43-10997, 43-11005, 43-11052, 43-11054, 43-11056, 43-11058, 43-11069, 43-11071, 43-11158,

1. My present position is that of Water Rights Specialist for the United States, Department of Interior, Bureau of Land Management (hereinafter "BLM"), Idaho State office. My current responsibilities include coordinating the BLM's efforts for the Snake River Basin Adjudication (hereinafter "SRBA") in Idaho. In that capacity, I provide guidance and technical support to the State Director, Field Office Managers, and technical specialists in BLM field offices, particularly those specialists working in water rights and related issues. I develop agency policy on water issues and in other programs affected by water rights, such as the range management and realty programs. I also review, interpret and analyze water rights claims for preparing opinions, recommendations, objections and other SRBA documents to the Department of Justice.

2. I have been employed by the BLM since 1982 in the following positions:

- a. Eleven and a half years in various positions within the Rangeland Firefighting Program at the BLM, Shoshone Field Office. I spent 12 months working on that office's water rights team to develop and create 5,500 BLM claims;
- b. Since August of 1993 as a Water Rights Specialist in the BLM, State Office;

3. My experience with water rights is as follows:

- a. My eleven and a half years in BLM's fire program required that I have the ability to understand and interpret maps, legal land descriptions, and Range Improvement Project Files. I was routinely required to:
 - travel to remote fire locations with just a map;
 - map the position and extent of fires for which I was responsible;
 - locate, construct and maintain range improvements (including but not limited to: spring developments, pipelines and fences), and to supplement

the range improvement project files.

- I taught several courses to new employees in interpreting maps and BLM Master Title Plats (hereinafter "MTP"), as well as, in the use of a compass.
- In my work with the BLM, I have been responsible for tasks requiring an ability to interpret: maps, legal land descriptions, and water claims, including the preparation, mapping and review of 5,500 SRBA water right claims for BLM.
- In my work with the BLM, I have reviewed hundreds of Range Improvement Project Files for the purpose of locating the project, to determine when it was constructed, whether it was completed, whether it is still functional, to identify candidates for filing SRBA water claims, and to capture certain types of projects into the Geographic Information Systems (i.e. computer mapping system).

b. As a Water Rights Specialist in the BLM State Office, it is my responsibility to provide guidance and direction to Idaho BLM offices in all matters relating to water rights, and make recommendations to the Department of Justice. My experience with water rights in my present position is as follows:

- I develop policy for BLM across several programs to deal with water issues, such as the range management and realty programs.
- I have reviewed tens of thousands of legal land descriptions represented in Points of Diversion (hereinafter "POD") and Places of Use (hereinafter "POU") that were published in SRBA Director's Reports to determine land

ownership by comparing those land descriptions to BLM's Master Title Plats and Historical Indexes. I have reviewed hundreds of deeds to determine who owned what land descriptions.

- I've prepared over a thousand revised water right descriptions for use with the SRBA Standard Form 5 (hereinafter "SF-5") to resolve objections involving the BLM.
- I provide advice, guidance and direction to BLM field office personnel as to investigating and preparing claims, how to interpret water rights and how they relate to other water rights.
- For hundreds of subcases, I have made determinations whether multiple claims exist for the same source and what the nature of their relationship is to each other.
- I have reviewed hundreds of Range Improvement Project Files for the purpose of locating the project, to determine when it was constructed, whether it was completed, if it is still functional, who contributed to the construction and in what amounts, and to determine whether water is present and in what amounts.
- I developed the investigative criteria to be used for BLM field offices to investigate water sources for claims preparation and for objection purposes. I have reviewed thousands of BLM claim files and field investigations conducted by BLM. I have also performed investigations of water rights in the field.

– I routinely provide technical assistance, reports, recommendations and opinions to the Department of Justice concerning all the above matters.

4. I have gained extensive knowledge of, and experience with, a wide range of government files, documents, records management, records retention, and archives since starting work for BLM in 1982. I have reviewed and interpreted hundreds of Master Title Plats and Historical Indexes. I also have extensive knowledge of, and experience with, the official business records of BLM associated with its water right claim filings in the SRBA, including but not limited to: BLM water right claim files, BLM water right field investigations, Master Title Plats, Historical Indexes, and Control Document Indexes (hereinafter "CDI").

5. The Master Title Plat (hereinafter "MTP") is an official business record of BLM. The MTP is the United States' official Record of Title. It is a graphic display of township survey data, and is drafted from information abstracted, compiled, and composed from the latest approved U.S. Government Survey Plats, survey field notes, and protraction diagrams. It describes the locations of United States property, aliquot parcels, and government surveyed "lots."

The Historical Index (hereinafter "HI") is an official business record of the United States that maintains a time line of events occurring on United States' property.

6. At the request of counsel for the United States, I have reviewed the official business records of the BLM and Idaho Department of Water Resources (hereinafter "IDWR") for the captioned subcases, and verified that the above captioned subcases were located on unreserved federal public domain lands as of April 17, 1926, and these lands currently remain under Department of Interior administration.

