	)	

I. PROCEDURAL HISTORY

A notice of claim was filed for the above water rights by the United States, through the Department of Interior, Bureau of Land Management (United States) pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources examined the water system for this reporting area. The *Director's Report* contained a recommendation or abstract for the elements of these water rights.

On September 17, 1999, objections were filed to the above water rights by the State of Idaho, Pickett Ranch & Sheep Co, Western Stockgrowers Assoc., Joe Tugaw, Michael Poulton, Gary Poulton, Karl Bedke, Jared Bedke, Scott Bedke, Bruce Bedke, Jerry Hoagland and Joyce Livestock Company. On August 29, 2002, the parties filed a *Stipulation and Joint Motion for Order Approving Stipulation, Notice of Withdrawal of Objections and Responses* filed by Norman Semanko for Bruce Bedke et al, *Notice of Withdrawal of Objections and Responses* filed by Norman Semanko for Western Stockgrowers et al. On September 18, 2002, an *Order Dismissing Objections and Responses with Prejudice; and Order Dismissing Parties* was issued. On March 11, 2003, the State of Idaho filed a *Stipulation to Resolve Objections*. On April 23, 2003, a *Special Master's Report and Recommendation* was issued. On April 24, 2003, an *Order Withdrawing Special Master's*

Report and Recommendation was issued. On May 15, 2003, the United States filed a *Notice Regarding Priority Date* to the water rights listed on Exhibit A. The *Notice* states the claims listed on Exhibit A are federal reserve water rights based on Public Water Reserve 107. An **Order Dismissing Objections and Dismissing the State of Idaho as a Party** was issued on June 30, 2003.

On April 23, 2004, a trial was held on these and other claims pursuant to Idaho Code 42-1411A(12), which requires the United States to demonstrate a *prima facie* showing of the existence of the claimed federal reserve water right. In conjunction with that trial, the United States filed affidavits, which were admitted into evidence, for each of the claimed rights to meet its burden.

II. FINDINGS OF FACT AND CONCLUSIONS OF LAW

A. Based upon the file and record in these subcases, and the affidavits presented at the 1411 A hearing on the matter, this Special Master makes the following findings of fact and conclusions of law for the water rights listed on Exhibit A:

1. Prior to April 17, 1926, the subject water source for each claim was located on unreserved federal public domain land.
2. Prior to April 17, 1926, no water rights had been established pursuant to state law for the use of the water from the subject water source for each claim.
3. On April 17, 1926, President Coolidge executed Public Water Reserve 107, which withdrew the 40 acre tract of land upon which the subject water source for each claim is located from the public domain. The tract of land withdrawn for each claim is described as the "place of use" element on each of the attached *Special Master's Recommendations*.
4. The subject water source for each claim consists of a spring or water hole of the type contemplated by Public Water Reserve 107.
5. Contemporaneously with the withdrawal of the land, President Coolidge impliedly reserved enough water to fulfill the primary purpose of the land reservation for each claim.
6. The minimum amount of water necessary to fulfill the primary purpose of the land reservation is the amount set forth in the "quantity" element on each of the attached *Special Master's Recommendations*.
7. The United States has satisfied its burden under Idaho Code section 42-1411A(12) as to the nature and existence of the claimed federal reserve water right for each claim.
8. The elements of the federal reserved water right for each claim are set forth on each of

the attached *Special Master's Recommendation*.

B. For the water right 69-10743, this Special Master makes the following findings of fact and conclusions of law:

1. On June 11, 1999, and on July 1, 1999, the United States and the State of Idaho filed stipulations resolving objections raised with respect to the state-basis for the claims not covered under consolidated subcases 72-11767, 51-04031, 55-04072 and 61-04057. See *Stipulation to Resolve Objections, Consolidated Subcase Nos. 23-10859, 24-10221, 25-13659, 27-11604 (June 11, 1999)* (resolving state-bases for dual-based claims); *Stipulation to Resolve Objections (July 1, 1999)* (resolving claims made solely pursuant to state law).
2. As a result, the priority dates for the state-law basis for those subcases subject to the *Special Master's Order Granting Summary Judgment on Consolidated Subcases 51-04031, 55-04072, 61-04057 and 72-11767* is June 28, 1934.
3. According to the *Affidavit of Frederic Price* filed on March 11, 2004, the land appurtenant to water right 67-10743 was not unreserved federal land on April 17, 1926 and therefore does not qualify as a federal reserve water right.

II. CONCLUSIONS OF LAW

Therefore based on the file and record herein and pursuant to the 1411A hearing, and affidavits IT IS RECOMMENDED that the above water rights be decreed with the elements as set forth in the attached *Recommendations for Partial Decrees Pursuant to I.R.C.P. 54(b)*.
