Telephone Number: (208) 799-1706

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source) :

We disagree with the recommendation of 0.050 CFS and feel it should be the 0.11 CFS originally claimed.

2. Describe the changes you wish to make in the proposed recommendation:

The PO box number and the contact phone number need to be changed as indicated above. We feel that the recommended level of 0.050 CFS is not sufficient to meet the needs of the designed area. We request that the recommended level be returned to the original claim of 0.11 CFS.

3. Give a brief explanation as to why you disagree with these portions;

The camp area was designed to accommodate 14 camp trailers. We feel that the original claimed amount of 0.11 CFS will be required to meet that need and the system in place was designed to provide that much water.

 X **WE DO NOT AGREE with this proposed recommendation.**

 I AGREE with this proposed recommendation: No Changes need to be made.
