

06/06/2001

IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 65-3

NAME AND ADDRESS: NESBITT MC FARLAND COOPERATIVE DITCH CO
C/O LARRY P WHITE
6327 BLUFF RD
NEW PLYMOUTH, ID 83655

SOURCE: PAYETTE RIVER TRIBUTARY: SNAKE RIVER

QUANTITY: 11.07 CFS

A DIVERSION RATE OF .034 CFS PER ACRE AT THE FIELD HEADGATE
IS INCLUDED IN THE RATE OF DIVERSION FOR THE PLACE OF USE
DESCRIBED ABOVE.

USE OF THIS RIGHT WITH RIGHT NO. 65-22499 IS LIMITED TO A
TOTAL COMBINED DIVERSION RATE OF 11.07 CFS.

PRIORITY DATE: 11/27/1889

POINT OF DIVERSION: T07N R03W S8 LOT 4 NWSW Within PAYETTE County

PURPOSE AND
PERIOD OF USE:

<u>PURPOSE OF USE</u>	<u>PERIOD OF USE</u>	<u>QUANTITY</u>
IRRIGATION	3-15 11-15	11.07 CFS

PLACE OF USE:

THIS RIGHT IS LIMITED TO THE IRRIGATION OF 255.0 ACRES
WITHIN THE BOUNDARIES OF THE NESBITT MC FARLAND COOPERATIVE
DITCH CO. IN A SINGLE IRRIGATION SEASON.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

THIS PARTIAL DECREE IS SUBJECT TO SUCH GENERAL PROVISIONS
NECESSARY FOR THE DEFINITION OF THE RIGHTS OR FOR THE
EFFICIENT ADMINISTRATION OF THE WATER RIGHTS AS MAY BE
ULTIMATELY DETERMINED BY THE COURT AT A POINT IN TIME NO LATER
THAN THE ENTRY OF A FINAL UNIFIED DECREE. SECTION 42-1412(6),
IDAHO CODE.

RE: Snake River Basin Adjudication (SRBA)
Water Delivery System Boundaries and/or Service Area

The purpose of this letter is to ask for your assistance in helping IDWR identify the boundaries and/or the service area of your water delivery system. This is the initial phase for identifying water delivery systems for the Snake River Basin Adjudication. Any information you can provide us showing your boundaries and/or service area will be appreciated. The preferable method for presenting this information would be to draw outlines of the boundary and service on some form of a chart or map.

Please submit your service area boundary information within 30 days.

Thank you for your assistance. If you have any questions or concerns, please contact me at 1/800-451-4129.

Sincerely,

Erik Norquest
Sr. Water Resources Agent

RE: Snake River Basin Adjudication (SRBA)
Water Delivery System Boundaries and/or Service Area

Enclosed please find the boundary and/or service area IDWR has on file for your water delivery system. This is the initial phase for identifying water delivery systems for the Snake River Basin Adjudication. Any additional information you can provide us showing your boundaries and/or service area will be appreciated. The preferable method for presenting this information would be to modify the outlines of the boundary and/or service area we have enclosed, and return a copy to us.

Please return your modified boundary and/or service area information within 30 days.

Thank you for your assistance. If you have any questions or concerns, please contact me at 1/800-451-4129.

Sincerely,

Erik Norquest
Sr. Water Resources Agent

TO: Ms. Shirley Fischer

SUBJECT: CLAIMS & COPIES

FROM: FORREST LUTHY

DATE: 3/14/91

DEAR MS. FISCHER:

ENCLOSED ARE COPIES OF THE VARIOUS CLAIMS THAT I THOUGHT MIGHT BE OF HELP. I FOUND NO EVIDENCE OF ANY CLAIMS IN THE PRESENT ADJUDICATION MADE FOR IRRIGATION BY JENSEN OR WHITE AS INDIVIDUALS. THE ONLY POSSIBILITY, AS I RELATED BY PHONE, OTHERWISE, WOULD BE IF THEY HAD FILED UNDER SOME OTHER ENTITY FOR A NAME. IT MAY BE THAT THE ACRES ARE FILED UNDER THE LOWER PAYETTE DITCH CO. RIGHTS, ONLY. IF YOU

HAVE FURTHER QUESTIONS & I AM NOT AVAILABLE, CALL JAN SHORTE

AT THE WESTERN REGION, PH: 334-2190. SHE'S A GREAT HELP.

Re: Civil Case No. 3667 - Frasier, et al Objection 65-00003

Dear Payette River Water User,

In July 1982, Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown on behalf of themselves and others in the same class filed an Objection to the Findings with the Third Judicial District Court in the Payette River Basin Adjudication. The parties maintained the diversion rate recommended for their water rights and others from the Payette River were not correct for the "bottom lands" irrigated by those water rights.

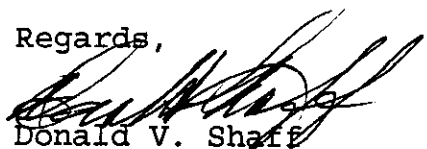

This group of water rights are among the last water rights remaining for decree in the Payette River Basin Adjudication. Most of the water rights were decreed on January 21, 1986 and in subsequent partial decrees.

