Case No. 39576

SUBCASE NO.: 82-12000
(RENUMBER TO 85-15394)

STANDARD FORM 5
AMENDED CLAIM

For Domestic and Stockwater Rights

This form is used to report the stipulated elements of one "domestic and/or stockwater" right acquired under state law and/or one federal reserved water right and to amend the Notice of Claim. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be decreed as described per the attached Amended Claim, **except IDWR's concurrence is limited to the state based elements only. Since by law IDWR neither investigates nor recommends federal reserved water rights it has no knowledge of, nor opinion regarding, the validity of the federal basis of this right.**

The parties and IDWR also agree that due to clerical error, this water right was mistakenly reported in the Director's Report for Domestic and Stockwater rights in IDWR Administrative Basin 82. The water right's point of diversion actually lies in IDWR Administrative Basin 85. The claim to this water right has been renumbered to 85-15394. The parties and IDWR agree and stipulate that the elements of water right 85-15394 should be described per the attached. The parties and IDWR have indicated their concurrence by initialing each of the attached pages. The parties and IDWR further agree and stipulate that water right 82-12000 should be disallowed.
