) SPECIAL MASTER REPORT

Findings of Fact

The Director of the Idaho Department of Water Resources filed his *Director's Report for Domestic and Stockwater, Reporting Area 22 (IDWR Basin 84)* on March 19, 1999. The Director recommended the above 60 claims to the United States of America, Department of Interior, Bureau of Land Management ("USDI/BLM"), 1387 S. Vinnell Way, Boise, Idaho, 83709-1657, for a *de minimis* amount (.02 cfs) from various rivers, streams and creeks for year-round stockwater use in Idaho and Clearwater Counties with priority dates of either January 1, 1887, or November 18, 1895, based on beneficial use.

The State of Idaho filed *Objections* on June 2, 1999, objecting to priority date and alleging the water rights should not exist. On August 29, 2002, the United States and certain private parties filed a *Stipulation and Joint Motion for Order Approving Stipulation* in multiple related subcases, including the above 60 subcases. As part of the *Stipulation*, the private parties agreed to dismiss their objections and responses and "for claims on lands administered by the Bureau of Land Management, the United States shall receive a water right with a priority date which is the later of a) the claimed priority date or b) June 28, 1934."

On September 5, 2002, the Special Master entered an *Order Granting Withdrawal of Objections and Responses* in the related subcases objected to by the private parties. On April 21, 2003, the Special Master entered an *Order Dismissing State of Idaho Objections* based on a *Stipulation to Resolve Objections* filed by the United States and the State. Finally, on June 10,

2003, the USDI/BLM filed a *Notice Regarding Priority Date* stating the priority date for all of the above 60 subcases should be June 28, 1934.

Conclusions of Law

The USDI/BLM is entitled to partial decrees adjudicating water rights as agreed to in the *Stipulation* and as described in the attached *Special Master Recommendations for Partial Decrees*.
