Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.
Adjudication Bureau Chief

From: Sue Bock

Re: Split of 65-10840

This claim was filed on by Cook 65-10840A for 4 acres and by Ward 65-10840B for 4 acres. The original right was decreed for 7 acres and 0.17 cfs. Documents in the file shows that Cook purchased over 10 acres with 5.02 of those acres occurring in the SWNE of Sec 22. Ward, daughter of original claimant Simpson, has 5.52 acres in the SWNE of Sec 22.

A memo in 65-10840B by Jan Shurte on 5/20/91, states that Ward feels she has more of the irrigated acres than Cook, and therefore filed on 4 acres also. It is apparent by looking at the 1987 NAPP photo that approximately 11.5 acres in the SWNE is irrigated, this does not take into account homes and out buildings. Additionally 3.66 acres in the SENW look irrigated, no water right covers these acres owned by Cook.

It is not possible in reviewing the original mylar field exam sheet where the 7 acres of irrigation took place. After talking with Jan about this, we thought it best to split the claim to 3.5 acres apiece and let second-round notice take care of the expanded acres.

SUBJECT

Explanation of split claims + acres in.

This map reflects the exact location of each parcel orig. owned by Carl Simpson. In the PRBA the maps show a total of 7 acres outlined for ownership by Mr. Simpson rather than the 10.52 shown in the survey done in 19 . Only 7 acres were decreed as being irrigated for Mr. Simpson's claim # A65-10840. All the 10 acres minus subd. ^{SIGNATURE} over →

Pg. 1 of memo

and the orig. home of Mr. Simpson - appear to have been irrigated (approx. 8.5 acres), and since all 10 acres lie below the ditch, it appears the irig. has occurred since the ditch was put in. Jean Ward is Carl Simpson's daughter and she states that the property showing 5.52 acres after the parcel split has more irrigated ground than the 10.02 acre parcel. The 10.02 acre parcel contains the home & outbdg. However, the Cooks who bought the 10.02 acre parcel filed on 4 of the 6 acres cleared. So, when the second split of this right was

Pg. 2 of memo

filed, only 3 acres were remaining.
Miss. Ward decided to file on 4 acres
anyway, since 3 just wasn't correct.
At the time of review & examination
of these A+B rights, research should
be conducted to see if the orig. acres
(8.5) are a part of the neighboring land-
owner's orig. rights & could be split off
of other rights or not. Also, ~~if~~ if that
proves not to be possible, we could con-
sider it as an expansion in acres &
decree it again for the same Cys and
a total of 8 or 9 acres. In 5/20/91
