State of Idaho)

I Fredric W. Price, being of lawful age, and having first been duly sworn, state the
following:

//

1. My present position is that of Water Rights Specialist for the United States, Department of Interior, Bureau of Land Management (hereinafter "BLM"), Idaho State office. My current responsibilities include coordinating the BLM's efforts for the Snake River Basin Adjudication (hereinafter "SRBA") in Idaho. In that capacity, I provide guidance and technical support to the State Director, Field Office Managers, and technical specialists in BLM field offices, particularly those specialists working in water rights and related issues. I develop agency policy on water issues and in other programs affected by water rights, such as the range management and realty programs. I also review, interpret and analyze water rights claims for preparing opinions, recommendations, objections and other SRBA documents to the Department of Justice.

2. I have been employed by the BLM since 1982 in the following positions:

a. Eleven and a half years in various positions within the Rangeland Firefighting Program at the BLM, Shoshone Field Office. I spent 12 months working on that office's water rights team to develop and create 5,500 BLM claims.

b. Since August of 1993, I have been a Water Rights Specialist in the BLM, State Office.

3. My experience with water rights is as follows:

a. My eleven and a half years in BLM's fire program required that I have the ability to understand and interpret maps, legal land descriptions, and Range Improvement Project Files. I was routinely required to:

- travel to remote fire locations with just a map;
- map the position and extent of fires for which I was responsible;
- locate, construct and maintain range improvements (including but not

limited to: spring developments, pipelines and fences), and to supplement the range improvement project files.

- I taught several courses to new employees in interpreting maps and BLM Master Title Plats (hereinafter "MTP"), as well as, in the use of a compass.
- In my work with the BLM, I have been responsible for tasks requiring an ability to interpret: maps, legal land descriptions, and water claims, including the preparation, mapping and review of 5,500 SRBA water right claims for BLM.
- In my work with the BLM, I have reviewed hundreds of Range Improvement Project Files for the purpose of locating the project, to determine when it was constructed, whether it was completed, whether it is still functional, to identify candidates for filing SRBA water claims, and to capture certain types of projects into the Geographic Information Systems (i.e. computer mapping system).

b. As a Water Rights Specialist in the BLM State Office, it is my responsibility to provide guidance and direction to Idaho BLM offices in all matters relating to water rights, and make recommendations to the Department of Justice. My experience with water rights in my present position is as follows:

- I develop policy for BLM across several programs to deal with water issues, such as the range management and realty programs.
- I have reviewed tens of thousands of legal land descriptions represented in Points of Diversion (hereinafter "POD") and Places of Use (hereinafter "POU") that were published in SRBA Director's Reports to determine land

ownership by comparing those land descriptions to BLM's Master Title Plats and Historical Indexes. I have reviewed hundreds of deeds to determine who owned what land descriptions.

- I've prepared over a thousand revised water right descriptions for use with the SRBA Standard Form 5 (hereinafter "SF-5") to resolve objections involving the BLM.
 - I provide advice, guidance and direction to BLM field office personnel as to investigating and preparing claims, how to interpret water rights and how they relate to other water rights.
 - For hundreds of subcases, I have made determinations whether multiple claims exist for the same source and what the nature of their relationship is to each other.
 - I have reviewed hundreds of Range Improvement Project Files for the purpose of locating the project, to determine when it was constructed, whether it was completed, if it is still functional, who contributed to the construction and in what amounts, and to determine whether water is present and in what amounts.
 - I developed the investigative criteria to be used for BLM field offices to investigate water sources for claims preparation and for objection purposes.
- I have reviewed thousands of BLM claim files and field investigations conducted by BLM. I have also performed investigations of water rights in the field.

//

- I routinely provide technical assistance, reports, recommendations and opinions to the Department of Justice concerning all the above matters.

4. I have gained extensive knowledge of, and experience with, a wide range of government files, documents, records management, records retention, and archives since starting work for BLM in 1982. I have reviewed and interpreted hundreds of Master Title Plats and Historical Indexes. I also have extensive knowledge of, and experience with, the official business records of BLM associated with its water right claim filings in the SRBA, including but not limited to: BLM water right claim files, BLM water right field investigations, BLM Range Improvement Project Files, Master Title Plats, Historical Indexes, and Control Document Indexes (hereinafter "CDI").

