_____	)	DANA L. HOFSTETTER

STATE OF IDAHO	)
	) ss:
COUNTY OF ADA	)

Dana L. Hofstetter, after being first duly sworn upon oath, hereby deposes and
says as follows:

1. I am a member of the firm of Hofstetter Law Office, LLC, counsel of record
for movants Louis L. "Leon" and Iris B. Hubsmith.
2. In April 2003, I requested from Christine Johnston of the Idaho

Department of Water Resources office at 1301 North Orchard Street, in Boise, Idaho, copies of water right license files for water right nos. 37-07268, 37-07454, 37-07602 and 37-08679.

3. Based on my over fourteen years of experience practicing water law in Idaho, I understand that Ms. Johnston works in the vault at the Idaho Department of Water Resources where original water right files are stored.

4. In response to my request, Ms. Johnston provided me complete copies of the requested license files stored in a digital format on a compact disc ("CD").

5. Attached hereto as Exhibits A, B, C, D, E, F, and G are true and correct copies of documents I printed from License File No. 37-07268 on the CD that Ms. Johnston provided to me.

6. Because the filing date stamp on the Proof of Beneficial Use form from License File No. 37-07602 on the CD that Ms. Johnston provided to me was illegible, I separately requested that Ms. Johnston send me a legible copy of that document by mail. Attached as Exhibit H is a true and correct copy of that document which I received by mail from Ms. Johnston on or about May 30, 2003.

7. Attached hereto as Exhibits I, J and K are true and correct copies of documents I printed from License File No. 37-07602 on the CD that Ms. Johnston provided to me.

8. Attached hereto as Exhibits L and M are true and correct copies of

documents I printed from License File No. 37-07454 on the CD that Ms. Johnston provided to me.

9. Attached hereto as Exhibits N, O and P are true and correct copies of documents I printed from License File No. 37-08679 on the CD that Ms. Johnston provided to me.

10. On June 6, 2003, I requested and obtained IDWR's certification that the exhibits attached to this Affidavit are true copies of documents on file with IDWR.

11. Upon information and belief, I understand that Mr. Steve Shaw, the former permitholder of Permit Nos. 37-07268, 37-07602 and 37-07454, is deceased and accordingly, I have not contacted him to obtain any information regarding the subject water rights.

12. I discovered the incorrect designation of the permit number on the proof of beneficial use in IDWR's License File No. 37-07602 in April 2003, shortly after Mr. Hubsmith contacted me regarding a different water right matter. I discovered this apparent error after I had reviewed and compared IDWR License File Nos. 37-07602 and 37-07268.

FURTHER YOUR AFFIANT SAYETH NAUGHT.

DATED this 6th day of June, 2003.

Dear Mr. Shaw:

One of the conditions of approval of your water Permit No. 37-7263 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

Dear Mr. Shaw:

You are hereby notified that under the provisions of Section 42-218a of the Idaho Code, Permit No. 37-7268 has lapsed since you have not notified us that you have completed the project by the date required on your permit. You were provided forms for that purpose in our notice to you dated June 30, 1978.

Your permit cannot be reinstated unless you submit the proof of beneficial use affidavit, enclosed, or show other reasonable cause why the permit should be reinstated within 60 days from the date of this lapse notice.

Re: Application to Appropriate No. 37-7268

Gentlemen:

I am writing this letter to you to request that the above-designated Application for Permit to Appropriate water for irrigation purposes be reinstated. The Application was for 3.2 cfs of irrigation water from ground water source to irrigate the W $\frac{1}{2}$ NE $\frac{1}{4}$ and the E $\frac{1}{2}$ NW $\frac{1}{4}$ of Section 30, Township 5 South, Range 18 East of the Boise Meridian, Lincoln County, Idaho. The original Application was made by Mr. Ralph Bowen, who was the owner of the property in 1973 when the Application was made. Thereafter, Mr. Bowen sold the land to Mr. Steve Shaw, who owned the land and completed the irrigation system under Permit No. 37-7268 in 1976. Mr. Shaw was killed in an automobile accident. Prior to his death he had mortgaged the property to Southern Idaho Production Credit Association. I acquired the land from Southern Idaho Production Credit Association, as shown on a deed hereinafter listed.

The work required by the Permit was completed by the time required for proof of completion of works and application to beneficial use. However, these proofs were never submitted to your Department.

