REASONS SUPPORTING OBJECTION(S):

This objection is parallel to the Swan Falls objections in Basin 37 (Consolidated Subcase No. 37-02499). Because the Swan Falls objections in Basin 37 have not been designated a basin-wide issue, this objection seeks to preserve the Swan Fall protections for water rights in Basin 29.

This water right must be decreed with the appropriate remarks and/or general provisions necessary to incorporate the protections accorded by the October 25, 1984 Swan Falls Agreement, the October 25, 1984 Swan Falls Contract, the 1982 State Water Plan as amended in 1985 (hereinafter jointly referred to as the Swan Falls Agreement), and other related state law. Such remarks and/or general provisions are necessary to define the right, and/or clarify the elements of the right, and/or administer the right. While the protections accorded by the Swan Falls Agreement and other related state law have application to the source, quantity, and priority date elements of this water right, this objection does not seek to change the specific source, quantity, and priority date as recommended by the director beyond the inclusion of appropriate remarks and/or general provisions.