Your water right referenced above was listed in the Proposed Finding with a diversion rate of 7.41 cubic feet per second (cfs). Having reviewed the data submitted by the parties and data and evidence obtained by the Department, the Department recommends a diversion rate of 11.07 cfs. If the amount of water is not proposed to change, data and/or evidence indicated a change was not justified.

The Department has made an effort to determine a fair and accurate diversion rate for each of the parties. If you disagree with the proposal above, please contact us by May 15, 1992. We hope to resolve any disputes that may exist before going to the court asking for a decree of your water right through a Motion for Summary Judgment.

A summary judgment allows the judge to make a decision without the time or expense of a trial when the facts are not disputed. Notice of this motion and the accompanying hearing will be provided to you 28 days before the hearing.

Regards,

Donald V. Shaff
Manager, Adjudication Section

Re: Civil Case No. 3667
Frasier, et al Objection ~~12-00000~~

Dear Payette River Water User,

In July 1982, Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown on behalf of themselves and others in the same class filed an Objection to the Proposed Findings with the Third Judicial District Court in the Payette River Basin Adjudication. The parties maintained the diversion rate recommended for their water rights and others from the Payette River were not correct for the "bottom lands" irrigated by those water rights.

This group of water rights are among the last water rights remaining for decree in the Payette River Basin Adjudication, most of which were decreed on January 21, 1986. The water rights decreed in the Payette adjudication will be incorporated into the eventual decree in the larger Snake River Basin Adjudication (SRBA) now proceeding in the Fifth Judicial District, provided new claims have been filed in the SRBA. Otherwise the achievement of a decree in the Payette adjudication could be voided.

Your water right referenced above was listed in the Proposed Finding with a diversion rate of 7.41 cubic feet per second (cfs). You will find enclosed a two-page form that when completed by you will describe your water delivery system and irrigation methods. The information you supply is essential in order for the staff of the Department to evaluate your irrigation water requirements. Much of the information required is technical, and you may wish to contact the Soil Conservation Service or other professionals for assistance with the form.

To expedite the process to resolve the Frasier objection, please return the enclosed form within 45 days. Without the completed form, the Department will assume you agree with the water right described in the Proposed Finding with the diversion rate shown above.

Please contact me if you have questions about the matters set out above. Thank you for your patience in this process.

Regards,

Re: 65-0003

C
Federal Land Bank Association
Dan Roberts, Manager
188 S.W. First Ave.
Ontario, Oregon 97914

Dear Mr. Roberts,

O
Per our telephone conversation of May 12, 1977, please find enclosed a copy of the claim filed by the Nesbit-McFarland Cooperative Ditch Co. I hope this information will be of assistance to Mr. Jensen and/or yourself.

P
As stated at that time, the Proposed Finding of Water Rights in the Payette River Basin has not been published and will not be in the near future.

Y
An interim schedule of water rights has been approved by court order of the Idaho Third Judicial District for the 1977 water year only. As to the claim under consideration, the interim schedule shows a right of 6.09 cubic-feet per second (cfs) for the irrigation of 253 acres. This right is from natural flows of the Payette River and will not be satisfied, according to the interim schedule, until 1405.01 cfs in superior rights are fulfilled, if all water users are taking 100 per cent of their rights.

If you have further questions, please feel free to contact me.

Sincerely,

Don Shaff
Water Resource Agent

Nesbitt-McFarland Cooperative Ditch Company
c/o Clarence S. Nesbitt
Route #2
New Plymouth, Idaho 83655

Claim #65-0003

Priority	Rate of Diversion	Quantity per Annum	Acres Irrigated
1. 11/27/1889	2. 6.05	3. 1,360.0	4. 254.0
5. Source: Payette River			
6. Purpose: Irrigation			
7. Period of Use: April 1 through October 31			
8. Type and Point of Diversion: Headgate & gravity ditch; NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 8, Twp. 7N, Rge. 3W, B.M.			

See attached listing for land descriptions.

1. Priority based on Posted Notice J. F. Nesbitt, dated November 27, 1889. Recorded Water Rights Book #2, Page 76, Ada County.

2. The quantity of water 6.05 c.f.s. is calculated by allowing 1 c.f.s. of water per 50 acres irrigated land, which is the maximum allowed without justification under Idaho Law 42-202, Volume 8 of the Idaho Code. The loss was calculated to .97 c.f.s. by using Moritz Formula $S(\text{c.f.s./mile}) = 0.2 \sqrt{\frac{Q}{L}}$.

3. The acre foot irrigation requirement amounting to 1360.0 is based on $4.5 \times 254. = 1,143.0 \times 19\%$ (seepage loss) $217.1 = 1,360.0$.

The 4.5 acre ft. per acre is based on the University of Idaho Research Study intitlled Consumptive Irrigation Requirement for Crops of Idaho.

