

An aerial photograph of a landscape, likely a wetland or marsh area, with a grid overlay. A large, irregularly shaped area is highlighted in yellow. The number '3' is printed in black on the yellow area. To the left of the yellow area is a blue area representing water. To the right is a darker, more textured area representing forest or dense vegetation. A blue line, possibly a ditch or road, runs diagonally across the bottom right. Two white circular punch holes are visible at the top of the page.
