RE: Jernberg – SRBA Claim no. 31-7311 and proposed claim no. 31-11845

Dear Roger:

On March 15, 2004, the SRBA District Court issued its *Order Dismissing Motion to Set Aside Partial Decrees, and Setting Aside Partial Decree and Issuing Partial Decree* for water right nos. 31-2357, 31-2395 and 31-7311. In that *Order*, the Court requested that the Idaho Department of Water Resources (IDWR) file an Amended Director's Report addressing the uncultivated land under a new water right claim number. I have enclosed for your review a notice of claim for the uncultivated land with a new water right number, 31-11845. This proposed claim is the difference between what was originally claimed by your client under claim no. 31-7311 and what is now partially decreed for that claim. **The enclosed claim of IDWR data representing the claim could be a starting point; you and your client need to claim what you believe are the proper elements for this water right claim, if what you see on the enclosed report is inadequate.**

IDWR intends to include a recommendation for this claim in its February 2005 director's report of late claims provided the Department receives a completed claim form from your client by June 4, 2004. Submitting the claim by that time will allow any necessary investigation to occur this irrigation season. Carter Fritschle will be the agent who will investigate this claim.

13. Other Water Rights Used:

14. Remarks:

This claim was created after remand by the Court on 31-7311 to address the extent of beneficial use on the uncultivated land. The following remark was removed in the Amended Decree of 31-7311 and is the basis of this claim: "Water diverted under this right [31-7311], and an additional 4.99 cfs of ground water diverted from the points of diversion described above [for 31-7311] may also be diverted onto 663 acres of uncultivated pasture located in T07N R34E, Sections 15, 16, 21, and 22, but this additional use is not an appurtenance of the land upon which it occurs." The

place of use shown in this claim record on 3-22-04 was greater than 663 acres but does not absolutely accurately represent the land owned by the claimant in the four sections that was not a part of 31-7311.

THE USE OF WATER FOR IRRIGATION UNDER THIS RIGHT MAY BEGIN AS EARLY AS APRIL 1 AND MAY CONTINUE TO AS LATE AS OCTOBER 31, PROVIDED OTHER ELEMENTS OF THE RIGHT ARE NOT EXCEEDED. THE USE OF WATER BEFORE APRIL 15 AND AFTER OCTOBER 15 UNDER THIS REMARK IS SUBORDINATE TO ALL WATER RIGHTS HAVING NO SUBORDINATED EARLY OR LATE IRRIGATION USE AND A PRIORITY DATE EARLIER THAN THE DATE A PARTIAL DECREE IS ENTERED FOR THIS RIGHT.
