Water Rights Supervisor,
Carter Fritschle:

This is a response to the letter from you dated 11-12-2003 concerning the Evidence of Priority Date of claim no.37-4246, for my property located at T 6S R 13E Sec 27 Tax 27 in lots 1 & 2 & NE4 SW4 Less Tax 20 & 28 1 SW.

According to the records at the Gooding County recorders office this claim is part an original water claim for irrigating the land I own, dating back to 1880-1882.

This water right (claim) is being used to irrigate my garden, fruit trees, a small vineyard and some lawn. This water has been used by me personally since 1976, the year that I built my house on the Cline property at 669 River Road Bliss ID.

My Father had been using the same resource to irrigate the same land every year since 1956 which is the year He purchased the property from Fred Leach. The diversion, culvert, and ditch were in place when my parents bought the property.

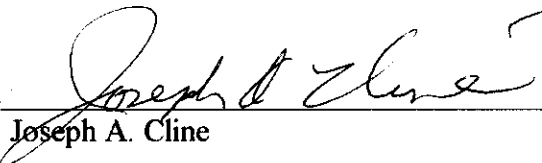

Also De Verl Jensen, whose property(one acre) is adjacent to mine uses this same claim to the same resource, which is divided between us for irrigating his fruit trees, garden, and lawn.

De Verls' land had been irrigated by my father, using the aforementioned water as it was part of the Cline property before it was deeded to De Verl in 1971.

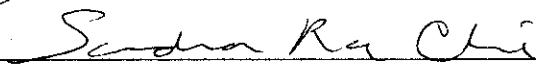

The original ditch at the diversion is still in place, (from the main canal), however the water is now acquired by the use of a one hp. Pump for mine, and a 2" gravity flow siphon pipe for De Verl.

According to my research in the Gooding County Recorders office,the Priority for this water right was first established in 1880, and has been in use for agriculture on the property ever since.

Signed

Joseph A. Cline
