RE: Snake River Basin Adjudication (SRBA)
Water Delivery System Boundaries and/or Service Area

Enclosed please find the boundary and/or service area IDWR has on file for your water delivery system. This is the initial phase for identifying water delivery systems for the Snake River Basin Adjudication. Any additional information you can provide us showing your boundaries and/or service area will be appreciated. The preferable method for presenting this information would be to modify the outlines of the boundary and/or service area we have enclosed, and return a copy to us.

Please return your modified boundary and/or service area information within 30 days.

Thank you for your assistance. If you have any questions or concerns, please contact me at 1/800-451-4129.

Sincerely,

Erik Norquest

RE: Snake River Basin Adjudication (SRBA)
Water Delivery Service Areas

Thank you for providing me with your water delivery boundary map. I will now enter the boundaries into ARCVIEW, a computer digital photographic mapping program. Once this is complete, I will provide you with a color aerial photo image along with a copy of the map you sent me. You can then compare them and let me know if there are any adjustments you feel need to be made to the boundary.

Should your boundary overlap another water delivery system boundary, I will send you an aerial photo image showing both boundaries and the area of the overlap. You will then need to work with the other entity to resolve the boundary difference.

If you have any questions, please don't hesitate to call me at 208/327-7935.

Sincerely,

A handwritten signature in black ink that reads "Erik Norquest".

RE: Snake River Basin Adjudication (SRBA)
Water Delivery System Boundaries and/or Service Area

The purpose of this letter is to ask for your assistance in helping IDWR identify the boundaries and/or the service area of your water delivery system. This is the initial phase for identifying water delivery systems for the Snake River Basin Adjudication. Any information you can provide us showing your boundaries and/or service area will be appreciated. The preferable method for presenting this information would be to draw outlines of the boundary and service on some form of a chart or map.

