) (USDI / BLM)
Case No. 39576) (see two lists of 109 claims attached)
)
) SPECIAL MASTER REPORT

Findings of Fact

The Director of the Idaho Department of Water Resources filed his *Director's Report for Domestic and Stockwater, Reporting Area 12 (IDWR Basin 47)* on August 14, 1998. The Director recommended the above 109 claims to the United States of America, Department of Interior, Bureau of Land Management, Idaho State Office, 1387 S. Vinnell Way, Boise, Idaho, 83709-1657, for .02 cfs from various springs, creeks and streams for year-'round stockwater use in Twin Falls County, all with a priority date of January 1, 1875. based on beneficial use. The Director also noted with each recommendation under priority date:

4/17/1926 Claimed under federal reserved water right.

This water right is also claimed based on federal law with an April 17, 1926, date of priority pursuant to an Executive Order signed the same date and known as Public Water Reserve 107.

The State of Idaho filed *Objections* on February 10, 1999, objecting to priority date and alleging the water rights should not exist. On May 12, 2003, the United States and the State filed a *Joint Motion to Vacate Hearing on Dispositive Motions and to Proceed with Hearing Under I.C. § 42-1411(A)*. On February 24, 2004, the State filed a *Report on Status of State of Idaho's Objections for Selected Subcases in Basins 35 and 47*. In the *Report*, the State said its objections in the 109 subcases were withdrawn.

On April 8, 2004, the United States filed an *Affidavit of John R. Ash* in subcases 47-15285, *et al.* covering 121 subcases, including the above 109 claims.¹ Mr. Ash, a natural resource specialist (water rights) with the USDI / BLM in its Jarbidge Field Office located in Twin Falls, Idaho, stated that for the **PWR 28** claims, the land surrounding the 19 claims was unreserved federal public domain as of May 31, 1915, the water sources were confirmed by field investigation and there is sufficient surface water at the sites for consumptive use by livestock. For the **PWR 107** claims, Mr. Ash stated that the land surrounding those 90 claims was unreserved federal public domain as of April 17, 1926, the water sources were confirmed by field investigation and there was sufficient surface water at the sites for consumptive use by livestock.

Conclusions of Law

The United States is entitled to partial decrees adjudicating water rights as described in the attached *Special Master Recommendations for Partial Decrees for Water Rights*.

DATED April 14, 2004.
