, in Salmon, the first child to be born in Mrs. Gordon Neal's maternity home, which was situated in the Spahn residence on Main Street. John married Ciri Hansen and their children are Lanaya, Jolene, and Troy. They reside in Hermiston, Oregon and John's veterinary clinic is just over the state line, in Richland, Washington. Clinton was born June 22, 1944, also in Salmon. He married Blanche Conray and two boys, Dean and Thad were born to them. Clint adopted Blanche's daughter, Debbie. Clint works for the Bonneville Power Administration and lives in Idaho Falls, Idaho.

The Achords usually kept about three hundred beef cattle on the ranch, pasturing them out on Granite Mountain and Anderson Mountain during the

summer months. The Rocking A brand that Thad and his father both used is now used by son Clint.

The Achords also milked twenty-two cows and sold the cream, which was picked up by the milk-truck and delivered to the creamery in Salmon. Young calves purchased in Hamilton were fed the left-over milk and later sold in Salmon.

Clint remembers what a task it was to milk any range cows who had lost their calves, and how much he hated doing it. All four feet sometimes had to be securely tied, and even then the milk was occasionally spilled. Those cows were fighters, he said! A few sheep were also kept on the ranch John and Clint once spotted a cougar in the hayloft and frightened it away. Was it interested in those sheep?

A great number of the beaver-slide derricks used in this area and in the Big Hole were built by Thad Achord. Some of them are still in use. The power lines were never extended to the ranch, but for a time a small light plant generated enough electricity for lighting.

Thad hauled the Drnjevic kids and his own to school for years. When conditions were favorable in the wintertime, the kids could coast nearly all the way to school on their sleighs, and Thad would bring them home afterwards. At times, they had to carry the sleds over the snowslides that blocked the road. A favorite winter sport was riding a pair of skis that were being pulled by a horse.

Vivian Pine Achord died February 12, 1952, at Fruitland. In about 1956, Thad moved his family to Post Falls, saying that he would like the warmer climate and a school that was not forty miles away. He died there August 9, 1963. Both he and Vivian are buried at Gibbonsville.

—History Committee

## Bob and Opal Adams

Bob Adams and Opal Whittaker were married on January 25, 1941 in Salmon, Idaho. Following their marriage, they lived on a ranch at Cotton Lane until March of 1943 when they moved to what is now known as the Leadore Angus Ranch, two and one half miles south of Leadore. Their first son, Robert Chester Adams, was born December 16, 1942 in Dillon, Montana, and was three months old when they moved into a three room shack that had no electricity or plumbing.

Outside the shack was the only standing fence on the ranch. The milk cows that Bob and Opal took with them had to battle with the two feet of snow that was still on the ground in late March. Range horses that were accustomed to feeding in the area had to be chased out daily. It was a rather dismal beginning for the young ranchers.

AFFIDAVIT

To: Idaho Dept. of Water Resources  
and  
Harry and JoAnn Hansen:

I have lived on the North Fork of the Salmon River since  
<sup>1918</sup> and can testify to the fact that the Achord family  
irrigated the land now owned by Harry and JoAnn Hansen (H.E.S.94).

My recollection goes back to 1925-26 when we use to visit the  
Achords as friends. They raised cattle and horses and harvested  
hay from the ranch.

The ditch from State Creek flowed into the ditch from the North  
Fork of the Salmon river which waters were used to irrigate the  
hay fields. The irrigation water and ditches were originally  
developed by John B. Achord whom first settled on the property.

Dear Mr. Tronstad,

In answering your question "When was the irrigation ditch on the east side of the Royal Elk Ranch last used?" In 1989 I had a gentleman named Jerry Perry rework the old irrigation ditch to remove the bridges and make the ditch one continuous run. I ran water down the ditch during that year twice. Since that time I have not used the ditch and don't know what condition it might be in due to heavy snows and melts.

In 1990 the Water Adjudication people had everyone in Lemhi County renew their water rights and pay for them based upon usage. I also did this to preserve my water rights.

If you have any further questions please feel free to call.

Enclosed please find a copy of the letter from Joseph "Shannon" Edwards to Mr. Tim Tronstad regarding Mr. Edwards use of the water ditch.

Also included are copies of some of the documentation that I have gathered to prove priority date. I have not included copies of the information mentioned in the letters but I do have the back-up documentation.

When I received the information from Wade Surveying I will send a copy to you.

Thanks for your time on the phone and your help in this matter.

Very truly yours,

*Harry Hansen*

RICHARD, THIS AGREES WITH MY CONVERSATION  
WITH SHANNON ON APRIL 28TH 1993. HE TOLD ME HE HAD  
H<sub>2</sub>O IN DITCH, BUT DID NOT IRRIGATE FIELD AS IT WAS  
UNNECESSARY TO ACHIEVE HIS GOALS.

May 13, 1993

Tim Tronstad  
P.O.Box 2008  
Missoula, MT 59806

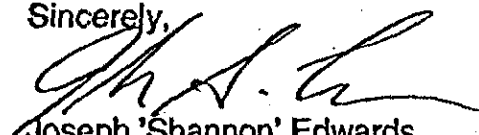

Dear Mr. Tronstad,

In answering your question "When was the irrigation ditch on the east side of the Royal Elk Ranch last used?" In 1989 I had a gentleman named Jerry Perry rework the old irrigation ditch to remove the bridges and make the ditch one continuous run. I ran water down the ditch during that year twice. Since that time I have not used the ditch and don't know what condition it might be in due to heavy snows and melts.

In 1990 the Water Adjudication people had everyone in Lemhi County renew their water rights and pay for them based upon usage. I also did this to preserve my water rights.

If you have any further questions please feel free to call.

Sincerely,

  
Joseph 'Shannon' Edwards

RE: CHANGE IN OWNERSHIP AND EVIDENCE OF PRIORITY  
FOR NOTICES OF CLAIM A75-04416, -04418, AND -04417

Dear Mr. and Mrs. Hansen:

The request for Change in Ownership concerning your Notices of Claim in the above reference has been processed and the Notices modified to reflect you as the new owner.

Enclosed are typed Notices with your name shown as the current owner. Review the forms and if there are other corrections or questions, feel free to contact this office.

If there are no questions or corrections, please keep these Notices for your records.

Also enclosed is a letter regarding "Evidence of Priority" on Notices of Claim A75-04418 and A75-04417. Please read the letter and the enclosed pamphlet and follow the instructions highlighted.

Respectfully submitted,

*for* Dave Carlson  
Water Right Agent, Adjudications

# NEW PROPERTY OWNER NOTICE OF CHANGE OF WATER RIGHT OWNERSHIP

Please print or type  
(see instructions on back of page)

DATE OF CLOSING: March 12, 93

RECEIVED

APR 01 1993

Department of Water Resources  
Eastern District Office

LEGAL DESCRIPTION OF PROPERTY: Township 26 N Range 21 E.  
Section 34, SE & NE 1/4 of SW 1/4 of 1/4 Govt. Lot       , BM.  
Lot       , Block       , Subdivision/Townsite       .  
If you have additional legal descriptions, please attach separate sheet.

- ☐ Served Only by a Public Service Water Supply (all water is received from a city or company who maintains water supply system, owns the water right, and bills the customer on a regular basis)
- ☐ Water Right Number(s)         
Assigned by IDWR: A75-04416, A75-04418, A75-04417
- ☐ Name and Address of Former Owner/Claimant(s)(Seller): Joseph S. Edwards  
P.O. Box 1167  
Salmon, Id 83467
- ☐ New Owner/Claimant (Purchaser): Harry and Joanne Hansen
- ☐ New Mailing Address: 6810 Birds Landing Rd.  
Birds Landing, Ca. 94512
- ☐ New Telephone Number: (707)374 - 5192
- ☐ Does the change in ownership result in a splitting of the water right owned/claimed? yes x no  
If yes, then describe the portion of the water right that is now owned/claimed by the new owner:

- ☐ Attach proof of ownership, describe proof attached: Warranty Deed

(proof of ownership must describe either the property conveyed or include the claim number. Proof of ownership is not required if this form is signed by the former owner/claimant.)

- ☐ Signature of New Owner/Claimant(s) Harry V. Hansen Date 2/8/93  
Joanne Hansen Date 2/8/93
- ☐ Signature of Former Owner/Claimant(s): Joseph S. Edwards Date 3-17-93  
Date

(Signature of former claimant(s) is not required if proof of ownership is attached.)

## CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Howard H. and Moira M. Hemphill

(Name of Claimant)

HC 10 Box 1060 Gibbonsville ID 83463

(Mailing Address)

(Zip Code)

Telephone No. NONE

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) NOV 13, 1908

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)

North fork of Salmon River tributary to SALMON RIVER

- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

1. The first step in the process of identifying a problem is to define the problem. This involves identifying the symptoms of the problem and determining the scope of the problem. Once the problem has been defined, the next step is to identify the causes of the problem. This involves identifying the factors that are contributing to the problem and determining the underlying causes of the problem. Once the causes of the problem have been identified, the next step is to develop a plan to address the problem. This involves identifying the actions that need to be taken to address the problem and determining the resources that will be needed to implement the plan. Once a plan has been developed, the next step is to implement the plan. This involves carrying out the actions that have been identified in the plan and monitoring the progress of the implementation. Finally, the last step in the process is to evaluate the results of the implementation. This involves assessing the effectiveness of the actions that have been taken and determining whether the problem has been resolved.

|   |   |   |   |   |   |   |   |   |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |     |

April 11, 1983

Mr. Gary Cook, Broker  
Cook Real Estate  
P.O. Box 127  
Salmon, ID 83467

Dear Mr. Cook:

In reply to your questions in your letter of March 24, 1983, water rights were not located for all the lands listed on the attachment sent March 21. A water right was found for those lands, or a portion of the lands, showing a water right number after the government lot and/or 40-acre tract. The 40-acre tract in parentheses after the lot was used to further identify location of the lot within a section and was used as an additional means of research.