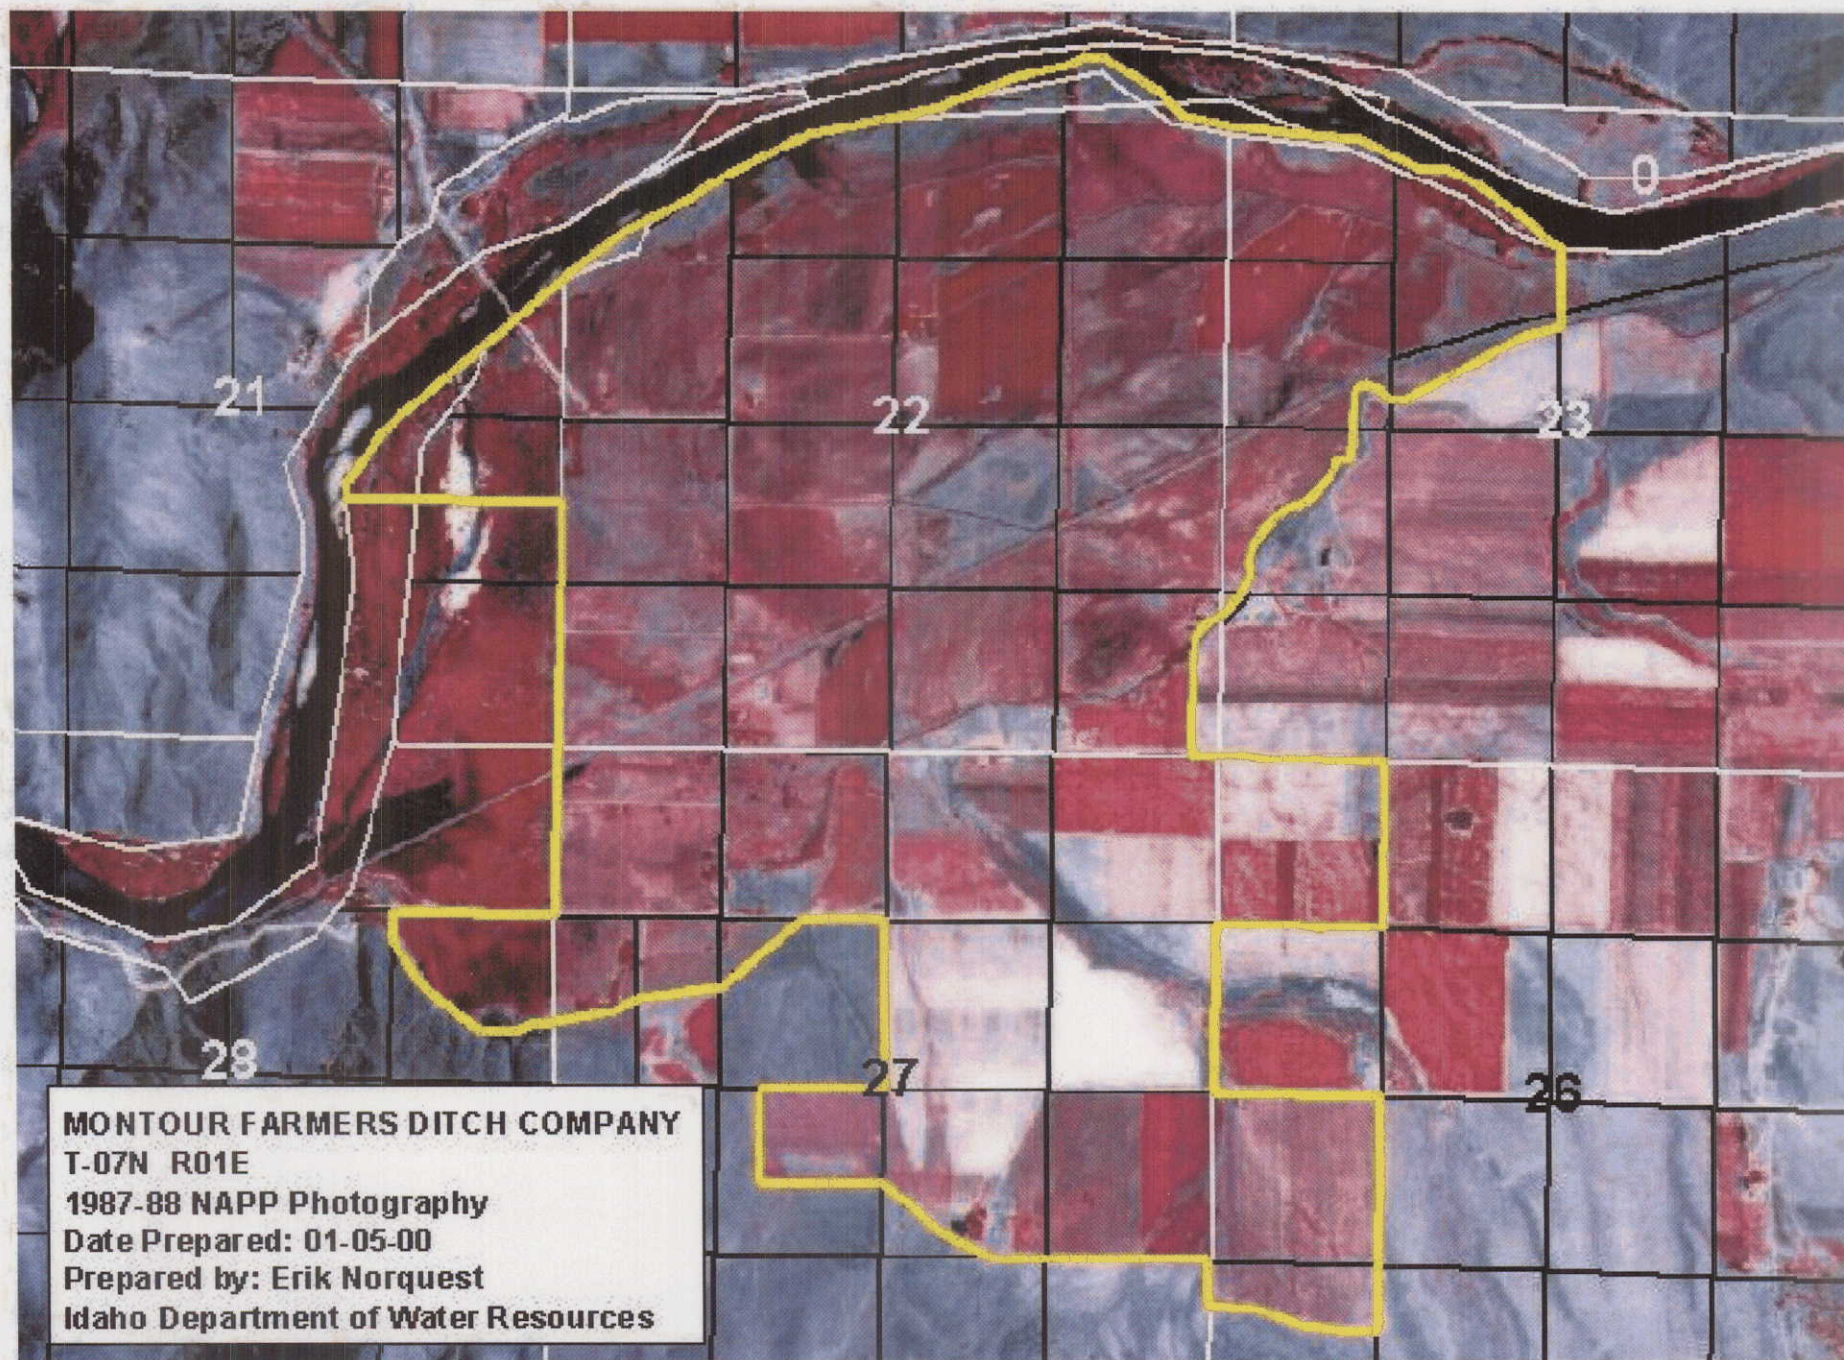

Please submit your service area boundary information within 30 days.

Thank you for your assistance. If you have any questions or concerns, please contact me at 1/800-451-4129.

THE STATE OF IDAHO SENDS GREETINGS TO: Montour Farmers Ditch Company

You are hereby notified that an Order has been entered in the District Court of the Third Judicial District in and for the County of Gem, dated November 12, 1969, directing the State Reclamation Engineer of the State of Idaho to commence an investigation and determination of the various rights to the use of surface and ground waters of the Payette River Drainage Basin, from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties,

And you are hereby notified that unless you appear and file a claim, with the State Reclamation Engineer, Statehouse - Annex 2, 614 W. State Street, Boise, Idaho, within sixty (60) days of the service of this Summons to the ownership of a water right for the use of any surface or ground waters of the Payette River Drainage Basin from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties, that you will be deemed to have forfeited any water right heretofore acquired for the use of the above waters.

Montour Farmers Ditch Company:

On October 27, 1969, an action was commenced in the District Court of the Third Judicial District, in and for the County of Gem, to determine rights to the use of the surface and/or ground waters within the Payette River drainage basin.

As a result of this action, the District Court has authorized the State Reclamation Engineer to conduct a study of the Payette River drainage basin and to submit to the court a proposed determination of water rights.

Since it appears that you may have some interest in the waters of the Payette River drainage basin, you are being named a defendant in the action. The enclosed Summons, Motion for Order of Joinder, and Order of Joinder require that you file with the State Reclamation Engineer your claim of water right to the use of waters within the Payette River drainage basin within 60 days from the date this is served upon you. Since all defendants are not joined at one time, due to the large number of people involved, Exhibit A includes only those joined with your group. A complete list of defendants in this action is not included among the enclosures; however, a complete list is available upon request from this department.