5. The Master Title Plat (hereinafter "MTP") is an official business record of BLM. The MTP is the United States' official Record of Title. It is a graphic display of township survey data, and is drafted from information abstracted, compiled, and composed from the latest approved U.S. Government Survey Plats, survey field notes, and protraction diagrams. It describes the locations of United States property, aliquot parcels, and government surveyed "lots."

The Historical Index (hereinafter "HI") is an official business record of the United States that maintains a time line of events occurring on United States' property.

6. At the request of counsel for the United States, I have reviewed the official business records of the BLM and Idaho Department of Water Resources (hereinafter "IDWR") for the captioned subcases, and verified that the above captioned subcases were located on unreserved federal public domain lands as of April 17, 1926, and these lands currently remain under Department of Interior administration.

//

7. At the request of counsel for the United States, I was asked to determine whether there were any attempts to homestead or otherwise acquire fee title to the lands described by the Points of Diversion identified in the above captioned subcases. The official business records of BLM that I reviewed were the BLM SRBA claim files, MTPs and HIs. Based upon my review, I was able to determine that there were attempts to homestead the lands described by Points of Diversion identified in the captioned subcases. The homestead entries identified below were initiated under the authority of different homestead acts. The provisions of such homestead acts were effectively repealed in 1934 by the Taylor Grazing Act, and repealed in actuality in 1976 by the Federal Land Policy and Management Act (FLPMA). **Each homestead entry listed below failed and was subsequently canceled or relinquished.**

a. **Subcase 63-29070:** A Pre-Emption Homestead Entry was filed, pursuant to Section 2289, United States Revised Statutes, by Fal B. Jenkins on 06/15/1920 for 80 acres of federal public land. The United States assigned serial number BL-041716 to this application. The entry was subsequently cancelled on 01/10/1928 for failure to submit proof. This homestead entry was active on 04-17-1926.

b. **Subcase 63-29142:** A Stock-Raising Homestead Entry (hereinafter "SRHE") was filed, pursuant to the Act of 12-29-1916, by George A. Pringle on 12-11-1922. The United States assigned a serial number BL-041661 to this application. The SRHE was subsequently cancelled on 03/26/1928. This homestead entry was active on 04-17-1926.

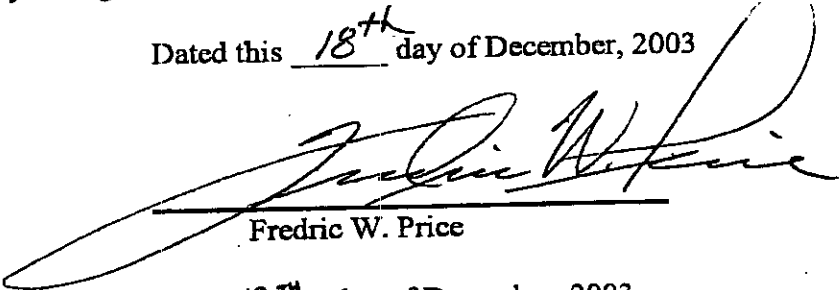

8. The Idaho State Office of BLM does not store historic land entry applications on site. The records are only retained for a certain period of time and then are sent to the record centers. At the request of counsel for the United States, I submitted a request to have a copy of the

serial case files, identified herein, sent to me from the National Archives for the Pacific NW
Region located in Seattle, Washington.

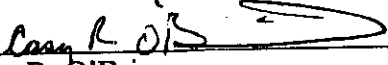

a. Subcase 63-29070: I do hereby certify that Attachment 1 to this affidavit is
a true and correct copy of portions of the Pre-Emption Homestead Entry File BL-041716
that was initiated by Fal B. Jenkins.

b. Subcase 63-29142: I do hereby certify that Attachment 2 to this affidavit is
a true and correct copy of portions of the Stock-Raising Homestead Entry File BL-041661
that was initiated by George A. Pringle.

Dated this 18th day of December, 2003

Fredric W. Price

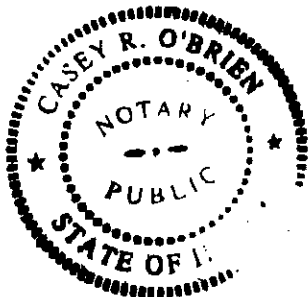

Subscribed and sworn to before me this 18th day of December, 2003.

