Roxanne –

Ben Garechana (208) 756-5205 called about claim # 74-319F. He said he couldn't attend the meeting in Salmon on 5/19. He was questioning why the claimed flow of 1.39 cfs was reduced to 0.60 cfs. I think he knows it was reduced using a flow/acreage proportion – but I told him I'd ask you to call. Gary Spackman

5/28/04: telephone call; explained that his portion of 74-319A was 0.03 cfs/acre on 20 acres → 0.6 cfs
