I Fredric W. Price, being of lawful age, and having first been duly sworn, state the
following:

//

1. My present position is that of Water Rights Specialist for the United States, Department of Interior, Bureau of Land Management (hereinafter "BLM"), Idaho State Office. My current responsibilities include coordinating the BLM's efforts for the Snake River Basin Adjudication (hereinafter "SRBA") in Idaho. I provide guidance and technical support to the State Director, Field Office Managers, and technical specialists in BLM field offices, particularly those specialists working in water rights and related issues. I develop training, guidance, and agency policy on water issues and in other programs affected by water rights, such as the range management and realty programs. I also review, interpret and analyze water rights claims for preparing opinions, recommendations, objections, and other SRBA documents to the Department of Justice.

2. I have been employed by the BLM since 1982 in the following positions:

- a. Eleven and a half years in various positions within the Rangeland Firefighting Program at the BLM, Shoshone Field Office. I spent 12 months working on that office's water rights team to develop and create 5,500 BLM claims, maps, and claim files;
- b. Since August of 1993 as a Water Rights Specialist in the BLM, State Office.

3. I have gained extensive experience with and knowledge of a wide range of government files, documents, records management, records retention, and archives since starting work for BLM in 1982. I have reviewed and interpreted over a thousand Historical Indexes. The Historical Indexes (hereinafter "HI") are official business records of the United States that maintain a timeline of events occurring on United States' property.

4. I have reviewed the claim file for BLM water right claim number 25-13635. This claim is to a spring source located on federal public land within the NWSESW, Section 20, T.01S., R.41E.

//

5. I reviewed the Historical Indexes for T.01S., R.41E. to determine if there were ever an attempt to homestead the legal land description described in paragraph 4 above. I was able to determine from my review of the HIs that the legal land description described in paragraph 4 above was subject to four failed attempts to homestead. Each application was for a Stock-Raising Homestead Entry (hereinafter "SRHE") made pursuant to the Act of December 29, 1916.

There was one pending entryman on April 17, 1926. This entry was a SRHE application filed by Sophia Nielsen on December 12, 1925. The SRHE application was assigned serial number BL-040273 and created a serialized case file numbered BL-040273. This SRHE application was partially relinquished on November 13, 1928 and entirely relinquished on September 27, 1930.

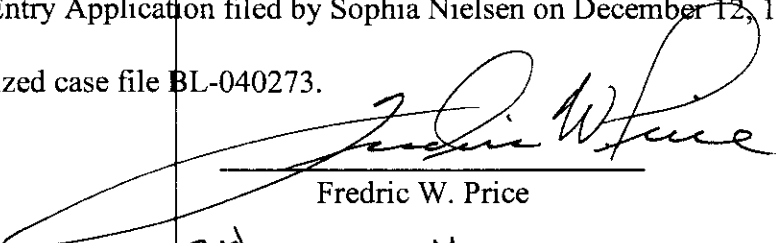

6. The Idaho State Office of BLM does not store historic land entry applications on site. The records are only retained for a certain period of time and then are sent to the record centers. In December, 2002, I submitted a request for homestead entry file BL-040273 from the National Archives in Washington D.C. I didn't receive anything. I submitted a second request for the files from the National Archives in Washington D.C. and three or four weeks later they responded that those records were located at the National Archives in Seattle, Washington. I submitted a third request to have a copy of serial case file number BL-040273 sent to me from the National Archives for the Pacific NW Region located in Seattle, Washington. On April 4, 2003, I finally received copies of the Homestead Entry File.

//

7. I do hereby certify that Attachment 1 to this affidavit is a true and correct copy of the Stock-Raising Homestead Entry Application filed by Sophia Nielsen on December 12, 1925 that was contained within serialized case file BL-040273.
