Salt Lake City, Utah 84111

Dear Mr. Wright:

Enclosed is your Check No. 31-1 for the \$10.00 licensing fee of Permit No. 29-2384.

This fee is returned to you since any license that would be issued could only be issued for use within the City of Alameda and further, could only be issued for the purposes and to the extent of the development that took place prior to October 15, 1963.

Your November 10 letter indicates a different and expanded use of the water other than that shown on the original permit.

Therefore, a new application for a water right permit should be filed for this use of water. An Application form is enclosed for this purpose.

Since the city has no objection to the cancellation and the well has not been used for some time, we will continue with the cancellation of the permit.

Sincerely,

BOBBY D. FLENNOR

Re: Permit #26699 (new #29-2384)
Issued to City of Alameda
Now-City of Pocatello

Dear Sir:

This is to advise that the well covered by the above permit is no longer a part of the City water supply system. The land on which the well is located was under a long term lease to the City of Alameda and transferred to Pocatello at the time of consolidation. This lease is no longer being used by the City and the property has recently been acquired for possible motel development.

It is our understanding that the developer might desire to reactivate this well. We will forward this permit number and a copy of this correspondence for his information.

In light of the above, the City will not contest the cancellation of this permit.

Gentlemen:

It appearing to the Department of Water Resources (formerly the Department of Water Administration) that the terms and conditions of Permit 28699/29-2384 to appropriate

the public waters of the State of Idaho have not been complied with as to failure to ~~submit~~ certificate of completion of works and licensing fee in the amount of \$10.00

you are hereby notified that under the provisions of Section 42-111, Idaho Code, as amended, said permit is hereby used for cancellation, and you are required to show cause before the Director of the Department of Water Resources on or before November 10, 1975, why said permit should not be cancelled.

Permit 28699/29-2384 contains the use of 5.0 cubic feet per second of water from a ground water source (well)

the point of diversion was to be located within the NW1/4 of Sec. 19 Twp. 6 S. Rge. 34 E, B. M.

and the permit was approved January 21, 1957

W. B. Webb
City Manager
Pocatello, Idaho

Dear Mr. Webb:

We received the City Warrant for \$20.00, fees for Certificates of water right under the two permits.

Our letters of September 5, 1962, in regard to the certificates were based on the report of the field examiner which showed that the 100 HP motor and pump in the NE 1/4 Sec. 14, had discharged 750 gpm and that the pump and motor was to be substituted for the 75 HP motor and pump in the well in NE 1/4 Sec. 13. The well in the NE 1/4 Sec. 14, would be abandoned on account of cave-in.

The report also shows that the pump, under Permit No. G-26699, in the NW 1/4 Sec. 13, was operating against a head of 166 # plus a lift of 24.5 feet. That pressure does not seem reasonable unless the service area is at a considerable elevation above the well. The 750 gpm shown in our letter of September 5 is excessive for that head.

Before the certificates can be issued, we must have another inspection or we can probably accept a report from you which shows the pump and motor to be used at each of the wells, the pressure at the pump and your estimate of the amount of water delivered.

The Cit. Warrant will be held in this office, pending your reply.

Dear Mr. Thomas:

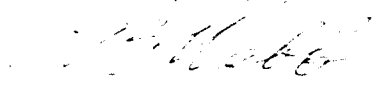

We have your letter of October 28 in regard to Permit Nos. G-26679, G-26699, in which you say only the holder of a permit can relinquish. After consolidation, on July 23, 1962, there is no City of Alameda. Under Idaho Code (1961) 50-2316 it is stated "provided further, that such repeal shall not apply to ordinances under which vested rights have accrued, or --- all of which proceedings shall be continued and conducted by and under the authority of the new consolidated municipal corporation, with the same force and effect as if continued and conducted by and under the authority of the municipal corporation by which they were commenced."

Also, under 50-2317 "such new consolidated municipal corporation and its officers, shall be deemed the successor and successors of such municipal corporations so consolidated and their respective officers, and shall succeed to both the property and liabilities of such corporation, not otherwise provided for under this act."

Under these conditions, and others involved in the "Consolidation of Municipalities" act of 1961, it would appear that Pocatello is now the permit holder.

We would appreciate your view point on this matter so that we can process the permits as soon as possible.

Pocatello, Idaho

Dear Mr. Webb:

Enclosed are the relinquishment of Permit No. G-26679 and City
Warrant No. 8192, dated November 9, 1962 for \$20.00.

The permits are in the name of City of Alameda. Only the
holder of a permit can relinquish. Both permits show place
of use "City of Alameda and vicinity." All certificates of
water right show information from the permit except amount
of water and any decreased acreage in place of use is from
the field examination.

Permits can be assigned; (.0.50 fee for recording), and
they can also be amended as to place of use; (.1.00 fee for
recording).

The examination October 15 showed no change in the walls. The
certificates can be issued under Permit No. G-26699 for 1.66
c.f.s. from the wall in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 13, T. 6 S., R. 34 E., S. 1.
for use in the City of Alameda and vicinity, upon payment of
total fees of \$10.00.

The City of Alameda, Idaho has acquired the wells covered by Permits No. G-26679 and G-26699 formerly owned by A. Y. Satterfield, L. T. Dahl, E. H. Barrett, Pocatello, Idaho.

Mr. Barrett has just given us your letter regarding completion of works. In making up the forms, we find the wells were drilled on different tracts from those stated in the applications. Also, the wells are now part of the City supply and the land list should be changed to reflect this. Will you please send the necessary forms to our office.

Will you please extend the date of January 21, 1962 to allow us time to submit the required amendments.

Dear Mr. Fuger:

We have checked our records on the former City of Alameda regarding the well permits.

There is a license G-23171 for 6.0 c.f.s. with the points of diversion being in the S1/4SW1/4, Sec. 23, Township 6 South, Range 34 East, T. 6 S., R. 34 E., S. 4 E. We have no record of wells in the location indicated by paragraph 1 of your letter of August 24, 1967.

We also have a permit for a well, NW1/4SW1/4, Section 13, Township 6 South, Range 34 East, S. 4 E. This is a permit (G-26699) for 1.56 c.f.s. There is another well permit (G-26679) in Section 14, T 6 S., R 35 E., S. 4 E. We have had many letters from and to Mr. W. B. Webb regarding these two permits. We asked that permit G-26679 be relinquished since it has sanded in and is not in use any more. To date we have not received the relinquishment. We can issue a license for G-26699 upon receipt of your check in the amount of \$5.00.
