Re: Standard Form Five for Subcase no. 63-05057

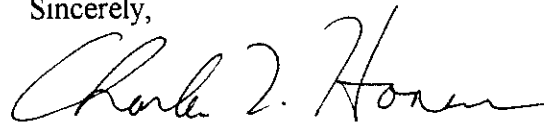

Dear Mr. Gehlert:

This law firm represents the interests of Francis and Shirley Mangum with respect to their water rights, and particularly with respect to water right no. 63-05057, which is the subject of the above referenced SRBA subcase. The Boise Project Board of Control and the U.S. Bureau of Reclamation filed objections to IDWR's recommendation of my clients' water right on the grounds that the season of use was erroneously listed.

Mr. Barker has provided me with a Standard Form Five which settles the objections filed by the Board of Control and the Bureau by stipulating to a season of use of 4/1 to 11/15. I enclose the original Standard Form Five with this correspondence. As you can see, my clients have signed the Standard Form Five, and initialed the water rights element page. If appropriate, will you please sign the Standard Form Five, initial the water rights element page, and forward the same in the enclosed envelope to Susan Hamlin Nygard for IDWR's signature and filing?

I would appreciate your assistance in quickly resolving this matter, as my clients have been anxious to put this matter behind them for some time. Please contact me with any questions or concerns you may have.

Sincerely,

Charles L. Honsinger
