Counsel for the United States of America

**IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS**

In Re SRBA	)	Subcase No. 81-10366
	)	
Case Number: 39576	)	AFFIDAVIT OF JOE B. HUDSON
_____	)	

State of: IDAHO
County of: IDAHO

Joe B. Hudson, being first duly sworn upon oath, deposes and says:

1. I am currently employed by the United States Department of Agriculture, Forest Service (Forest Service), as the District Ranger on the Moose Creek Ranger District of the Nez Perce National Forest. I have been employed by the Forest Service for 23 years.

2. As part of my assigned duties and responsibilities as the District Ranger, I am familiar the use of Moose Creek Ranger Station.

3. I have reviewed the reserved water right claim, as amended and attached as Exhibit 1, submitted by the Forest Service for the Moose Creek Ranger Station (Claim).

4. The Claim was prepared by Forest Service personnel as part of their normal duties. I verified the legal locations as set forth and described in Exhibit 1 and have personal knowledge that the location of the point of diversion and point of use and source of the water supply are true and correct as described in Exhibit 1.

5. The Claim is situated wholly within National Forest System lands. It is currently utilized by the Forest Service at Moose Creek Ranger Station to manage National Forest System lands.

6. The Claim is necessary for the administration of the National Forest pursuant to the Organic Administration Act of 1897, 16 U.S.C. § 475 *et seq.*, for the purposes of securing favorable conditions of water flow and to furnish a continuous supply of timber.

7. The United States filed this Claim for use in association with Moose Creek Ranger Station, an administrative site located in the Selway Bitterroot Wilderness on the Nez Perce National Forest. The site includes two dwellings, two bunkhouses, a cook house, a wash house with a washer and shower, a barn and a corral. It is used every year for administration of National Forest resource management programs. Personnel utilize water at this site for administrative purposes. Occupation and use of Moose Creek Ranger Station is essential to the

overall administration of Forest Service programs, on this part of the Nez Perce National Forest. It is the summer headquarters for the district. All district programs are managed from this facility including fire, wilderness, trails, recreation, wildlife and fisheries with the intention of improving and protecting the forest from destruction by fire and other depredations, thereby ensuring continuing viability of the resources on surrounding federally reserved National Forest System land. Prevention of depredation by fire contributes directly to other resource programs and conditions such as watershed protection, preservation of timber stands, wilderness character, trail maintenance, recreation access and public safety.

8. Based upon personal experience and knowledge, discussions with Forest Service personnel and review of relevant Forest Service records, including but not limited to, on-site inspection records, water has been historically, and is presently utilized at Moose Creek Ranger Station in quantities up to and including 0.02 c.f.s. during the period of April 1 through November 30, as described in Exhibit 1.

9. Based upon the forgoing, I have personal knowledge of the following elements of the reserved water right claim:

a. The name and address of the claimant is:

UNITED STATES OF AMERICA acting on behalf of the U.S.D.A. Forest Service, 550 W. Fort Street, MSC033, Boise, ID 83724.
