) AND RECOMMENDATION

Findings of Fact

The Director of the Idaho Department of Water Resources filed his *Director's Report for Domestic and Stockwater, Reporting Area 12 (IDWR Basin 47)* on August 14, 1998. The Director recommended the above 11 original claims to the United States of America, Department of Agriculture, Forest Service ("USDA/FS"), 550 W. Fort Street MSC 033, Boise, Idaho, 83724, as filed for *de minimis* amounts from various forks, creeks, springs and canyons for stockwater use, all with a priority date of May 1, 1875, based on beneficial use.

On June 23, 1999, the Pickett Ranch & Sheep Company, 1650 South, 568 West, Oakley, Idaho, 83346, filed a *Motion to File Late Objections* in 34 subcases, including the above 11 original claims, objecting to name and address and alleging the water right should not exist "in the name of the USA."

On August 29, 2002, the United States (USDA/FS and USDI/BLM) and certain "private parties," including the Pickett Ranch & Sheep Company, filed a *Stipulation and Joint Motion for Order Approving Stipulation* in multiple subcases, including the above 11 original claims. As part of the *Stipulation*, the parties agreed to dismiss their objections and responses and split the original claims between the USDA/FS and the Pickett Ranch & Sheep Company. The parties later filed a *Notice of Clarification* of the *Stipulation* on June 5, 2003.

On June 17, 2003, the parties, with IDWR's concurrence, filed *Amended Claim Standard Forms 5* for the 11 original claims agreeing to split each claim into 2 rights with the use of both limited to a total combined diversion rate of .02 cfs and a combined quantity of 13,000 gallons per day. The Pickett Ranch & Sheep Company rights would have a June 11, 1905 priority date and the USDA/FS rights would have a June 12, 1905 priority date. No one objected to the Director's amended recommendations.

Conclusions of Law

The USDA/FS and the Pickett Ranch & Sheep Company are entitled to partial decrees adjudicating water right as described in the attached *Special Master Recommendations for Partial Decrees for Water Rights 47-17065 & 47-17066, et al.*

Recommendation

THEREFORE, IT IS RECOMMENDED that the original claims (47-14994, *et al.*) **not** be decreed as water rights because each of the claims has been split.

DATED August 8, 2003.