On December 11, 1922 George A. Pringle made stock-raising homestead entry, Serial No. 041661, Blackfoot series, (formerly Serial No. 023596, Boise series), for the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 13, T. 3 N., R. 3 E.; S $\frac{1}{2}$ NE $\frac{1}{4}$; N $\frac{1}{2}$ SE $\frac{1}{4}$; SE $\frac{1}{4}$ NW $\frac{1}{4}$; NE $\frac{1}{4}$ SW $\frac{1}{4}$; Lots 2, 3, Sec. 19; NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 19, T. 3 N., R. 4 E. The entry appears to have been filed and allowed under section 5 of the act of December 29, 1916 as additional to patented homestead entries, Serial Nos. 014765-014940, Boise series.

On August 26, 1927 the entryman submitted final proof on the above entry. Final certificate was requested withheld

by the Division Inspector.

On August 20, 1927 the case was assigned to me for field investigation and report.

On October 14th, 20th, and 21st, 1927 I investigated the

case. Took the affidavits of George A. Pringle, Charles Henry

Coffey, Wallace Parish, and J. A. Percy, and made a personal examination of the land and the improvements thereon.

The land is about six miles from the town of Barber, Idaho and lies between the Boise River, three miles to the southeast, Moores Creek, two miles to the east, and Cottonwood Creek, three miles to the north. It is rough and mountainous and wholly unfit for cultivation. The altitude of the land is approximately 3500 feet.

The land supports a heavy growth of sage brush, some native grass, and a heavy growth of Cheat grass, sometimes called Mormon oats. There are some fir trees and other scrub timber but no merchantable timber.

I found no water holes or evidence of mineral.

Upon my personal examination of the land I found on the north line of the SW $\frac{1}{4}$ SE $\frac{1}{4}$, S $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 18, which is the north line of the claimant's original entry, the remains of what had been a fence. The posts had practically all rotted off and were lying about on the ground. The posts remaining standing were ready to topple over with the touch of the hand. The wire was scattered along the ground. The condition of this fence indicated that it could not possibly have been built within the past ten years, or have been repaired within that length of time. It is of no value to the land.

I examined the road leading from the house on the original entry up through the SE $\frac{1}{4}$ SW $\frac{1}{4}$ and the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 18. I

stepped the length of the road which is on the additional entry and found that it measured 1113 feet, or less than a quarter of a mile. This road was no more than 6 feet wide in many places and wholly unfit to haul a loaded wagon over. The road was much filled in and grown up with grass and sage brush. The new sage brush had grown up to the height of three and four feet, the same height as the surrounding brush. The condition of this road indicated that it must have been at least 10 or 15 years since it was built or repaired. It is not and has never been an improvement to the land in the additional entry.

It is certain that the fence and road above described were built as improvements to and in connection with the use and convenience of the claimant while maintaining his home on the original entry and that they were built long prior to the date he filed his additional homestead application. The statements contained in the four affidavits secured substantiate this contention and in fact, I believe, place the question beyond dispute.

I found no further improvements on the land and no further improvements are claimed by the entryman.

I was unable to secure any positive evidence that the entryman did not own and reside on his original entry at the time he filed on the additional entry.

CONCLUSION AND RECOMMENDATION.

I am satisfied from a consideration of the statements contained in the affidavits taken and from my examination of the land that the entryman in this case has placed no improvements on his additional stock-raising homestead entry for which credit may be allowed under the act of December 29, 1916 and I, therefore, respectfully recommend that the following charge be made against the entry, to-wit:

1. That claimant, since filing his application under the stock-raising homestead law, has not placed permanent improvements on the land which would tend to enhance the value thereof for stock-raising purposes of the value of at least \$1.25 per acre, as required by the law under which the entry was made.

In case a hearing is ordered in this case I recommend that the following persons be called as witnesses in behalf of the Government.

Wallace Parish,	Barber, Idaho.
J. A. Percy,	Barber, Idaho.
Charles Henry Coffey,	Barber, Idaho.
George A. Pringle,	Boise, Idaho.
W. H. Burnett,	Salt Lake City, Utah.

A copy of each of the affidavits which I took during my investigation is enclosed.

