327.4 ACRES TOTAL

USE OF THIS RIGHT WITH THE RIGHTS LISTED BELOW IS LIMITED TO THE IRRIGATION OF A COMBINED TOTAL OF 327.4 ACRES IN A SINGLE IRRIGATION SEASON. COMBINED RIGHT NOS.: 29-187, 29-188, 29-191, 29-193, 29-11678, 29-11681.

THIS RIGHT IS LIMITED TO THE IRRIGATION OF 103 ACRES WITHIN THE PLACE OF USE DESCRIBED ABOVE IN A SINGLE IRRIGATION SEASON.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Decreed

RIGHT INCLUDES ACCOMPLISHED CHANGE IN POINT OF DIVERSION
PURSUANT TO SECTION 42-1425, IDAHO CODE.
RIGHT INCLUDES ACCOMPLISHED CHANGE IN PLACE OF USE PURSUANT TO
SECTION 42-1425, IDAHO CODE.
THE FOLLOWING RIGHTS ARE ALSO DIVERTED THROUGH POINT OF
DIVERSION DESCRIBED ABOVE: 29-187, 29-188, 29-191, 29-193, 29-11678,

Lava Hot Springs, Idaho
April 9, 1990

Idaho State Water
Resources Board:

I am writing this as a member of The Lava Irrigation Co., or the Sunny Side Ditch as it is commonly known; and also as a member of the Kidd family. We are the only family to still own our original homesteads, all the rest have changed ownership times without number. I am the oldest living person to have known constantly about the irrigation situation in this community.

I went to college with Elmo Hyggenson, in Pocatello in 1929 and 1930. He was your hydrologist and I believe his son is your hydrologist now.

Our project is small, only slightly more than a thousand acres in the beginning. Highway 30 has

MICROFILMED

NOV 13 1992

Taken away some of our lands. There was plenty of water, for everyone in the beginning. They turned what water they needed into our canal and turned it back into the river when they were through using it. They always tried to keep some water in the canal through the winters for livestock. Sheep men would buy hay from the farmers and feed the sheep in the fields and have canal water for the sheep to drink.

They built the reservoir at Chesterfield, they tried turning the stored water down the Portneuf River, which would not carry the extra water. They paid damages for several years to farmers downstream for flooding the fields. They then built the long outlet canal to bypass the farms. In the beginning the canal would not carry the

water, but the canal eroded until we have the bad situation we have today.

The McCammon Mill sued to get its water, and they won the lawsuit, and a decree was handed down about the various water rights. Since then, the McCammon Mill sold its water right, I believe to either the McCammon Canal Co. or to some of its members.

Ever since, our project has had less and less water, so we have tried to get water into our canal before the irrigation season began, and also after the irrigation season had ended, to soak up our fields for the next season. I personally have watered fields when several inches of snow were on the ground. I have done this all through my life time. Nobody has ever tried to stop me, and I feel that

MICROFILMED

NOV 13 1992

we have established a right to do this.

Now, companies have planned to build hydropower plants in the river, and they intend to demand the entire river flow when the irrigation season ends until the spring when the season begins again. The way things are shaping up, we will have scarcely any water at all. They should not be allowed to do this to us. The plants are not needed at all, and the Federal Government should never have approved their building.

Sincerely

P.O. Box 137 William Kidd
Lava Hot Springs
Idaho, 83246

NOV 13 1992

TO WHOM IT MAY CONCERN:

I, Fred G. Walker, would like to say, I was born and raised on the Walker Ranch located near Lava Hot Springs, Idaho, and lived there until February 1953. I was also the Ditch Checker for one summer while living there. There was plenty of water for all of the ranches in the area before the Chesterfield Dam was constructed, no one in the area had any water problem until after the construction of that Dam. Then the situation seemed to change a very great deal. The Sunnyside Ditch Company had plenty of water for all users at the beginning as well as at the ending of the season. They all irrigated and used the water all season until it froze up in the winter. We had all the water for all the ranchers in the area all season long. Everyone had all the water needed to irrigate their land from early in the spring until it all froze up with the winter. My folks before me had plenty and I had plenty for the same acres and the same farm from early spring until it froze up with the winter.

Signed Fred G. Walker
Fred G. Walker

Subscribed and sworn to before me this 4th day of April 1990, at
Cokeville, Lincoln County, State of Wyoming.

My Commission expires: Dec. 1, 1993

MICROFILMED

NOV 13 1992

APPENDAGE TO THE FILING OF WATER OF Kenneth, Colleen, & Jim Andrus

Our present decreed water rights are jeopardized by

1. Illegal loss free transportation of storage water in the river channel. We ask the adjudication process to correct this situation by requiring the users of the storage water to stand the loss or require all the water users in the river district to share in the loss on a percentage basis according to the cubic feet of water they have decreed to them.
2. Many years after established use rights and decreed rights numerous wells have been allowed in the upper basin area, draining the aquifer. We ask an in depth study be made to determine the affect on the river flow before a decision is made.

Historically the amount of our water has been cut down during the irrigation season because there is not enough water to fill all the rights. Of necessity we have used the water at any time during the non irrigating season in any amount needed first come first serve down the river. We request this use right recognized and established as a legitimate water right.
