Re: Subcase Nos. 51-2214, 51-4000A and 51-10207, etc.

Dear Special Master Dolan:

Following the conference call on May 15, Kent Kohring and I discussed the issues relating to the Director's 706 Report. We determined that, while the Kohrings still disagree with the quantity of water recommended for water right 51-4000A, there is not much point to pursue the matter to trial. Therefore, the Kohrings will not to contest the recommendations made by the Director in the 706 Report. Consequently, they will waive the necessity for a trial this coming week. We do appreciate the manner in which you have cooperated with the parties.

Sincerely,

Jim Jones