Very respectfully,

W. H. Burnett
Inspector.

George A. Pringle says he thinks a 3 wire fence along South side of his additional entry, fir and few quaken aspen and cherry posts, dont know how far apart, on average about 16 feet, posts, a few cut on the land but most of them cut up on the timber probably 2 or 2½ miles away from the land; had to build a road across this entry and to the timber road in order to get the posts out to the land; cut the posts myself with the assistance of my son and ahuled them and snaked them in; my son Arthur and I built the fence; also had a hired man who helped us. His name was Johnie Dewese, he went overseas with the army and was gassed and died. The road and fence mentioned above is all the improvements I claim on additional entry. They are worth \$920. It really cost me more than that. I lived on my original entry the required time and more and still owned same and resided thereon at time of making this additional entry.

Conflicting stock raising claims.
Applications enclosed for allowance.

Register and Receiver,
Boise, Idaho.

Gentlemen:

In the case of conflicting stock raising applications 083696 and 024014, filed respectively by George A. Pringle and George A. Percy, Pringle's application was held for rejection by office letter of July 1, 1922 as to the conflicting tracts, namely the SE $\frac{1}{4}$ NE $\frac{1}{4}$, E $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 18, T. 5 N., R. 4 E., P. M., subject to his right of appeal, since he had failed to make any showing as to the ownership of and residence on his original patented entry.

By your letter of July 19, 1922 you forwarded an affidavit filed by Pringle from which it appears that he was the owner of and residing on his original entry at the time of the filing of his additional application (April 3, 1919) and that he is still the owner thereof

Boise 023596-024014 "C" HCG.

and makes it his home.

All the lands were designated, effective April 15, 1920, and since Percy's right under section 8 of the act has already been established, it now appears that both parties have a preference right to the land under the said section 8.

In each case the original entry contains four subdivisions but the area covered by Percy's additional application is 480 acres, and that of Pringle's 428.16 acres.

It further appears that Pringle's application was filed prior in point of time to that of Percy.

The applications are enclosed for allowance as follows: To Percy, $W\frac{1}{2}$ $W\frac{1}{2}$ Sec. 17, $NE\frac{1}{4}$ $NE\frac{1}{4}$, $SE\frac{1}{4}$ $SE\frac{1}{4}$ Sec. 18, $NE\frac{1}{4}$ $NE\frac{1}{4}$ Sec. 19, $W\frac{1}{2}$ $NW\frac{1}{2}$ Sec. 20, T. 3 N., R. 4 E., and you will advise him that his application is rejected as to the $SE\frac{1}{4}$ $NE\frac{1}{4}$ and $NE\frac{1}{4}$ $SE\frac{1}{4}$ said Sec. 18, subject to his right of appeal. To Pringle, $NE\frac{1}{4}$ $SE\frac{1}{4}$ Sec. 13, T. 3 N., R. 3 E., Lots 2, 3, $SE\frac{1}{4}$ $NW\frac{1}{4}$, $S\frac{1}{2}$ $NE\frac{1}{4}$, $NE\frac{1}{4}$ $SW\frac{1}{4}$, $NE\frac{1}{4}$ $SE\frac{1}{4}$ Sec. 18, $NE\frac{1}{4}$ $NW\frac{1}{4}$ Sec. 19, T. 3 N., R. 4 E., and you will advise him that his application is rejected as to the $SE\frac{1}{4}$ $SE\frac{1}{4}$ said Sec. 18 subject to his right of appeal. Thus their respective holdings are as nearly equalized as possible.

Boise 623536-024014 "C" HCG.

You will allow claimants thirty days from notice to appeal herefrom and advise them that if they fail to do so within the time limited, the allowance of their applications as above indicated will become final.

Robert Tullman

George A. Percy who has filed over my application is a single man, never was married and has no one to support.

2nd: - The part over filed on by George A. Percy has a spring on it and this is very essential for to make that which I have applied for suitable for pasture.

Sirs:

George A. Percy made H.E. (F.C. 2293, May 13, 1903), for NW $\frac{1}{4}$ SE $\frac{1}{4}$, S $\frac{1}{2}$ NE $\frac{1}{4}$ Sec. 19, NW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 20, T. 3 N., R. 4 E., and on July 17, 1912, he filed an additional stock raising application 024014, for the NE $\frac{1}{4}$ NW $\frac{1}{4}$, W $\frac{1}{2}$ SW $\frac{1}{4}$ Sec. 19, E $\frac{1}{2}$ NE $\frac{1}{4}$, E $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 19, NE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 19, NW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 20, said township and range.