4. The acres irrigated was tabulated from maps prepared by the Department of Water Administration.

5. The source was found to be from Payette River by the survey and mapping crew.

6. By field investigation, the purpose was found to be for irrigation.

Nesbitt-McFarland Cooperative Ditch Company

SOIL CONSERVATION SERVICE

Payette, Idaho 83661

December 8, 1971
Department of Water Administration

Idaho Department of Water Administration
State House
Boise, Idaho 83707

Gentlemen:

Mr. Clarence Nesbitt, Route 2, New Plymouth, Idaho, has requested that I provide soils information to your office relative to his filing for water rights on his ranch which consists of nearly 1100 acres.

The soils are droughty with sandy or gravelly textures. This includes Letha fine sandy loam, Moulton fine sandy loam, Falk fine sandy loam and the Notus coarse sandy loam. Other soils occurring in minor amounts are the Chance and Baldock loams.

The characteristic of these soils is the shallowness to underlying sands or gravels. The principal crops are hay, pasture and small grains. Irrigation is by flooding, and with the absence of slope in most areas large heads of water are needed to adequately irrigate the fields in a reasonable time. And since the soils, for the most part, have low water-holding capacities the frequency of water application is greater than with soils of higher water-holding capacities. The result, of course, is the need for additional water to meet the requirements of these river bottom soils.

I don't have any information tabulated at the present time in which to base a recommended amount of water on, but Mr. Nesbitt feels that he should have about 1500 miners inches which is based on his past water use on the ranch. This seems to be a close estimate of need as I have been on his ranch several times and some specifically to help with his irrigation program. His water always appears to be well managed and properly utilized.

If I can be of further help by providing information regarding Mr. Nesbitt's application I will be glad to do so.

Sincerely yours,

R. L. Kane
R. L. Kane
District Conservationist

Nesbit-McFarland Cooperative Ditch Company:

On October 27, 1969, an action was commenced in the District Court of the Third Judicial District, in and for the County of Gem, to determine rights to the use of the surface and/or ground waters within the Payette River drainage basin.

As a result of this action, the District Court has authorized the State Reclamation Engineer to conduct a study of the Payette River drainage basin and to submit to the court a proposed determination of water rights.

Since it appears that you may have some interest in the waters of the Payette River drainage basin, you are being named a defendant in the action. The enclosed Summons, Motion for Order of Joinder, and Order of Joinder require that you file with the State Reclamation Engineer your claim of water right to the use of waters within the Payette River drainage basin within 60 days from the date this is served upon you. Since all defendants are not joined at one time, due to the large number of people involved, Exhibit A includes only those joined with your group. A complete list of defendants in this action is not included among the enclosures; however, a complete list is available upon request from this department.

In order to hold a water right under Idaho Law, you or your predecessor must have physically diverted and beneficially used water prior to this date. If you have not used the water and do not claim a right, it will not be necessary for you to file a claim with the Department of Reclamation. However, if you are using water and fail to assert a claim within the time stated, you may be forever barred and estopped from claiming a right to the waters within the Payette River drainage basin.

In order to assist you in filing any claim you may have, Department personnel will be available at Idaho County Courthouse - Emmett, on March 18, 1970, at 1:00 p.m. o'clock. The Department will have a preliminary claim prepared when you appear, to minimize the time which it may take to prepare your claim. There will also be a notary available to notarize your claim. It is strongly recommended that you appear at the above time, so that the most efficient use will be made of the personnel, maps,

Nesbit-McFarland Cooperative Ditch Company

Page 2

CL 0003

and records which will be available to you. You should bring any information that you may have which will verify your claim and assist you in completing your claim, such as receipts for installation of the diversion facilities, power records indicating when power was installed to pumps and motors, tax notices, etc. In the event that additional claim forms are needed, they will be available at the time of the public meeting or upon request from the Department. Department personnel will also be happy to assist you during regular work hours at Statehouse - Annex #2, 614 West State Street, Boise, Idaho, or by phoning 384-2215.

Very truly yours,

R. KEITH HIGGINSON
State Reclamation Engineer

IN THE DISTRICT COURT OF THE THIRD JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF GEM

IN THE MATTER OF THE GENERAL)
DETERMINATION OF THE RIGHT TO)
THE USE OF SURFACE AND GROUND)
WATERS OF THE PAYETTE RIVER)
DRAINAGE BASIN.)

Civil No. 3667

S U M M O N S

THE STATE OF IDAHO SENDS GREETINGS TO: Nesbit-McFarland Cooperative Ditch
Company

You are hereby notified that an Order has been entered in the District Court of the Third Judicial District in and for the County of Gem, dated November 12, 1969, directing the State Reclamation Engineer of the State of Idaho to commence an investigation and determination of the various rights to the use of surface and ground waters of the Payette River Drainage Basin, from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties,

And you are hereby notified that unless you appear and file a claim, with the State Reclamation Engineer, Statehouse - Annex 2, 614 W. State Street, Boise, Idaho, within sixty (60) days of the service of this Summons to the ownership of a water right for the use of any surface or ground waters of the Payette River Drainage Basin from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties, that you will be deemed to have forfeited any water right heretofore acquired for the use of the above waters.
