September 8, 2003

I, Richard C. Boehmer was 10 years old when my parents purchased the property which is now located at 10308 West State Street, Star, Idaho. The Year was 1962. There were two wells that were located on the property. One well on the back of the property was on the west property line or near to it, that well was shared with the neighbor on the west. Our share of the that well water was used for Irrigation of the pasture or farming and watering of livestock. The other well was located beside the house on the east side. This well was used for house water and watering of the yard.

RE: CHANGE IN OWNERSHIP FOR SNAKE RIVER BASIN ADJUDICATION
(SRBA) 63-04681A

Dear Sir or Madam:

It has come to our attention that you may have recently purchased a tract of land in ADA County. According to our records, the property to which I am referring to was most recently owned by Fern E Tucker. The legal description is as follows:

T04N R01W S8 SW1/4 SE1/4

This property was filed on in the Snake River Basin Adjudication (SRBA). IDWR is currently in the processing of reviewing the Adjudication claims in basin 63 part 2. We recommend that if, in fact, you now own the property in question, and do use the water for the purposes claimed, you file a "Change in Ownership" with this department in order that we may send all further correspondence to the appropriate owner(s).

Enclosed is a Change in Ownership form. Please fill out the form completely, sign and date it and return it to my attention along with a "copy" of your Warranty Deed and legal description of the property you have purchased.

If you have any questions regarding this matter, please call this office at 334-2190.

RE: EVIDENCE OF PRIORITY

Dear Claimant (s):

The Idaho Department of Water Resources has begun its water right review in Basin 63. The Notice(s) of Claim identified with the number shown **above in the "address" label and at the "end" of this letter** has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled **"Evidence of Priority"**. The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some examples of Documents Which May Be Evidence of the Priority Date"**.

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel.

.....
The Department can not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.
.....

Please submit the documentation supporting the priority date by **September 15, 2003, referencing all documents with the corresponding Notice number.** If you have any questions not covered by this letter or the enclosed pamphlet, please feel free to contact me at (208) 334-2190.