George A. Pringle made H. E. 014765, and additional thereto 014940, the latter made under Sec. 2 of the Act of April 28, 1904 (35 Stat., 527), together covering NW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 19, lot 4, SE $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 19, said township and range. The two entries were patented under one final certificate which issued December 27, 1916, and on April 3, 1919, he filed

Boise 015340 778 800

additional stock raising application 023596, for NE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 18, T. 3 N., R. 3 E., NE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, lots 2, 3, Sec. 18, NE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 18, T. 3 N., R. 4 E.

The stock raising applications conflict as to SE $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 18. All the land involved has been designated under the stock raising act and the said conflicting tracts were covered by designation effective April 15, 1920.

In affidavit filed March 9, 1922, Percy showed ownership of and residence upon his original entry at the time of the filing of his additional application, and in a letter to this office of May 23, 1922, he further stated that he has lived thereon for 19 years, but that Pringle has not lived upon his original entry for about 7 years. In order to claim a preferential right under Sec. 8 of the stock raising act, it was held by the Department on April 12, 1921, that it is required that a homesteader must be owning and living upon his original entry on the date the designation of the conflicting tracts becomes effective. (See case of Christian N. Wammen vs. Griffith Robinson, Bellefleur 015399 - 015711).

Pringle, whose original entry was patented almost

Spise 014940 etc "0" HOG

3 years prior to the filing of his additional application, has made no showing as to ownership and residence upon his original entry. You will, therefore, notify Pringle that his stock raising application is hereby rejected, as to the conflicting tracts, subject to his right of appeal within 30 days from notice. It is, however, inclosed for allowance as to the remainder of the land, should he so indicate or in the event of his failure to appeal within the time limited, in which latter event you will allow Percy's application which is also inclosed. However, should Pringle take action as allowed, you will promptly forward any showing made by him to this office, and at the same time return both applications for further consideration.

Very respectfully,

Acting Assistant Commissioner

respectfully ask that all of said lands be designated as "stock-raising lands" and subject
to entry under the act of December 29, 1916. my original entries

Referring to the lands contained in my present application
("my original entry", "my additional entry", "my present application", or "all the above entries")
I do solemnly swear that there are no streams, springs, or bodies of water, or irrigation
ditches, on or adjacent to said lands Except small seepage

That I propose to obtain water for stockwatering purposes from The Seepage

proving them

That there are no wells, either ordinary or artesian, on or near said lands.
(If any, show fully why
No wells of any kind on these lands

None of these lands are now under
irrigation or none susceptible to iriga-
tion from any source. at water

(Set forth fully any further reasons why this land should be designated as stock-raising lands, such as climatic conditions, altitude, etc.)

The reason I desire this land designated under the act of Dec 29 1916. (640 acres act) is that there is only about 20 acres on my original 100 acres that I can cultivate in any manner (practical) and same will not raise forage crops but not valuable crops of grain or other cereals or fruits and the balance of the land is only good pasture land, and all the land in my present application is plenty for grazing land, and all the land together will make a good stock farm and be sufficient for the support of my self and family.

NOTE—In preparing these petitions for designation observe carefully all the requirements of Circular No. 523 and bear in mind that the applicant must show positively that the lands are of the character contemplated by the act. Perjury in connection with these petitions will be rigorously punished. The burden of proof rests with the applicant. Where all the lands involved are contiguous one petition (in duplicate) will answer for both original and additional entries, but where the lands are non-contiguous, separate petitions (each in duplicate) must be filed for each non-contiguous tract. The map is not an absolute requirement but is desired and should be used whenever possible. This affidavit may be executed before any duly qualified officer using a seal and administering oaths. The applicant acquires no right to fence or use the land until the application is ALLOWED, and no credit can be claimed for improvements placed on the land while this is pending.

(Circular No. 460)

MANNER OF PROCEEDING IN CONTESTS INITIATED UPON A REPORT BY A REPRESENTATIVE OF THE GENERAL LAND OFFICE

DEPARTMENT OF THE INTERIOR

GENERAL LAND OFFICE

WASHINGTON, D. C., February 26, 1916.

