Wallace E. Garets, ISC director of journalism, said today.

Most coveted of the awards are two cups, one for the best printed paper, contributed by the Salt Lake Tribune, and the other for the best mimeographed paper.

Gift of the Deseret News.

Five plaques will also be awarded as follows: High school paper with best news, Minidoka County News; best editorials, Idaho State Journal; best sports pages, Idaho Falls Post-Register; best feature, Salt Lake Tribune; best columns, ISC publications committee.

The girl editor of the best paper submitted for judging by a jury of high school teachers will receive a pendant from the Idaho Press Women. This award was initiated last year.

High school students will also compete for places in a radio broadcast program. A number of scripts dramatizing a news event has been submitted, and the best will be selected for broadcast.

The convention program will include several panel discussions by prominent Idaho weekly and daily newspapermen. High school students and teachers will also take part in a number of panels.

Kiwanians Hear Talk On Alameda History

A. Y. Satterfield, pioneer resident of Alameda, was speaker at the Thursday noon meeting of the Alameda Kiwanis Club.

Choosing as his subject "The History of Alameda," the speaker recounted incidents which occurred in the development of Pocatello and Alameda.

Taking his listeners back to the early history of the country, Mr. Satterfield reminded his audience that the first white men claiming ownership of the county were the French, in 1663, who later gave the territory to Spain in 1762. The United States acquired the territory in 1805 through the Louisiana Purchase.

When Lewis and Clark came here they discovered Soda Springs and the hot springs and later camped here, a part of their company stopping here on their return trip. Indians and explorers came from all parts of the country, he said, largely because of the fact that the winters were warm.

The village of Fairview and North Pocatello were consolidated to form Alameda in 1924, the result of the first ordinance being signed by J. B. Wegnetts, chairman of the board, and Dan Hockley, clerk. Other additions, including the Buena Vista addition, Park, Globe, Victory, Martin and others, later became a part of Alameda.

"All the village board chairmen and mayors from the first to the present mayor have been progressive individuals who were interested in seeing the city grow," Mr. Satterfield said, and pointed out that only five of the city's streets now remain unpaved.

In commenting on the city water system, the speaker pointed out that the first well was dug to a depth of 65 feet, providing a good supply of water, but during the term of Mr. Freckleton, Alameda's first mayor, the well was drilled down to 100 ft. and another 65 ft. well was dug later.

The water is exceptionally pure, he said, and has never had to be chlorinated. Frequent tests are taken of the water to insure its purity and it has been found to be 99.6 per cent pure.

The first big business started in what is now Alameda was the brick company, which furnished bricks for the Pocatello House.

Mr. Satterfield, who came to the area in 1905, was introduced by his son, Homer Satterfield.

REPORT OF ENGINEER

Permit No. G-23171

This proof is for Completion of Works and Beneficial Use In Water District No.

1. Name of Applicant City of Alameda, Idaho
2. Source of water supply: Subterranean from three wells
220' W. of center
3. Location of point of diversion: Is in the SE 1/4, and 630' S. and 1/2 of Section 23
T. 6 S. R. 34 E. County of Bannock

At the time of this inspection, pumps No. 1 and 2 were out of commission due to the construction of a new pump house over them and also the intention of doing some repair work on same. They are building a new concrete block pump house over the pump size 12' X 24' X 8' high.

Well No. 1 is 100 feet deep 10 inch diameter cased to the bottom. Static Height of water is thought to be 70'. Pump is a Peerless pump No. 13262. Motor is a 40 H.P. U. S. Motor No. 209569, 440 V. 49 AMP. 1800 RPM.

Well No. 2 was covered with a tarp and partly with earth from the excavation until it was difficult to make an inspection. Peerless pump. Motor is 25 H.P. G. E. Both pumps have their bowls down 100'. These pumps are located on City ground at the corner of Washington and Willard Street

Well No. 3 is at the intersection of Warren and Cedar Streets.

Brick pump house size 14' X 14' X 8' high. Well is 104' deep by 16" diameter cased to the bottom. Static Height of water is 74', no draw-down. Fairbanks Morse pump No. PJ 7972, 100 H.P. 440 V., 120 AMP., 1765 RPM Serial No. JEJ 6789807. Discharge is through a 12" pipe line into the system.

Briggs Engineering of Boise can give the details regarding the water system and pump capacities.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?
