**I. FINDINGS OF FACT**

A notice of claim was filed for the above listed water rights pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources examined the water system for this reporting area. The *Director's Report* contained a recommendation or abstract for the elements of these water rights.

On June 9, 2000, the United States of America, Bureau of Reclamation filed a *Motion to File Late Objections* in multiple subcases. The Motion was granted on July 28, 2000. The objections were filed to "General Provisions Basin 65 Irrigation & Other Part II (3) Separate Streams Administration." A Show Cause Hearing was set for January 27, 2004. On January 27, 2004, this Court filed correspondence dated January 26, 2004, received from the claimant's attorney stating that claimant did not oppose the addition of the General Provision separate streams language to the "other provisions necessary" element of these water rights.

**II. CONCLUSIONS OF LAW**

Therefore based on the file and record herein, IT IS RECOMMENDED that the water rights listed on attached Exhibit A be decreed with the elements as set forth in the attached *Recommendations for Partial Decrees Pursuant to I.R.C.P. 54(b)*.

DATED April 14, 2004.
