This form is used to report the stipulated elements of one "domestic and/or stockwater" right acquired under state law and/or one federal reserved water right and to amend the Notice of Claim. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine the facts, data, expert opinions and law supporting the issuance of a partial decree for the water right.

The parties agree that the Snake River Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

Pursuant to the terms of the *Stipulation and Joint Motion for Order Approving Stipulation* filed on August 29, 2002, such stipulation being incorporated into this *Standard Form 5*, the parties and IDWR agree and stipulate that the elements of this water right should be described per the attached Amended Claim. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.
