Counsel for the United States of America

**IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS**

In Re SRBA	)	Subcase No. 27-11644
	)	
Case Number: 39576	)	AFFIDAVIT OF GARTH ALLEMAN
_____	)	

State of: IDAHO
County of: BEAR LAKE

Garth Alleman, being first duly sworn upon oath, deposes and says:

1. I am currently employed by the United States Department of Agriculture, Forest Service (Forest Service), as the Fire Management Officer (FMO) on the Montpelier and Soda

Springs Ranger Districts of the Caribou-Targhee National Forests. I have been employed by the Forest Service for 16 years.

2. As part of my assigned duties and responsibilities as the FMO on these ranger districts I am familiar with use at Johnson Guard Station.

3. I have reviewed the reserved water right claim, as amended and attached as Exhibit 1, submitted by the Forest Service for Johnson Guard Station (Claim).

4. The Claim was prepared by Forest Service personnel as part of their normal duties. I verified the legal locations as set forth and described in Exhibit 1 and have personal knowledge that the location of the point of diversion and point of use and source of the water supply are true and correct as described in Exhibit 1.

5. The Claim is situated wholly within National Forest System lands. It is currently utilized by the Forest Service at Johnson Guard Station to manage National Forest System lands.

6. The Claim is necessary for the administration of the National Forest pursuant to the Organic Administration Act of 1897, 16 U.S.C. § 475 *et seq.*, for the purposes of securing favorable conditions of water flow and to furnish a continuous supply of timber.

7. The United States filed this Claim for use in association with Johnson Guard Station, an Administrative Site located on the Caribou-Targhee National Forests. The administrative site includes a cabin, garage, tack shed, pasture and other capital improvements. It is used every year for administration of National Forest resource management programs. Personnel utilize water at this site for administrative purposes. Personnel use the site for a wide variety of administrative and survey purposes including archeologic, fishery, range and wildlife management work. Occupation and use of Johnson Guard Station is essential to the overall administration of Forest Service programs on this part of the Caribou-Targhee National Forests

to protect timber and watersheds from fire and other depredations thereby ensuring continuing viability of the resources on surrounding federally reserved National Forest System land. This contributes directly to maintaining and improving watershed conditions, timber production and favorable conditions of water flow.

8. Based upon personal experience and knowledge, discussions with Forest Service personnel and review of relevant Forest Service records, including but not limited to, on-site inspection records, water has been historically, and is presently utilized at Johnson Guard Station in quantities up to and including 0.02 c.f.s. during the period of May 1 through October 31, as described in Exhibit 1.

9. Based upon the forgoing, I have personal knowledge of the following elements of the reserved water right claim:

a. The name and address of the claimant is:

UNITED STATES OF AMERICA acting on behalf of the U.S.D.A. Forest
Service, 550 W. Fort Street, MSC033, Boise, ID 83724.

b. The source of water is:
