REF: Decreed water Right 85-11728, Adjudication Claim #39576

Feb. 20, 2004 letter from Kari Lynn Townsac, Dept. of Water Resources, Boise, addresses discrepancy of deeded lands description, SWSW Sec. 11, T36N R3W, versus Water right description, NWSW of same T.R.S.

March 8, 2004. I had a telephone conversation with (Shelly) at Boise Office. He referred me to Twin Falls office.

March 8, 2004. Twin Falls office recommended I submit documentation of legal ownership of lands and water rights and request an amendment to the water rights decree addressing the corrected location of the point of diversion/point of use.

I believe when Rugner and Elaine Anderson first filed a water right claim to this well, they inadvertently entered an incorrect location (SE 1/4 of NW 1/4 of SW 1/4).

As the correct property description is the SW 1/4 of the SW 1/4 and the well is located on the property, I believe the correct water right should read SW 1/4 of SW 1/4.

I am requesting an amended water right decree. Hopefully, the original date of priority, April 1, 1973, would apply.

If more documentation is required or other steps are necessary, please advise.

I do want to take this opportunity to relay my appreciation of the helpful, courteous and friendly personnel I have contacted in this matter. Thank You.

Respectfully,

Mariand P. Hart
