Findings of Fact

The Director of the Idaho Department of Water Resources filed his *Director's Report for Domestic and Stockwater, Reporting Area 22 (IDWR Basin 82)* on March 19, 1999. The Director recommended the above 50 claims to the United States of America, Department of Interior, Bureau of Land Management, Idaho State Office, 1387 S. Vinnell Way, Boise, Idaho, 83709-1657, for .02 cfs from springs for year-'round stockwater use in Idaho County with a priority date of January 1, 1861, based on beneficial use. For each claim, the Director also noted: "This water right is also claimed based on federal law with an April 17, 1926, date of priority pursuant to an Executive Order signed the same date and known as Public Water Reserve 107."

On June 2, 1999, the State of Idaho filed *Objections* to priority date ("If this water right exists, the State Law based portion of this right should have a priority date no earlier than June 28, 1934.") and alleging that the water right should not exist.

On August 29, 2002, the United States and certain private parties filed a *Stipulation* in multiple subcases, including the above 50 subcases, and an ***Order Granting Withdrawal of Objections and Responses*** was entered on September 5, 2002. On April 21, 2003, an ***Order Dismissing State of Idaho Objections*** was entered based on the parties' *Stipulation to Resolve Objections*. On June 10, 2003, the United States filed a *Notice Regarding Priority Date* stating the claimed priority date should be April 17, 1926, and requesting an evidentiary hearing.

An I.C. §42-1411A hearing was held on September 25, 2003, for the United States to demonstrate a *prima facie* case of the existence of the water rights established under federal law (even though objections to the claims were filed). On the date of the hearing, the United States submitted an affidavit by Frederic W. Price (a BLM water rights specialist) who said the land surrounding the claims was unreserved federal public land as of April 17, 1926, the water sources were confirmed by field investigation and there is sufficient surface water at the sites for consumption by livestock.

Conclusions of Law

The United States of America is entitled to partial decrees adjudicating federal reserved water rights under the above 50 claims as described in the attached *Special Master Recommendations for Partial Decrees for Water Rights*.
