The attached photo, 1949 aerial, used by the Bannock County Assessors office, marked up at that time to show classification (use of) farm property for property tax purposes. The map shows property irrigated "I" or dry "D" farm land and its use. I have marked the $\frac{1}{4}$ / $\frac{1}{4}$ section as designated place of use of the 2.40 CFS (120 in) April 1, 1881 and the .80 CFS (40 in) June 1, 1881 on the map in yellow. All other marking on the map were placed by the assessor office based on the on-site review of land performed by employees at that time.

The map shows that 38.50 acres ($13.25 + 20.54 + 4.75$) were dry farmed and the remainder 121.50 were designated irrigated of the 160 acres referenced in the original water right as place of use.

The proposed "place of use" recommends 112 acres of the $\frac{1}{4}$ / $\frac{1}{4}$ section and ^{that} does not include ^{all} lands shown irrigated in the 1949 aerial map 121.50 acres as are presently irrigated today, less exclusions for creek etc per current G13 map = 112 acres. M/L
