WHEREAS, The parties of the first part are willing to grant a right of way in and through the said Turner Ditch to the party of the second part upon the terms and conditions hereinafter set forth,

NOW, THEREFORE, In consideration of the premises and of the mutual covenants and agreements hereinafter contained the parties of the first part hereby grant to the party of the second part a right of way in the so-called Turner Ditch from its point of diversion in the northeast quarter (NE $\frac{1}{4}$) of the southwest quarter (SW $\frac{1}{4}$) of section five (5), township seven (7) south, range six (6) east, extending in a general northwesterly direction approximately a mile to the north and south center line of section six (6), township seven (7) south, range six (6) east, to a point near the northwest corner of the southwest quarter of the northeast quarter (NE $\frac{1}{4}$) of said section six (6); thence in a general southerly direction approximately half a mile to the junction of said Turner Ditch with the said South Side Canal at a point near the northwest corner of the southwest quarter (SW $\frac{1}{4}$) of the southeast quarter (SE $\frac{1}{4}$) of section thirty-one (31), township six (6) south, range six (6) east, all in Owyhee County, State of Idaho.

RE: Notice of Claims to Water Rights for Hot Springs Ditch Company

Hot Springs Ditch Company
C/o George Turner
HC 85, Box 123
Bruneau, ID 83604

Dear Mr. Turner:

In a final review of the lands recommended under the Hot Springs Ditch Company, I found I had included Mr. Prow's lands that are covered under his decreed Bruneau River rights. Since these lands are already covered at the full amount allowed by the Brockway report I have removed 79 acres from the ditch company's recommendation, leaving 894 acres under the ditch company's claims with a total of 48.94 cfs in daily needs and 7.0 cfs in conveyance loss.

We have also been instructed to remove the place of use description by township, range and section from the ditch company's claims. The remark stating: "Use of this rights with the rights listed below is limited to the irrigation of a combined total of 894 acres within the boundaries of the Hot Springs Ditch Company in a single irrigation season",,, is the only description that is to be included on these claims in regard to the place of use.

Enclosed, for your information, are updated profile reports showing the recommendations I plan to submit to the Judge. If you have any questions or comments in regard to the changes I have made, please do not hesitate to contact me.

Sincerely,

KAY WALKER

GRANDVIEW IRRIGATION DISTRICT,
Plaintiff,

-vs-

D-E-C-R-E-E

BRUNEAU BUCKAROO CO-OPERATIVE
DITCH COMPANY, et al,
Defendants

.....O.....

This cause having come on to be heard this 14
day of February, 1925, upon the complaint of the plaintiff and
the answers and cross-complaints of the appearing defendants,
the default of non-appearing defendants having heretofore been
entered, and upon the stipulation of all the parties appearing
herein,

IT IS HEREBY ORDERED, ADJUDGED and DECREED,
during the irrigation season, Dry Creek, (sometimes referred
to as Jack's Creek) is an independent stream not tributary to
the Bruneau River, for the reason that all the water of said
Dry Creek in low water season many miles above its flood water
junction with Bruneau River sinks into underground reservoirs
and if permitted to run unobstructed and unappropriated, would
never reach Bruneau River either on the surface or by under-
ground flow.

IT IS FURTHER ORDERED, ADJUDGED and DECORDED,
that the plaintiff and the several defendants and cross-com-
plainants hereinafter named have a right to use the water of
Bruneau River and its tributaries situate in Owyhee County,
State of Idaho, to the extent of their needs for irrigation
and domestic use and the watering of livestock, upon the lands
described after each appropriation, respectively, for the
number of inches of water (measured under a four inch pressure)
set opposite each name, each fifty inches thereof to be equiv-
alent to a flow of a cubic foot per second, as prescribed by
the law of Idaho, the priorities of said appropriations to be
fixed as of the time set opposite each name, respectively:

51 0001

The plaintiff, Grandview Irrigation Dis-
trict 150 cubic feet of water per second of time from
the Bruneau River with priority as of February 22,
1904, appurtenant to the lands within the Grandview
Irrigation District, as shown by a map thereof attached
to the stipulation on file herein, to which reference
is hereby made.

The defendants and cross-complainants as fol-
lows:

NAME OF PARTY

John B. UrquidiA51-00010

EMPLOYEE

Roxanne McCarthyA51-00011RE: PPU filings for Hot Springs Co.

John was in my office today to research Hot Springs Ditch Co. claims.

Hot Springs has used the principal of permissible place of use to file their claims and Mr. Urquidi strongly objects.

John does not wish for the 1893 decreed water that he feels is appurtenant to his land to be "spread" over all of the lands under Hot Springs Ditch Co.

Mr. Urquidi would like to be notified of our recommendations and will be submitting information concerning his rights.
