Last Name Songer Ident No. 84-12142

5. The original spring on this property was developed on or near June 1, 1964, and enlarged in 1968. At the point of origin, water is gravity fed through a 1½" plastic pipe a distance of 259 feet to 35 gallon holding tank located at a pump house. Water is then pumped 89 feet to the home through 1½" pipe for domestic use. This same spring fills, through overflow, a 2 acre pond. On the south end of the pond, water is pumped a distance of 60 feet through 1½" pipe for irrigation of a garden approximating one acre. This same spring is also, through gravity flow, piped through a 1½" pipe a distance of 300 feet to a 5000 gallon storage reservoir which serves Woodland Meadows Subdivision as an alternate source of water for domestic use.