In order to hold a water right under Idaho Law, you or your predecessor must have physically diverted and beneficially used water prior to this date. If you have not used the water and do not claim a right, it will not be necessary for you to file a claim with the Department of Reclamation. However, if you are using water and fail to assert a claim within the time stated, you may be forever barred and estopped from claiming a right to the waters within the Payette River drainage basin.

In order to assist you in filing any claim you may have, Department personnel will be available at Idaho County Courthouse, Emmett on March 19, 1970, at 9:00 a.m. o'clock. The Department will have a preliminary claim prepared when you appear, to minimize the time which it may take to prepare your claim. There will also be a notary available to notarize your claim. It is strongly recommended that you appear at the above time, so that the most efficient use will be made of the personnel, maps,

and records which will be available to you. You should bring any information that you may have which will verify your claim and assist you in completing your claim, such as receipts for installation of the diversion facilities, power records indicating when power was installed to pumps and motors, tax notices, etc. In the event that additional claim forms are needed, they will be available at the time of the public meeting or upon request from the Department. Department personnel will also be happy to assist you during regular work hours at Statehouse - Annex #2, 614 West State Street, Boise, Idaho, or by phoning 384-2215.

Very truly yours,

F. KEITH HIGGINSON
State Reclamation Engineer

We, the undersigned, claim a water right to take a ditch out
of the Payette River, claiming 10,000 inches of water for irrigating
or other purposes. Said ditch taken out Payette River about one
mile below the mouth of Rock Creek and about one-half a mile above a
spring of water coming out of the Bank.

Signed: Mitchell Marsh & Co.

Ed Marsh drove five yokes of oxen for McKusick of Mahe City and hauled the hay to the Basin, camping by the roadside each night. Indicative of the driver's steadiness and orderly habits, Mrs. Martin, watching, said that Ed never failed to come in sight at a turn in the road within fifteen minutes of the same time, when he returned from each successive seven-day round-trip. Indeed, these short trips to the Basin and return, must have seemed almost like a holiday to Edson Marsh, who had driven three yokes of oxen from Michigan to Oregon in 1852, celebrating his eighteenth birthday in June of that year on the Platte River. Few Idaho pioneers were destined to enjoy as long a life and as rich a heritage of western experiences as Edson Marsh. Born in Onondago County, New York on June 9, 1834, the younger son of Josiah W. and Huldah Fuller Marsh, Edson, when but a baby, was brought by oxteam to Branch County, Michigan, when that country was still wilderness territory. After his father's death and his mother remarriage, the boy Ed, realizing that he must make his own way in the world, in April, 1852 joined a group of relatives and friends in what was to him, The Great Adventure. Across the plains to Oregon, a home in the West, gold, fame, who could tell? His cousin and chum, Obrey Lyons, couldn't go, but walked beside him and the oxen all the first day out, begging him not to go on, but to no avail. Fifty long years passed before they met again.

His eldest sister, Sarah, and her husband, William Leverage, had given him the opportunity of driving one of their oxtams to Oregon, which he considered a great privilege. With them, also, went his fifteen-year old sister, Esther.* They were no highways across northern Indiana and Illinois - just rain, mud, and rough jolting roads. A long string of heavy wagons, oxtams and loose cattle went through Chicago's village streets - "More of those crazy emigrants going west." Out from Chicago the railroad camps were pushing the work trains west, but the migrants could not wait. They must hurry on across Iowa's rolling plains to the Missouri River, and the last supply point until they would reach Portland. They re-provisioned at Omaha, June 1, 1852. Up the north side of the Platte River, they went to celebrate Edson's 18th birthday; and on until they came to Ft. Laramie, 200 miles west.

Through the Black Hills and up the Sweetwater to South Pass and the summit of the Rockies they continued, until at Pacific Springs the water flowed west, and their hearts were cheered. On to Green River, Bear River and Soda Springs, until they came to Fort Hall, watching like a sentinel beside the Oregon Trail. They used their calked wagon boxes as an improvised ferry at Salmon Falls to cross the Snake, then slowly jolted across the sagebrush plains to the Boise River with its grateful shade of blowing cottonwoods; also, its Indians and more Indians. The party dared not tarry; September's chill was in the air and Portland was still five hundred miles away. Across the Snake again at old Fort Boise and over the mountains to Columbia's leaden stream and drifting sand they went, to learn that snow-blocked roads were ahead. They left their stock* and floated down the Columbia by flat-boat to Portland's dripping, chilly welcome - the promised land at last.

