Re: Recommendation for Water Right No. 29-7504

Dear Eric,

IDWR filed the Basin 29 Director's Report for I & O with the SRBA Court on July 11, 2003. Recently, IDWR discovered a clerical error in the recommendation for 29-7504 that left off an essential element of the water right description, particularly the volume amount for this ground water right and the domestic use. The objection deadline for Basin 29 was November 14, 2003. To date, no objection has been filed, however due to the clerical nature of the error, IDWR suggests that the Court consider setting aside the recommendation issued for 29-4148 on its own motion pursuant to IRCP 60 (a). A corrected recommendation is enclosed herein in ~~strikeout~~/underline format.

Please call me if you would like to discuss this matter further. I can be reached at (208) 327-7900.

Sincerely,

A handwritten signature in cursive script, appearing to read "Susan Hamlin Nygard".
