---

**Findings of Fact**

The Director of the Idaho Department of Water Resources filed his *Director's Report for Domestic and Stockwater, Reporting Area 22 (IDWR Basin 86)* on March 19, 1999. The Director recommended the above 24 claims to the United States of America, Department of Interior, Bureau of Land Management ("USDI/BLM"), 1387 S. Vinnell Way, Boise, Idaho, 83709-1657, for a *de minimis* amount (.02 cfs) from various rivers, streams and creeks for year-round stockwater use in Latah and Nez Perce Counties with priority dates of January 1, 1878, November 8, 1895, or November 18, 1895, based on beneficial use.

The State of Idaho filed *Objections* on June 2, 1999, objecting to priority date and alleging the water rights should not exist. On August 29, 2002, the United States and certain private parties filed a *Stipulation and Joint Motion for Order Approving Stipulation* in multiple related subcases, including the above 24 subcases. As part of the *Stipulation*, the private parties agreed to dismiss their objections and responses and "for claims on lands administered by the Bureau of Land Management, the United States shall receive a water right with a priority date which is the later of a) the claimed priority date or b) June 28, 1934."

On September 5, 2002, the Special Master entered an *Order Granting Withdrawal of Objections and Responses* in the related subcases objected to by the private parties. On April 21, 2003, the Special Master entered an *Order Dismissing State of Idaho Objections* based on a *Stipulation to Resolve Objections* filed by the United States and the State. Finally, on June 10,

2003, the USDI/BLM filed a *Notice Regarding Priority Date* stating the priority date for all of the above 24 subcases should be June 28, 1934.

#### **Conclusions of Law**

The USDI/BLM is entitled to partial decrees adjudicating water rights as agreed to in the *Stipulation* and as described in the attached *Special Master Recommendations for Partial Decrees*.

DATED July 16, 2003.
