Re: Water Right Claim A63-18630
Our File No. 6626-3

Dear Ms. Brown:

Per our recent telephone conversation enclosed please find an original letter from Mrs. Louise Teeter stating her recollection of the use of water right 63-18630. I trust that this letter will serve as sufficient evidence of the priority date of development and use for you to recommend Mrs. Teeter's water right. If this is not the case, please contact me immediately.

If you have any questions please call.

Sincerely,

Michael C. Creamer

Re: Water Right Claim A63-18630

Dear Ms. Brown:

I am responding to your August 19, 2003 request for evidence concerning the priority of water right claim A63-18630. This ground water right originally was claimed in my name, but since has been conveyed to Teeter Farms LP. I have personal knowledge about the development and use of this water right on our farm.

I and my husband Raymond Teeter moved onto the farm that is the place of use for this water right in the fall of 1940. At that time there was no well serving the property, and surface water was being supplied by Settlers Irrigation District, together with some rental water from Nampa & Meridian Irrigation District, to irrigate our eighty acres (forty acres in the NWNE, and 40 acres in the NENW of Section 33, T4N, R1W, B.M.). However, in the late 1940s this surface water was not sufficient to irrigate our farm and so we had Hosac and Company of Nampa drill us a well, and we pumped water from the well to serve these same eighty acres. I recall that the well was drilled in the late 1940s or in 1950 because Anderson Ranch Reservoir had not yet been completed. This well has continued to be used on this place of use. We installed a new pump in the well to continue to irrigate these eighty acres with ground water in approximately 1984 or 1985.

Please let me know if you need any additional information in this regard.

Sincerely,

Louise Teeter

Louise Teeter
