Findings of Fact

The Director of the Idaho Department of Water Resources filed his *Director's Report for Domestic and Stockwater, Reporting Area 22 (IDWR Basin 85)* on March 19, 1999. The Director recommended the above 18 claims to the United States of America, Department of Interior, Bureau of Land Management, Idaho State Office, 1387 S. Vinnell Way, Boise, Idaho, 83709-1657, for .02 cfs from springs for year-'round stockwater use in Idaho, Lewis and Nez Perce Counties with priority dates of January 1, 1868, January 1, 1878, or November 18, 1895, based on beneficial use. For each claim, the Director also noted: "This water right is also claimed based on federal law with an April 17, 1926, date of priority pursuant to an Executive Order signed the same date and known as Public Water Reserve 107."

On June 2, 1999, the State of Idaho filed *Objections* to priority date ("If this water right exists, the State Law based portion of this right should have a priority date no earlier than June 28, 1934.") and alleging that the water right should not exist. On September 17, 1999, the Pickett Ranch & Sheep Company, the Western Stockgrowers Association, Joe Tugaw, Michael and Gary Poulton, Karl, Jared, Scott and Bruce Bedke, Jerry Hoagland and Joyce Livestock Company ("private parties") filed *Objections* alleging the water rights should not exist.

On August 29, 2002, the United States and the private parties filed a *Stipulation to Resolve Objections* in multiple subcases, including the above 18 subcases, and an *Order*

Granting Withdrawal of Objections and Responses was entered on September 5, 2002. On April 21, 2003, an *Order Dismissing State of Idaho Objections* was entered based on the *Stipulation*.

On June 10, 2003, the United States filed a *Notice Regarding Priority Date* stating the claimed priority date should be April 17, 1926, and requesting an evidentiary hearing. An I.C. §42-1411A hearing was held on September 25, 2003, for the United States to demonstrate a *prima facie* case of the existence of the water rights established under federal law (even though objections to the claims were filed). On the date of the hearing, the United States submitted an affidavit by Frederic W. Price (a BLM water rights specialist) who said the land surrounding each claim was unreserved federal public land as of April 17, 1926, the water sources were confirmed by field investigation and there is sufficient surface water at the sites for consumption by livestock.

On September 29, 2003, the United States, with IDWR's concurrence, filed an *Amended Claim Standard Form 5* in subcase 85-15241 to change the spelling of the tributary from "Six Mile Canyon" to "Sixmile Canyon." The priority date noted in the *SF-5* was June 28, 1934, because IDWR's concurrence was limited to the state based elements only: "Since by law IDWR neither investigates nor recommends federal reserved water rights it has no knowledge of, nor opinion regarding, the validity of the federal basis of the right." The United States intended to pursue its federal law basis for each claim, despite its use of the *SF-5* to document the corrected spelling.

Conclusions of Law

The United States of America is entitled to partial decrees adjudicating federal reserved water rights for the above 18 claims as described in the attached *Special Master Recommendations for Partial Decrees for Water Rights 85-11920, 85-11924, 85-11928, 85-11930, 85-11932, 85-11934, 85-11936, 85-11938, 85-11940, 85-11942, 85-11944, 85-11946, 85-12172, 85-12173, 85-12174, 85-15211, 85-15241 and 85-15242*.