//

7. At the request of counsel for the United States, I was asked to determine whether there were any attempts to homestead or otherwise acquire fee title to the lands described by the Points of Diversion identified in the captioned subcases. The official business records of BLM that I reviewed were the BLM SRBA claim files, MTPs and HIs. Based upon my review, I was able to determine that there were no attempts to homestead or otherwise acquire fee title to the lands described by Points of Diversion identified in the captioned subcases, except where noted below. The homestead entries identified below were initiated under the authority of different homestead acts. The provisions of such homestead acts were effectively repealed in 1934 by the Taylor Grazing Act, and repealed in actuality in 1976 by the Federal Land Policy and Management Act (FLPMA). **Each homestead entry listed below failed and was subsequently canceled or relinquished.**

a. **Subcase 43-11160:** A Stockraising Homestead Entry (hereinafter "SRHE") was filed, pursuant to the Act of 12/29/1916, by William Hart Udy on 12/13/1920 for 640 acres of public land. The United States assigned serial number H-022566 to this application. The SRHE was subsequently relinquished on 5/12/1921. **This homestead entry was not active on 04-17-1926.**

b. **Subcase 43-11268:** A Homestead Entry (hereinafter "HE") was filed, pursuant to the Act of 6/17/1910, by Robert G. Hall on 7/22/1921 for 320 acres of public land. The United States assigned a serial number BL-039111 to this application. The HE was subsequently cancelled on 9/22/1926. **This homestead entry was active on 04-17-1926.**

8. The Idaho State Office of BLM does not store historic land entry applications on site. The records are only retained for a certain period of time and then are sent to the record centers. At the request of counsel for the United States, I submitted a request on August 22, 2003 to have a copy of the serial case files, identified below, sent to me from the National Archives for the Pacific NW Region located in Seattle, Washington.

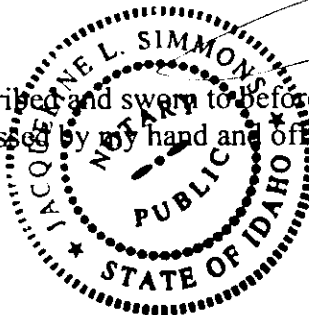

a. I do hereby certify that Attachment 1 to this affidavit is a true and correct copy of the entire Stock-Raising Homestead Entry File H-022566 that was initiated by William Hart Udy on December 13, 1920.

b. I do hereby certify that Attachment 2 to this affidavit is a true and correct copy of the entire Homestead Entry File BL-039111 that was initiated by Robert G. Hall on July 22, 1921.

Register and Receiver,

Gentlemen:

You have transmitted the record in the above-entitled contest under date noted in the caption hereof, together with evidence of service of copies of all affidavits and notices required.

The contestant charged, in substance, that contestee had not complied with the law under which the entry was made. The charges were sufficient to put contestee under the necessity of defending against them.

The contestee has failed to serve and file answer to the charges, which are therefore taken as confessed by default. You recommended the entry be canceled.

Accordingly, the entry is canceled and the case is hereby closed. Make proper notations on your records and advise contestant of the preferred right of entry accorded by statute.

Contest No. 026861

Hailey, Idaho.

Nov. 15, 1922

I, the undersigned, Walter H. Dean, residing at Malta, Cassia Co. Idaho, being duly sworn, upon my oath state: That I am well acquainted with the tract of land embraced in Homestead entry, Serial No. 026861, made on July 22, 1921, by Robert A. Hall, whose present place of residence is Pocatello, Bannock Co. Idaho, State of Idaho, for the S 1/2 N 1/2 E 1/4 Section 19, S 1/2 N W 1/4 and N E 1/4 Section 20, Township 14 South, Range 26 East, Boise Meridian, and know the present condition of the same; that said land is arid in character; that in so far as I know the said entry is the only proceeding now pending for the acquisition of title to said land ~~xxxxx~~

(and that said absence from the land was not due to the entryman's employment in the military or naval organizations of the United States or the National Guard of any of the several States:)* that I claim an interest in or desire and intend, if permitted to do so, to acquire title to the said land under the provisions of the Enlarged Homestead Law. law, and state the following facts which show my qualifications to do so: I am not under the age of twenty-one years, I am a citizen of the United States, or have declared my intention to become such, I have not heretofore made any entry which would disqualify me from making entry under the above-mentioned law, I have not since August 30, 1890, acquired title to, nor am I now claiming under any of the agricultural land laws, an amount of land which, together with the land described above, or the part thereof which I desire to enter, will exceed in the aggregate 320 acres, and I am not the proprietor of more than 160 acres of land in any State or Territory; and I further swear that this contest is not being collusively or speculatively initiated, but is being instituted and will be diligently prosecuted in good faith for the sole privilege of acquiring title to said land or some part thereof in my own and sole interest.

I, therefore, ask that I be permitted to prove the allegations made in this affidavit at such time and place as may be named therefor, and that after proving said allegations, and my payment of all the costs incurred in this proceeding, I be permitted to make entry of said lands or a part thereof under the laws above specified.
