Case No. 39576) (USDI/BLM)

Findings of Fact

The Director of the Idaho Department of Water Resources filed his *Director's Report for Domestic and Stockwater, Reporting Area 22 (IDWR Basin 86)* on March 19, 1999. The Director recommended 86-10860 to the United States of America, Department of Interior, Bureau of Land Management, Idaho State Office, 1387 S. Vinnell Way, Boise, Idaho, 83709-1657, for .02 cfs from a spring for year-'round stockwater use in Nez Perce County with a priority date of November 8, 1895, based on beneficial use.

On June 2, 1999, the State of Idaho filed an *Objection* in multiple subcases, including subcase 86-10860, objecting to priority date ("If this water right exists, the State Law based portion of this right should have a priority date no earlier than June 28, 1934.") and alleging that the water right should not exist. On September 17, 1999, the United States filed an *Objection* to add the following language: "This water right is also claimed based on federal law with an April 17, 1926, date of priority pursuant to an Executive Order signed the same date and known as Public Water Reserve 107."

On August 29, 2002, the United States and certain private parties filed a *Stipulation* in multiple subcases, including 86-10860, and an *Order Granting Withdrawal of Objections and Responses* was entered on September 5, 2002. On June 11, 2003, an *Order Dismissing State of Idaho Objections* was entered based on the parties' *Stipulation to Resolve Objections*.

The United States filed a *Notice of Priority Date* on June 10, 2003, stating the priority date for the federal reserve basis of the water right claim should be April 17, 1926. However, on

August 14, 2003, the United States, with IDWR's concurrence, filed an *Amended Claim Standard Form 5* agreeing to a June 28, 1934, state law based beneficial use priority date.

Conclusions of Law

The United States of America is entitled to a partial decree adjudicating a water right under state law-based claim 86-10860 as described in the *Amended Claim SF-5* and the attached *Special Master Recommendation for Partial Decree for Water Right 86-10860*.