To support this Application for Reinstatement of this Permit, I am enclosing the following the following documents:

1. Copy of Proof of Beneficial Use.
2. Copy of Aurora Pump Company invoice for 400 hp motor and 3500 gmp pump.

5. Affidavit of Jess Southwick showing that the land has been farmed since 1976 and is now farmed.
6. Affidavit of Neal Bowman showing development of the farm in 1976 and continued operation since such time.
7. ASCS map from Lincoln County ASCS Office showing a center pivot on said land.
8. Copy of deed from Southern Idaho Production Credit Association deeding subject land to Mr. and Mrs. Hubsmith.

I do hereby request that Permit No. 37-7268 be reinstated in my name. The supporting documentation as listed above is enclosed.

I am also enclosing my check for the examination fee on proof of completion of works and beneficial use.

I would appreciate your considering this Application for Reinstatement as soon as possible. If there is any additional documentation or information needed, please feel free to call me.

RE: Irrigation Pump #0555

Dear Mr. Hubsmith:

Upon your request I am writing this letter to verify that the above pump has been in use since 1976. In that year, Mr. Steve Shaw signed an irrigation electric service agreement with Idaho Power guaranteeing a minimum annual payment to Idaho Power for its special investments in extending its lines and facilities to the customer to supply him with pumping power service. Mr. Shaw signed a ten (10) year agreement with Idaho Power. I can verify that Mr. Shaw did exceed the agreed upon annual payment for each of those ten (10) years, thus verifying irrigation pump usage for those ten (10) years.

Very truly yours,

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

IN THE MATTER OF PERMIT

NO. 37-7268 IN THE NAME OF

LOUIS L. & DARLENE I. HUBSMITH

ORDER

This matter having come before the Idaho Department of Water Resources (Department) the Department finds as follows:

FINDINGS OF FACT

1. On September 19, 1973 the Director of the Department of Water Resources issued Permit No. 37-7268 with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before September 1, 1978.

2. On June 30, 1978 the Department sent a proof due notice to the permit holders.

3. On September 7, 1978 the Department sent a lapse notice to the permit holders since neither proof of beneficial use nor a request for extension of time had been received from the permit holders.

4. On July 11, 1988 Proof of Beneficial Use was received by the Department from the permit holders.

5. Section 42-218a, Idaho Code, authorizes the Department to reinstate a lapsed permit, with the priority date advanced to the date that proof of beneficial use was received, upon submittal of evidence clearly establishing the

MICROFILMED

DEC 21 1988

extent of beneficial use prior to the proof due date and a showing of reasonable cause why the proof was submitted late.

6. The permit holders submitted evidence to confirm that water has been put to beneficial use. These documents include: a copy of an ASCS 1977 aerial photo with date confirmed and signed by a Lincoln County ASCS agent; copy of well pump invoice dated May 19, 1976; copy of well pump installation report dated May 1, 1976; letter from Idaho Power Company customer service representative verifying power installation to pump in 1976 and continuous service since that time; two affidavits from persons familiar with the land and farming operation which state that the land was irrigated continuously since 1976; and a copy of deed from Southern Idaho Production Credit Association deeding land to Louis and Darlene Hubsmith.

7. The permit holders have stated that the previous permit holder had died after mortgaging the land to Southern Idaho Production Credit Association and completing the development. Because of these events, permit holders state that Proof of Beneficial Use was not submitted in a timely manner.

CONCLUSIONS OF LAW

1. The permit holders have submitted proof of beneficial use along with supporting evidence which establishes that water was in fact beneficially used as identified on the permit.

2. The permit holders have shown sufficient cause why the proof of beneficial use was not submitted in a timely manner.

3. The permit can be reinstated with the date of priority advanced to the date proof of beneficial use was received by the Department.

MICROFILMED

DEC 21 1988

ORDER

IT IS HEREBY ORDERED that Permit No. 37-7268 is reinstated.

IT IS FURTHER ORDERED that the date of priority of this permit is advanced to July 11, 1988.

Dated this 8th day of December, 1988.

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right limited to the amount that can actually be beneficially use used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than 4.0 afa per acre for the lands above.
6. The maximum diversion rate under this right and right M 37-07454 and 37-07602 shall not exceed 6.2 cfs.

RE: APP. NO. 37-8679/Trust Water Processing

DATE: 2-21-91

This trust water filing has been forwarded to the state office by the region for out of sequence processing. There appears to be sufficient information in the file providing evidence of development prior to October of 1984. I have also reviewed a 1983 infrared photo on file with the department and have found that all of the acreage under the application appears to have been irrigated at that time. The 1986 IDWR classification of irrigated acreage also confirms irrigation of the same lands at that time.

Due to evidence of prior development, the application may be approved out of sequence. The application will be considered a trust water filing due to the post 1984 priority date, but the acreage will not be counted as trust acreage due to the pre-1984 development.