To *Special Agents, and †Registers and Receivers,
United States Land Offices:

The following rules are prescribed for proceedings in contests initiated upon a report by a representative of the General Land Office. All existing instructions in conflict herewith are superceded:

1. The purpose hereof is to secure speedy action upon claims to the public lands, and to allow claimant, entryman, or other claimant of record, opportunity to file a denial of the charges against the entry or claim, and to be heard thereon if he so desires.
2. Upon receipt of a report this office will consider the same and determine therefrom whether the facts stated, if true, would warrant the rejection or cancellation of the entry or claim.
3. Should the charges, if not disputed, justify the rejection or cancellation of the entry or claim the local officers will be duly notified thereof and directed to issue notice of such charges in the manner and form hereinafter provided for, which notice must be served upon the entryman and other parties in interest shown to be entitled to notice.
4. The notice must be written or printed and must refer to the letter from this office by initial and date, as authority for issuing the notice, and must state fully the charges as contained in said letter; also the number of the entry or claim, subdivision of land involved, name of entryman or claimant or other known parties in interest.
5. The notice must also state that the charges will be accepted as true, (a) unless the entryman or claimant files in the local office within thirty days from receipt of notice a written denial, under oath, of said charges, with an application for a hearing, (b) or submits a statement of facts rendering the charges immaterial, (c) or if he fails to appear at any hearing that may be ordered in the case.
6. Notice of the charges may in all cases be served personally upon the proper party by any officer or person or by registered letter mailed to the last address of the party to be notified, as shown by the record, and to the post office nearest to the land. When it is necessary to serve notice on the unknown heirs of a person in interest, the same must be addressed to that person at his address of record and also at the post office nearest the land. Proof of personal service shall be the written acknowledgment of the person served or the affidavit of the person who served the notice, attached thereto, stating the time, place, and manner of service. Proof of service of notice by registered letter shall consist of the report of the †register and receiver who mailed the notices, accompanied by the post office registry return receipts, or the returned unclaimed registered letters.
7. If a hearing is asked for, the local officers will consider same and confer with the *Chief of Field Division relative thereto and fix a date for the hearing, due notice of which must be given entryman or claimant. The above notice may

be served by registered mail. By ordinary mail, a like notice will be sent to the *Chief of Field Division.

8. The *Chief of Field Division will duly submit, upon the form provided therefor, to this office, an estimate of the probable expense required on behalf of the Government. He will also cause to be served subpoenas upon the Government witnesses and take such other steps as are necessary to prepare the case for prosecution.

9. The Government must appear with its witnesses on the date and at the place fixed for said hearing, unless there is reason to believe that no appearance on behalf of the Government will be required. The officer in charge of hearings must, therefore, keep advised, as far as possible, as to whether the defendant intends to appear at the hearing. The *Chief of Field Division may, when present, conduct the hearing on behalf of the Government.

10. If the entryman or claimant fails to deny the charges under oath and apply for a hearing, or to submit a statement of facts rendering the charges immaterial, or fails to appear at the hearing ordered without showing good cause therefor, such failure will be taken as an admission of the truth of the charges and will obviate the necessity for the Government submitting evidence in support thereof, and the †register and receiver will forthwith forward the case with recommendation thereon to the General Land Office and notify the parties by registered mail of the action taken. In cases finally closed upon default of claimant if application to reopen any case is filed with the †register and receiver they will forthwith forward same with recommendations to the General Land Office.

11. Upon the day set for the hearing and the day to which it may be continued the testimony of the witnesses for either party may be submitted, and both parties, if present, may examine and cross-examine the witnesses, under the rules, the Government to assume the burden of proving the charges, unless otherwise ordered.

12. If a hearing is had, as provided in paragraph 11, the local officers will render their decision upon the record, giving due notice thereof, in the usual manner. When decision is adverse to the Government, notice thereof must be sent to the *Chief of Field Division.

13. Appeals or briefs, if filed, must be in accordance with the rules, but need not be served upon the *Chief of Field Division or Government representative in charge of the hearing.

14. The above proceedings will be governed by the rules of practice. All notices served on claimants or entrymen must likewise be served upon transferees or mortgagees.

Very respectfully,

CLAY TALLMAN,
Commissioner.

ANDRIEUS A. JONES,
First Assistant Secretary.
