**IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT
OF THE STATE OF IDAHO IN AND FOR THE COUNTY OF TWIN FALLS**

In Re SRBA	) Sub-case Nos.: See Attachments A and B
	)
Case No. 39576	)
	) FOURTEENTH JOINT STATUS REPORT
_____	)

In accordance with the Court's Order Requiring Bi-Monthly Joint Status Reports and Trial Schedule Order, dated May 17, 2002, the undersigned parties have the following to report on the progress regarding settlement of the claims and objections which frame the issues before the court in these consolidated sub-cases.

With regard to issues between the United States and the Tribes, these parties are in the process of scheduling a meeting to further discuss the issues between them. The next meeting is

tentatively scheduled for the week of July 14, 2003. The salient issue is the size and form of the United States' contribution to the settlement.

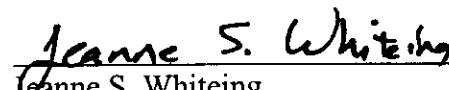

With regard to Idaho water issues, a draft proposal, dated April 4, 2003 has been circulated among the parties. A meeting between the Tribes, the State of Idaho, the United States and other Idaho parties has been proposed for the week of July 14, 2003. While several Idaho water issues remain unresolved, the parties are confident that the remaining issues can be resolved.^{1/} Once the parties have resolved these issues, we anticipate being able to provide more details about the settlement to the Court.

The Department of the Interior Water Rights Negotiating Team has requested and received the participation of the Secretary's Indian Water Rights Office in negotiations between the United States and the Shoshone-Paiute Tribes. The Secretary's Indian Water Rights Office has briefed members of the Indian Water Rights Working Group and other Department of the Interior senior staff. We have made no overtures to Congress on this settlement nor are we aware of any overtures made by others, although depending upon the final shape of the settlement, Congressional approval may be necessary as it has been in several other settlements including the 1990 Fort Hall Indian Water Rights Settlement.

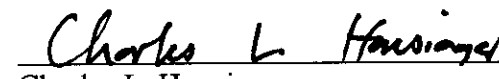

Dated this 25th day of June 2003.

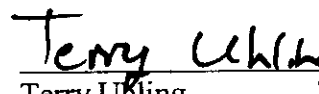

^{1/} The Owyhee Project water users are concerned about possible impacts which the settlement might have on their water supply. The Project is operated by the Bureau of Reclamation, a representative of which has been a member of the federal negotiation team, so we understand the issues of concern. The State of Oregon is aware of the water users' concerns and has been consulted on potential remedies. If meetings between the United States, the State of Idaho, and the Shoshone-Paiute Tribes are successfully scheduled for the week of July 14, 2003, then we intend to invite the Owyhee Project water users to meet jointly with the United States and the State of Idaho during the same week.

Peter C. Monson
Attorney for the United States
