Re: Indian Hills Subdivision
Pocatello, Idaho

Gentlemen:

Submitted herewith for your approval are plans and specifications for water system and sewer system at Indian Hills Subdivision near Pocatello, Idaho.

Initially, only a part of the first subdivision is being developed; this consists of 29 lots. The well has been completed at the location shown by Development plan heretofore furnished you and informally approved. On test the well had a sustained yield of 1,200 gpm at 1 foot draw-down. The well is 82 feet deep, with a 6 foot stratum of clay above the perforations in the casing. Static water level is 23 feet.

As indicated by the specifications, the well is 12-inch size to take a larger pump at such time as the development requires. Initially, a pump of 100 gpm capacity at a total head of 200 feet will be used. Preparation of specifications for pump and controls was deferred pending test of the well. A copy will be sent to you as soon as completed. Generally, the pump will be a deep well turbine of capacity stated above, electrically driven, and will be automatically controlled by a standard make of control.

As soon as pump is installed, water samples will be submitted for analysis.

The sewer plans indicate the ultimate proposed installation. For the first few houses individual septic tanks will be used. The lots first to be developed are Lots 1 to 12, Block 1, Lots 17 to 29, Block 2, and Lots 1 to 4, Block 4.

Very truly yours,

HAMILTON AND VOELLER

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

NO LAWFUL APPROPRIATION SHOWN: There are a number of circumstances in which a claim is proposed to be disallowed on this basis. This is most commonly included for a claim based on beneficial use or posted notice that is PROPOSED to be disallowed because the right claimed is not within an exception to the mandatory permit statute, and beneficial use of water prior to the mandatory permit statute was not confirmed. This is also included where a claim is PROPOSED to be disallowed because the claim is to water that is not public water subject to appropriation. This is also included where a right was determined not to exist in a prior adjudication.

NO LAWFUL APPROPRIATION SHOWN.
