McFarland Livestock Company
Water Right Transfer – WR #74-11,12,16,29,30, & 15049

Supporting Narrative

The transfer proposes to adjust the acres under this right to reflect the actual irrigated land with this water. McFarland Livestock operates a diversion in Section #2 of Township 15 North, Range 27 East from Hawley Creek. The diversion discharges into a ditch delivery system to the Upper Hawley Creek property. Irrigation on this property includes flood irrigation, and pivot / sprinkler irrigation from a pressure irrigation system. The irrigated area under these rights is 551 acres as allowed under the rights and as shown on the attached photo map.

The large pivot consists of a 12 tower pivot and currently irrigates the area shown on the photo exhibit. The photo is a 1987 photo which shows a larger area irrigated than that presently with the reconfigured pivot. McFarland Livestock intends to install a ¼ mile long “wiper” pivot on the northern portion of the property as shown. Areas not covered under the pivots and still under the rights will be flood irrigated.

Based on the water rights, McFarland Livestock is allowed to irrigate 551 acres utilizing the Hawley Creek water. The proposed transfer creates a permissible place of use (PPU) of the rights allowing the rights to be applied in the area shown on the photo exhibit. The water rights are individually limited as shown on the water right list to prevent any expansion of acres above that allowed under the water rights.

Under this proposed transfer, Hawley Creek water will not be applied to land covered under water from the Bull Creek delivery system.