The year 1856 found Edson Marsh learning Chinook and teaching Indians to farm on the Grand Ronde Reservation at South Yamhill, Oregon, while Captain Phil Sheridan and his Company of soldiers manned the Fort.

The determined young man, Edson, in 1862 packed his blankets on his back for five or six hundred miles as he went to the Frazier River gold rush, 1000 miles north of the International Boundary. In 1864 he was back in Portland - Walla Walla in 1865, and on to Boise Basin. He went to work on the Mitchell-Martin ranch on the Payette in 1867 and in 1871, he borrowed \$2,500 from Pettingill and Barber of Squaw Creek at 2% per month, bought an interest in the river ranch and settled down, at last. For ten years the place was known as the Mitchell-Marsh ranch. During that time they took up more land and built a fine private irrigation ditch taking water from the river some three miles above the ranch house. Their surveying instruments were their eyes and a carpenter's level, but they did a good job. The ditch they built now serves the little town of Montour and adjoining land. They were kept busy with much fencing, improvements of the house and other buildings, and the planting of many trees. When the mail route from Falk's Store to Placerville was established in 1864, the stages

claims a right to the diversion

and beneficial use of the surface or groundwater, of or tributary to the Payette River;

The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use, or date that permit was issued) June 23, 1884
in the name of Mitchell Marshfield

- (2) Describe source of water: (Name of stream, lake, spring, etc., or subterranean) Payette River

- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Use for Irrigation + Stock Period of Use From March 1 To Dec 1
(Domestic, irrigation, stock, etc.) (Mo., Day) (Mo., Day) (Both Dates Inclusive)

Use 10.82 CFS 19.82 16.46 Period of Use From To

Use 25.02 CFS 3.2 Period of Use From To
(Domestic, irrigation, stock, etc.) (Mo., Day) (Mo., Day) (Both Dates Inclusive)

- (4) Quantity of water claimed: Cubic Feet Per Second, or Acre Feet Per Annum, and/or Gals. Per Minute.

- (5) A) Point of Diversion: Give location of point where water is diverted from its source. Sec. 23, Twp. 7 N, Rge. 1 E, B.M.; additional points:

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.)
Give sizes and capacities; be as specific as possible. From diversion dam at SW 1/4 NE 1/4 Sec. 23, Twp. 7 N, Rge. 1 E of B.M. we take 16.40 inches of water into a ditch about 3 miles long.

- (6) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

Loss Calculations

from Gen County Sails Survey, Lewis 1958, 33
published 1965

approx. i used in Worsted formula for seepage
 $= 5.0$

from talking to Alva McConnell, Montour
width of ditch $= W = 12'$

$$\begin{aligned}\text{Seepage loss/mile} &= .0667 W i = (.0667)(12)(5) \\ &= 4.002 \text{ cfs/mile}\end{aligned}$$

For 2 mile ditch

$$\text{Total Loss} = (4.002)(2) = 8 \text{ cfs}$$

$$\begin{aligned}\text{TOTAL CFS} &= \text{Loss} + \text{IRRIGATIONAL RATE} \\ &= 8 + 17.66 = 25.7 \text{ CFS}\end{aligned}$$

$$823 \text{ IRR. AC. @ } .02 = 16.46 \text{ CFS}$$

FROM GRAPH IN WATER USERS' HDPK. PERU SOIL - SANDY LOAM GIVES 6.8% LOSS
PER MILE DITCH. $\therefore$ 3 MI. DITCH LOSS = 20.4%. $\therefore$ 16.46 CFS + 20.4%
 $= 19.82 \text{ CFS.}$