The application listed is considered personal property of the applicant while the claims, licenses, and decreed right are considered real property and appurtenant to the lands identified on the rights. Therefore, ownership of the water right, or its proportionate share (determined by the wateruser), is evidenced by ownership of the lands identified on the claims, licenses, and decreed right.

The smallest parcel of land that can be researched for a water right is a government lot or a 40-acre tract. Therefore, no additional research could be made on the lands identified as portions of government lots or 40-acre tracts since the lots and 40-acre tracts were not placed outside the original research area. Research was conducted for decreed rights from Twelve Mile and Lake creeks named as sources in your letter and under the names of Ned Pepper and Thos. J. Stroud. No decree was located in our records on Twelve Mile Creek within the area specified, and no additional rights were found. Enclosed is a copy of the listing identifying the lands researched with an added comment where no water rights were found to be on record with this department.

In answer to your question itemized as No. 1, we cannot determine how many acres, if any, are under irrigation where no existing water right is on record

113 Butte the right for a water right  
Some assurance that the owner of the  
113 & Butte field are have water

MICROFILMED

Cary Cook  
April 11, 1983  
Page 2

with this department. Where partial tracts or lots are irrigated under an existing right, it is the obligation of the wateruser to determine ownership of the lands identified on the rights. Acreage could not be determined for that portion of the government lots owned by First Federal Savings and Loan in which the legal description included a landmark.

Of the rights located, the amount of irrigated acreage is described on the water rights sent to Mr. Hunsaker under place of use in each 40-acre tract or government lot. The exception being the decreed right in the case of Kenneth E. McBride vs. W. D. McCabe whereas the decree allots 2.7 cfs (135 inches) from Lake Creek to 159.71 acres (domestic use included). This equates to 0.017 cfs (rounded) per acre.

$$\text{Where } \frac{2.7}{159.7 \text{ acres}} = 0.017 \text{ cfs (rounded) per acre irrigated}$$

Further breakdown of the lands described in the decree is presented in the following table with total acreage of each government lot taken from our USGS government plats. The cfs was figured for each lot and 40-acre tract by multiplying the number of acres owned and irrigated, as identified in the decree, by the amount of cfs (0.017) per acre.

Decreed Right No. 75-0093

| <u>Land</u>                       | <u>Acres</u> | <u>cfs</u> |
|-----------------------------------|--------------|------------|
| <u>T. 19 N., Rge. 21 E.</u>       |              |            |
| Sec. 1: Lot 5                     | 6            | 0.10       |
| Lot 9                             | 14.68        | 0.24       |
| Sec. 2: Lot 1                     | 30.88        | 0.53       |
| Lot 5                             | 28.15        | 0.47       |
| SE $\frac{1}{4}$ NE $\frac{1}{4}$ | 40.0         | 0.68       |
| NE $\frac{1}{4}$ SE $\frac{1}{4}$ | 40.0         | 0.68       |
| TOTAL                             | 159.71       | 2.70       |

We can provide microfilm copies of government plats identifying the total acreage of each government lot within a section, township, and range for a fee of 50¢ per sheet. However, the plats are of little help in arriving at the number of acres owned and/or irrigated by First Federal S & L where portions of the lots are identified by landmarks.

In answer to question No. 2, the amount of water generally considered sufficient to irrigate one acre of land is 0.02 cfs. This is the acceptable

MICROFILMED

NOV 18 1996

Cary Cook

Page 3

amount for applications filed for new development of lands to be irrigated. A claimant is entitled to claim the amount of water used as of the date the water was first placed to beneficial use. An increase in acres irrigated or amount of water used after that date would require an additional filing.

If claims are to be filed, it should be noted that a claim may be made for existing uses only, not anticipated uses or where non-use of the water has occurred for a continued period of five years. Claims may only be filed for surface water placed to beneficial use prior to May 20, 1971, or prior to March 25, 1963, for groundwater.

The leaflet sent March 21 entitled "Keep Your Water" describes the methods and requirements of filing for water rights and defines the exceptions.

If you have any additional questions, please feel free to contact Dave Tuthill in Water Allocation Section at 334-4104.

Sincerely,

L. GLEN SAXTON  
Chief, Operations Bureau
